Money is tight this update and investment income is a percentage of your current \$\$\$\$. So the less money you have the less money you make so spend wisely.

Research in this order to maximize efficiency and the number of scenes you see. (Micro-cams must be done and setup around the house before finance II or else you get a few less scenes.)

Balance approach:

Home:

The game starts Saturday morning... At night Ajay will call you and you will end up at the bar with Izumi and Grace

Use the store in your phone to buy the furniture for the guestroom. (It will arrive in a couple of days.)

Angela will talk to you about the furniture when it gets there and you can offer to pay for Bailey's plan ticket, doing so will improve REL with Angela and Bailey will arrive sooner.

After Bailey arrives you can talk to her morning, dusk, and night to get an idea of whats going on and you can sneak into her room at night when everyone is sleeping to peak at her.

4 days after Bailey arrives, go to guest bedroom at night and you will hear an argument that Bailey and Angela are having

After the you see the argument. When you go watch TV at night a few days later. Bailey will watch with you.

By this time you should have Micro-cams. Send the blue prints to manufacturing in the phone menu and setup micro-cams all around the house (No one has to be in the room to do this.) You will notice on Saturday Bailey and Angela going out for a swim. Use that time to set up the cam in Bailey's room.

Check on your computer when Angela isn't in the living room periodically to see what the cameras have recorded.

After Psychology I, if you went on a date with Angela you will get the same event with Alice but slightly different dialogue and Alice will not call you a second time.

After Psychology II, Alice will call you over to her house. She will let you try your new hypnosis tech on her. SAVE GAME. There are 2 options for this scene. You can take advantage of the situation or you can not (both contain lewds).

Office:

You can now hangout with Grace and Izumi and gain FEAR or REL whatever you lack. Izumi can be massaged if you have over 30 REL.

After Engineering I do Izumi's quest. Then continue with Computer Enhanced Glasses. It's recommended that you only make her pair as one of the last things you do to save money.

Finance II will trigger Lara to come see you for some pro tips. When she's over at your house make sure you have Micro-Cam installed before hand in the bathroom. She will go to bathroom and...

Once you have all the talents. Make sure you have the GRACE/JACK opportunity. (I made it nearly unmissable this time.) If you don't, go to sales at night and click on sales till the blinds in Jack's Office are closed. Click on Jack's Office window and...

Talk with Grace about GRACE/JACK when everyone leaves the office REQ 30 REL. Grace will tell you the story, you will be given option one which has (Lewds) the other starts a new GRACE/JACK quest (not implimented yet).

Lewd option gives you 3 more options each one with a few different images. Save Game and try them all.

"v0.30"

Note the Routes are fluid meaning you can change routes up to a certain point as long as you put in the grind to do so. Doing Rel actions will decrease Fear and vise versa. Rel must always be higher than Fear or else it Changes to fear route and vise versa.

Incompatible Content for single playthrough (mostly due to story issues):

Getting Izumi Fear BJ will stop you from progressing to Izumi Rel BJ, but not the other way around. Getting Final (not the first one) Grace Fear Sex Scene will Block Grace Rel Sex Scene and vice versa.

Promotion:

With level 3 Work, work like normal and you will get interrupted by Bella to go see Jack.

Jack will give you a promotion and tell you to promote either Izumi or Grace for your old job.

Setup micro cams in your office. Call in Izumi and Grace to let them know what's going on. The next day go to Analytics room at sunset and you will

see an interaction between Izumi and Grace. Setup micro cams all around the office at night.

Izumi REL route.

Call in Izumi the next day. Select + Rel options until your REL is higher than your fear. Then touch her.

You can chose to give her therapy and hypnotize her, but it will only works if Rel is above fear. There's a couple options there. So choose whatever suits you. Some things can't be done unless you have Psychology lvl 3

Once REL is above 50 call her in to the office and she will ask you to go on a date. Go on the date. You get the option to check out the waitress. If you do Izumi gets jealous. She will ask you a question about who deserves the job more. If you answer she does, she will sit on your lap which leads to a scene, but if you end up going this route and not choosing her for the job she'll get angry at you and lose all Relationship points.

After going on the date call her into the office and she will start sitting your lap during evaluation. Interact how you want there.

After that happens and REL is above 70

Izumi will come to the office and you get a scene there

Izumi Fear route:

Call her in Select + Fear options until your fear is higher than Rel. Touch her.

Once Fear is above 50 she will start sitting on your lap during evaluations. There will be fear based interactions for that.

Once you do that. You will see a scene where Izumi is in your office snooping around at night if you check the micro cams.

Call her in confront her on it which leads to a fear based scene

Grace REL Route:

Its recommended you take the help grace get back at jack quest. If you do you will get a micro cam scene where Jack and another guy are talking about insider trading. Go tell Grace about it. Choose to put money into trading with grace. A few days later, you get your money back and more. Go talk to grace about it. Then see her at sunset when the office is empty to get a scene with grace.

You can hypnotize her as long as Rel is higher than fear which it should be on this route.

Go to Analytics department during the day and you will see interaction between Bella and Grace.

Don't grope her during evaluations or else you take a Rel high and Fear increase. Or do it anyways and just take the hit.

Once Rel is 80+ she will come into your office and tease you. If you promise to give her the job, it will lead to a scene. If you don't she will leave. You don't have to end up giving her the job, but if you don't, she will come by later and confront you on it and you will lose all Rel and she will be angry with you.

Grace Fear Route:

Call her in Select + fear options until fear is higher than Rel.

Grope her during evaluations.

Keep doing that until fear is above 50 and you will get a micro cam scene where Grace goes to Jack for help. You have to have completed the grace quest from last patch to trigger it.

Call her in confront her on it leads a scene.

The next time you call her in she apologizes to you and ask you to promise to give her the job in exchange she will give you a scene.

Lots of options there, pretty much do whatever you want.

Decision Time:

After you got the desired outcome go to Jack tell him you made a choice. (Don't do this too early because it locks content or at all if you don't care about the story for this patch.)

Promotion 4:

Talk to jack about hiring a secretary. Talk to Bailey in the morning.

Alice:

Alice's apartment is unlocked after psychology2 from last patch. Go to her apartment and hang out with her until Rel is above 70 which will give you a scene. Go to her bathroom and put a micro-cam there to get a bathroom scene

Emily:

Go watch tv. You will see a news story about Emily. Choosing to help her or imagine someone going through a cavity search or do both. If you choose to imagine you get a dreamish scene of Grace with police officers.

To help her go to lawyers office and talk to the lawyer. Pay her the fee. A few days later Lawyer will call you to go back to the office. Go sometime later and she will introduce you to Emily. Emily will thank you and ask for you to go on a date. At the date she will ask you go back to her hotel room. Go do that which leads to a scene.

Bailey:

Slightly different night spying scene.

Angela:

Added 3 BJ scenes 1 for each room. (Req 60 Rel)

Bella:
