Attention

Under Construction - This page is currently being actively worked on, and may contain incomplete information.
Overview
The game centers around the corruption and seduction of the women that you, the player, associate with over the course of a summer term working as a lab assistant. While working in the lab you discover and refine a serum that lowers the inhibitions of the women in your life. Turn them into your personal sluts or public whores, you can also make them cum hungry so they thank you for every load.

It's currently still under development (with a promised Lab Rats 2 coming in the future)

Characters
- You - A third year chemical engineering student, brought onto the lab team to help keep the equipment working.
- Nora - The lab director. Science is her passion, and she runs her small lab with enthusiasm.
- Stephanie - A graduate student and fellow lab assistant. She has been Nora’s right hand girl for years.
- Mom - Your mother. Without your father she works long hours to make sure you and your sister can both earn a university education.
- Lily - Your younger sister. She also goes to the same university for History, but unlike you has the summer off.
- Alexia - A classmate from last semester. She seems to be interested in seeing you more over the summer.

Character Scenes
Characters have a few different types of scenes

- Minor Scenes - random short events that occur in each location
- Major Scenes - random long events that occur in each location
- Hub Scenes - Each character has Hub Scenes these are repeatable events that provide the bonus of lowering resistance when completed. As raising Influence also increases their Resistance these Hub Scenes can be used to offset sex scenes with making the characters more susceptible to serum. The variations with the Hub scenes change the higher the Influence score providing more sex positions, or more choices on where to cum.
- Beach Scenes - when inviting a character to the Beach, after day 40 (see more below)
- Training Scenes - these occur when trying to change a character into a Public Slut or a Cumslut

Public Slut Training
This requires the use of two serums (of any kind) to alter the characters behavior to make them be more uninhibited with others. If you do not want to share the characters with others then DO NOT start this training. This also adjusts certain sex events, lowering the Influence required for the event, and on occasion adjusts the resulting text in the orgasm scene.

This is a one time event.
- Blue Serum will not adjust any stats
- Red Serum will lower Influence by 5
- Purple Serum will lower Resistance by 10

Lily Public Slut
Lily has two actions where she is naked and you make her go outside
- Write on her and have her walk around the block
- Give her a vibrator and use it while she walks around the block

Mom Public Slut
Mom’s Public Slut options adjust the scenes when she wears a revealing outfit to work, she will allow her boss and co-workers to fuck her rather than just expose herself or maybe touch her if she is not a Public Slut. Mom gives you a blowjob on a live stream
- Cum on her face
- Cum in her mouth

Nora Public Slut
Nora’s training happens in the Lab, while you give her the serum she gets a phone call

- Cum in her mouth, have her get you a drink without swallowing
- Cum on her face, have her get you a drink without cleaning it up

Alexia Public Slut

- Cum on her face and send her to class without cleaning it off
- Send her to class telling her to suck off one of the other students

Cumslut Training
This alters the text when cumming on or in the characters, at times they will play with the cum on their own. On occasion they will attempt to get the last bit of cum out of your cock, or will speak more about how much they love the taste or feel of your cum. This is a training event that uses serum just like the Public Slut Training. When starting you will ask the character how many times you have cum on or in them, the response is adjusted by how many times this has happened in the past, the game has a counter for this and its best to wait and leave this training for later to get a better response.

The cum scenes do not make much difference, other than the descriptions. This is a one time event.
- Blue Serums will not adjust any stats
- Red Serum will lower Influence by 5
- Purple Serum will lower Resistance by 10

Lily Cumslut Training
Will ask how many times you have cum on her Then will fuck Lily and cum in her mouth
- Have her gargle and drink your cum
- Have her spit your cum over her tits and rub it in

When Lily becomes your Cumslut she will drop her boyfriends and be exclusive to the MC. To check this go to Lily’s room when she is not there and check her computer.

Mom Cumslut Training
Will ask how many times you have had sex Strip Mom in the living room then fuck her until you cum inside, she begs you for it
- Have her lick your cock clean

- Fuck her a little bit more

Stephanie Cumslut Training
Ask Stephanie how many times she has sucked your cock, she loves it in her mouth Stephanie then sucks you again, playing with herself

Character Influence Levels

Influence is how slutty the character is, the higher the score the more flirtatious and daring they will be. This range is fixed.

- 0-5 not slutty at all.
- 6-15 slightly slutty. Says lewd things but won't follow through. Might forget that some things shouldn’t be shown off. (Leans over too far, grabs own tits, etc.)
- 16-25 minor slut. Likes being watched and feels like it's normal. (Leans over for you, doesn’t mind being seen naked sometimes, talks about sex freely, masturbates in private at night)
- 26-40 moderate slut. Masturbates in private during the day, comfortable seeing you naked and being naked in front of you most of the time. Might ask to be touched by you or give you a handjob.
- 41-65 major slut. Masturbates in public if they think they can get away with it. Starts wearing skimpier clothing around the house, teasing you on purpose, or engaging in mutual masturbation, handjobs, or blowjobs.
- 66-80 Huge slut. Wears slutty clothing when they can, willing to have give handjobs, titjobs, or blowjobs.
- 81-95 Massive slut. Loves sex, servicing, and being a slut. Will let you fuck her whenever you want.
- 96-100 Colossal slut. Will present for sex without asking, suck you off unless you tell them no, and do anything if you promise to fuck them later.

Resistance

Resistance raises each time the serum is used; often before a scene plays out there will be text noting if the situation is new, or has occurred previously, repeating scenes will raise resistance more than the first time. The resistance is used to limit the increase of influence, it lowers naturally by letting the women get used to their new situation, or by using the Hub scenes to lower resistance; normally the resistance lowers by 1 each day. Serums are less effective when the resistance score is high, major events have higher resistances so they more you they are repeated the faster resistance increases.

- <= 15 - No resistance
- <= 40 - Slight resistance
- <= 60 - Moderate resistance
- <= 80 - Major resistance
- >= 81 - Complete resistance
