GAME PLAN

The guide will list every set of choices that are presented to you in-game with its corresponding effect (if it has one). Just keep an eye on the following tags:

- [Love] Choices that will make the specified character more perverted towards You.
- [Lust] Choices that will make the specified character more perverted towards Others.
- [Bad BF] No use for it at the current version, might change in the future.
- [Trigger] Hidden Trigger that will affect future scenes and dialogues.

The current state of the game favors the **Lust** path more than the **Love** path. Which means if you want to see the most amount of scenes, you need to choose the choices that are tagged with **[Lust]**. However as stated before, keep in mind that **Lust** will push the character to be perverted with other people! Enjoy!

Viewer discretion is advised!

The game contains adult content and thus you have to be the legal age according to your country.
