

For the Milf path

It's all about about her relation points (thresholds are 25, 35, 45, 55 and 90 throughtout her path)

Try more than one choice for instance at the beach house if you select "Let her sleep and you go to the other room" it will give her dominance at some points,

while if you select "Fuck you" it will make you dominate and fuck her.

On the last update, you have to select "Shut her up" then "Try to shut her mouth" to get an anal option when you "scold both Vicky and Emma".

Thank you
