Pale Carnations
By Mutt & Jeff

This walkthrough intends to show all the paths through the game in an objective way.
Colors and styles are only meant to highlights elements, not influence your decision.
There isn't a right or wrong way through the game, only **you** should decide.

Only decisions that have an impact on the story or your character are shown.
There are obviously many scenes that can play differently based on your choices, but "cosmetic" differences or small alterations in the dialogues are not part of this walkthrough.

The PDF is best viewed on a touch screen where it is easy to drag, zoom in and out with the fingers.

On a PC with Acrobat Reader, make sure to use the "hand" icon to easily drag with the mouse.
Use *Control* + Mouse wheel to zoom in or out.

Legend

Character and game related attributes that can be increased/decreased (i.e.: a number value)
will be represented with an icon followed by the character/description name: ❤️ Bubu or 💔 Bubu

More complex values will be written as text instead:
girls kissed +20

Reference to these values will reuse the same icon or text:
Bubu ❤️ is at least 5
girls kissed is at least 25

While the game is being developed, decisions that do not impact the story (yet) will be displayed like this:
❤️ ¿Granny¿
¿grandmas kissed +20¿

Decision labels

When something you do can have an impact later on in the game, a label will be visible where it happens like this
decide something #123
In some rare cases decisions can be reversed, to distinguish it more easily the label will look like this
did not decide something #123

References to this label will also include the same number
so it is easy to track it down to where it happened (could be multiple places).
decided something #123

Some decision labels can denote a progression and sometimes we must check if the current value is above or below a certain threshold. To keep it succinct, all accepted values will be listed in brackets.

For example let's define some karate belts and assign each one to a numerical value:
0 ➡ white belt #78, 1 ➡ yellow belt #78, 2 ➡ orange belt #78
If in the code the condition checks that the value must be at least 1 (`karate_belt >= 1`)
It will be listed like this: karate belt: [yellow, orange] #78

While the game is being developed, decisions that do not impact the story (yet) will be displayed like this:
¿agree¿ #55
Reversed decisions that do not impact the story (yet) will be displayed like this:
¿did not agree¿ #55

Check the last page of the walkthrough to learn how you can use the developer console to ~~cheat~~ alter their value for your benefit: (link).

Enjoy the game!

Limousine

May 11

An ordinary line from a mouth of a driver perhaps, but the way he delivered it... it felt like a command with zero leeway to refuse.

- Climb inside the limousine.
- Ask him what this is about.

If I had to guess, going off what Warren said, I would say she's been sitting here for a while.

- Apologize for making her wait. Kathleen
- You could've called. Kathleen

The dress she wore was ostentatious, and between that and the hypnotizing erotic fragrance, I couldn't help but have my eyes wander down from her neck to the valley below.

- Try to resist the temptation!
  - Only if *Lv at least 2!*

I've got time to kill I suppose, if I wanted to try and speak with her.

- Call out to her.
- Just head inside.

Club

Her hand, despite some rough calluses, had a surprisingly feminine touch.
Her nails were well cared for and painted, and her palms had the faintest hint of lotion.

Assuming it's going to be anything like that, to have him openly ask about it, as casually as asking about going to a concert, felt unreal.

- I'm curious, to say the least.
- No, I'm not!

- Reassuringly put my hand on her shoulder. Veronica
  - ...
- Leave it alone and just head back.

Mina

I immediately noticed the bruising and swelling underneath his right eye.
