

## -R-Life Walkthrough v0.8.4b-

- 1st quest: building tents for the girls - This is a simple one (read only if you do not wish to cheat). To find the girls; The maid (Rem) is located behind rocks near the H-goddess. Jump on the rocks to get to her. Refer to image below:

The mother (Nyotalia) is located near Velvet's tent and near the big waterfall. Pretty much she's in between those areas. Refer to image below:

The sister (Yamakaze) is located near the player's home base. The player can either take the shortcut to the right at the beginning of spawn or walk on the path that leads to the soon-to-be monster girl's base and take a right which shortly after take another right

that'll lead to the sister. Refer to image below:

Once you've found all the girls, they will request upon your interaction for you to build them a tent. This will end the first quest.

**-Strongly suggested-** Sleep/Wait for  $3\frac{1}{2}$  days and an event will occur. This event will destroy the player's base along with the other member's tents. Due to this, the player is then to build a storm-resistant, time-consuming-to-make base.

- 2nd quest(s): This quest will mainly focus on the player's family members individually.

- **Nyotalia 1st quest:** To begin her quest, the player must increase her points to a certain amount. Give her food around 10-20 points, though this wouldn't occur an event. Instead, the player must find goggles, which is found at the end of the path near the big waterfall (where you found Nyotalia), build a fishing dock near the player's base and then after doing other activities outside of the base until afternoon, Nyotalias' event will trigger.

She can be found outside near the base topless. Upon interacting with her, she requests the player to find her top and claims she had lost it near the shore. Her top can be found under the fishing docks, with or without the goggles, and once obtained give it to Nyotalia to complete the quest.

- **Nyotalia 2nd quest:** After the player has given the item back, they are given an option to ask Nyotalia for some "help". If the player decides to ask for "help", Nyotalia responds with a shock expression saying it is not right to do such things. However, this can be bypassed once her "guilty" points reach a certain amount.

For Nyotalia to have "guilty" points is to first unlock the "Red Mushroom", which is unlocked after completing Yamakazes' 1st quest (*However if you have done Yamakazes' 2nd quest before doing Nyotalias' first quest and given Red Mushrooms to Nyotalia etc., then you do not need to read the rest of this*). Give the "Red Mushroom" to

Nyotalia at night and peek on her. Till morning, interact with her and she will ask if you have seen her do it. The player is given the choice either saying "Yes" or "No". To earn "guilty" points, the player must select "Yes". Repeat this until you've reached 10 "guilty" points. This will allow the player to "request H" to Nyotalia.

Once the player has done said activity, they are to give her food until it triggers the next quest. This quest is simply to build a bathroom in the base. When the player is done building the bathroom, they will interact with Nyotalia and ask for a 2nd "request H". If the player decides to ask, she will deny for either using the bathroom or not enough "guilty" points regardless if you have the required amount. After she's done using the bathroom, the player may "request H" to Nyotalia. She may either respond to accept or to decline based on how many "guilty" points she has currently. If the player does not have enough "guilty" point for Nyotalia, they must gain 10 more to have a total of 20 "guilty" point. Then, the player may "request H" to Nyotalia which ends her quest line. This unlocks the "Sleep with" option with Nyotalia.

- **Rem 1st quest:** To trigger her event, the player must give her food until her event triggers. This will lead to an H scene if the player decides to "ask for help". This completes the first quest and unlocks "Rem Sexy Dance".

- **Rem 2nd quest:** After rebuilding the home base, the player gives food to Rem until her event triggers. This event is to make a kitchen for Rem to cook food for the player. The kitchen also triggers dinner events as far as current knowledge stands. This ends her quest line. This also unlocks the "Sleep with" option with Rem.

- **Yamakaze 1st quest:** To trigger her event, the player must give her food until her event triggers. Yamakaze will ask for some fish. She will either request for 4 Boba or 4 Bass. For safety measures, catch both. When the player has caught either fish, they will give it to Yamakaze. She asks for some drinks which leads to an H scene if the player decides to "give drink". This completes her first quest.

- **Yamakaze 2nd quest:** To trigger her event, the player must either talk/give food until her event triggers. Whatever you do, **do not feed her**. Sleep until 1am. Sleep again to trigger an H scene. Once the scene is finished, talk to her in the morning. This completes her second quest and unlocks the "Red Mushroom" item.

- **Yamakaze 3rd quest:** To trigger her event, the player gives her food until it triggers her event. Yamakaze will ask the player to find her father's necklace. The player is then sent to find

the necklace, which is found in a river near the beach coast. Refer to image below:

When the player has found the necklace and has given it to Yamakaze, they are given an option to “give milk, but not in mouth”. This will trigger an H scene if the player decides said option. This ends her quest line. This also unlocks the “Sleep with” option with Yamakaze and “Yamakaze Sexy Dance”.
