

Walkthrough / reference for Book 5: Untold Legend of Korra, version 0.7 public.

Korra and Asami have two hidden stats for love and lust points. These are affected by your dialogue choices.

The highest stat wins, so no need to worry about maxing out one side, just make sure it's higher than the other.

It mostly affects dialogue, such as reaction to mc cumming in their mouth without warning. Not sure about images.
