General Note on Points:

- Relationship points are just used to in game purposes to either enable or disable Darker Paths events. If you want Darker Paths events to occur, keep then below 6. If not then 6 and above will keep those scenes at bay. You don't need a certain amount above 6 to unlock anything, so you can keep them as high or low as you want, within the guidelines listed above
- Some scenes require a certain amount of Love or Corruption points to be full experienced. The amounts required vary a lot, so when in doubt, no scene requires Love or Corruption points to be over 100. So if your Love or Corruption points are at least 100, you should be able to unlock any scene with those point requirements. However some events to use the higher of the two stats for variation in dialogue and some scene options. Keep that in mind.
