

Character Based Walkthrough for Version 0.6 (Fan-made)

This walkthrough doesn't contain spoilers. If you play these four paths as indicated, you'll have seen every scene currently in the game.

Legend:

Choices are in bold, numbered for easy reference.

Note: the choices are numbered chronologically and some choices only appear on certain paths, so it's normal if numbers are missing in any given path.

Choice on red background: key choice needed to unlock that character's path. You **need** to make that choice for that character on that path.

Only one choice: optimal path for the character whose path you're reading.

Choice A <=> Choice B: both choices are valid, choose what you prefer.

FAQ BELOW

FAQ

Spoilers Ahead!

Can I get Nathalie to come home on Mom's or Jocelyn's paths?

Not for now.

How do I get Spyder to talk with me in front of his house on July 28th?

Don't pick Nathalie's path > Give Gina a ride > Confront Charles.

You need to keep Nathalie's Lust low (13 was good in my game, 16 was too much), otherwise she tells Imani and Sheniqua that you're cute, they repeat it when you arrive, and he won't talk to you afterwards. Note: according to Kaffekop it might not be intended behavior, and it may change soon.

How do I get the movie night scene with Mom topless on the MC's lap and him fingering topless Jocelyn?

You can't in this version.
