

Archer's updated and hopefully idiot-proof unofficial guide for

Hey Archer, how do I...?

- 1) Get Galatea?** – See the Cloning walkthrough below
- 2) Get Raven?** – See the Summoning walkthrough below
- 3) Unlock the Office?** – Complete the Meta Bordello (requires conversations with Roulette in the GS and a \$1M investment. Also requires you to have progressed to at least Handjobs with Mercy
- 4) Advance Mercy's progress?** - Advance Harley's progress to blowjobs
- 5) Capture Princess Audrey?** – Improve the Glamour Slam, see Vandal Savage's third conversation
- 6) Progress with Audrey in her cell?** – Get her to Dancing, visit the Office, watch the Vandal Savage conversation (RNG Dependent), clone Audrey, call Vandal from the office
- 7) Capture Artemis/Starfire/Terra?** – Talk to Catwoman in the MB Office
- 8) Capture Blackfire?** – Progress through Starfire's cell arc until no more progress can be made, visit the office, visit the office about 10 days later
- 9) Go to prison?** – Play through the game until you've captured a bunch of Tier 3 heroines, and unlocked the LexCorp Office. Visit Tala, eventually Grodd shows up and starts the event chain.

10) Break inmates out of prison? – After finishing the Prison Event, go to the office, select Plan, select Prison Break, pick a convict. Needs a week cooldown between attempts.

11) Capture Killer Frost? – After doing her Prison Break event (described in 10) wait for a few days, then visit the Glamour Slam, Roulette will pull you aside and mention some unpleasant goings-on. Wait a few more days, go back, then wait a few more days (again) and go back. Eventually you'll capture Killer Frost in a cell.

12) Capture Superwoman? – You must have summoned Raven (see Summoning walkthrough below) and unlocked the LexCorp Office and the Legion must be upgraded to level 3. Visit the Legion then follow the event chain and summon her via Tala.

13) Start the Yacht Event? – You must have completed the Prison Event, see the Yacht walkthrough below

14) Unlock the “Stables Costumes” you mentioned? – Place the heroine in question in the Meta Bordello Private Room and proceed through all of her options, first clothed, then have her strip, and do them again naked. Once that's done, her new costume(s) should be unlocked and selectable in the Meta Bordello Stable section. These costumes can be used in either the Meta Bordello or the Glamour Slam for scene tweaks.

15) Get Terra back? – Visit her cell, turns out she dies, get her DNA from a hair sample, go to the lab, clone her.

16) Unlock Lois' Toy Doll Costume? – This is fairly “involved” for a costume and since people are having issues I guess it deserves this spot so : First you need to have Lois captured (duh) and giving you blowjobs. Once that’s done, hire Toyman and assign him to the LexCorp Defenses (not the living quarters). Visit the LexCorp Defenses, then visit Lois in her cell and she should complain about Toyman watching her. Visit the Defenses again and speak to Toyman, then go do his heist. Once successfully completed, head back to Toyman in the Defenses, and then finally visit Lois in her cell again. **Note : You may need to wait a night between the visits. The initial Lois complaint conversation is lightly RNG based**

Cloning Walkthrough

Be aware that cloning requires a significant money investment - You must create 2 Level 1 devices (\$75,000 each) and perform 5 heists (Joker's Chemicals, Tech Pieces, Data Tapes) each of which requires at least 1 Tier 1 villain to succeed. This means you will spend a minimum of \$650,000 to produce your first clone, although the actual number is likely higher due to heist failures and misc tech pieces. Keep this in mind if you aren't cheating for money.

- 1a)** Must have talked to Vandal Savage at the Glamour Slam twice, first conversation happens on day 7, 2nd conversation earliest possible trigger is on day 14 and requires you to have captured all 3 Tier 1 heroines
- 1b)** Must have recruited Harley Quinn, which requires you to have completed the "Steal Joker's Chemicals from S.T.A.R. Labs" Heist
- 2)** Go to the Lab, select "Cloning" - Watch the scene
- 3)** Perform Simple Tech Heists and retrieve 3 numbered Clone Tech pieces - Misc Tech Pieces do NOT count. The easiest way to do this is to simply perform the tech heists until the option to do so disappears.
- 4)** Go back to the Lab and select "Cloning" again and unlock the "Data Tapes" heist
- 5)** Perform the "Data Tapes" heist
- 6)** Go back to the Lab and select "Cloning" again - Watch the scene

7) Select "Tube 1", select the "Galatea" DNA sample, select "Clone" (or whichever samples become available in the future)

8) For optimal non-freaky mutant results, check your clone every 6 days

9) Once the time's up, pop your fresh clone out of the easy-bake oven and watch the scene

If, for whatever reason, your clone fails to develop properly and you end up with a multi-titted tentacle monster, you have 2 choices. You can either keep her (because you're weird like that), which locks that cloning tube or, destroy the failed clone, flush the tube, and recover another DNA sample from the remains allowing you to try again. If you try again, repeat the cloning from step 7. Note that you can still end up with a failed clone even if you dutifully check the cloning tube during every cloning stage, shit happens.

Summoning Walkthrough

- 1)** Upgrade Tala's Workshop to level 3
- 2)** Select "Summoning" option in Tala's Workshop and receive the ability to perform Relic Heists - The earliest this can possibly be done is on day 9 because of the upgrade construction time, assuming you start on day 3 (cheating)
- 3)** Perform Relic Heists and retrieve 4 numbered Relics - Misc Relic Pieces do NOT count. The easiest way to do this is to simply perform the relic heists until the option to do so disappears.
- 4)** Go back to Tala's Workshop and select "Summoning" - Watch the scene
- 5)** Leave and proceed to the next night
- 6)** Go to Tala's Workshop and select "Rooms" then select Raven's room

Yacht Walkthrough

- 1) Complete the Prison Event
- 2) See the “Yacht Reveal” via Roulette
- 3) Visit Roulette in the Glamour Slam – She will eventually start the Yacht Event (RNG dependent it seems) – requires a \$300k investment
- 4) Pick a henchwoman to accompany you
- 5) Once on board the yacht you have limited “conversations” until the event ends. If you’re interested in pursuing a girl, make sure you talk to her at every opportunity – be aware characters move around the ship
- 6) Eventually the night ends, once complete the event can immediately be replayed by visiting the LexCorp Office, selecting “Reset Event”, and proceeding through the option.
