

Game introduction †

"Congratulations! You have won the W chance of traveling around the world as a screaming noodle campaign.

If you are very lucky,

You will be presented with a luxurious mansion and rich land in paradise.

Start your second life on a paradise island surrounded by the ocean and nature. "

I received a postcard like that,

You jumped out of the village where you were born and raised.

And ...

The land I got in the sweepstakes

It was an empty land that was too lonely for paradise.

But the land, blessed with nature and resources,

Not far from paradise.

Collect materials, work,

Build a resident's house, build a store,

Raise your ideal village.

With the unique residents who came to the village,

You can get married if you fight or fall in love, play H, rape, or get along.

Enjoy the island's slow life like a paradise.

Depending on how you play, there are also developments that have been killed.

Please be careful.

Story capture †

- I often come to the village to play if there is no character required to capture
- In that case, if you want to relocate to the village, you should attach a promise of residence as soon as you advance the story.
- **Story capture**

Tutorial †

- The initial questionnaire determines the initial ability of the main character.

Seasonal events †

- If it is a rainy day, it may be canceled, so if you want to wake up without fail, you can buy a teru shabu from a tool shop. (Sold only in case of rain)
- Depending on the event, you can get things without talking to people.
- There are also events where you can get the same thing multiple times.
- When certain characters are together, a conversation different from the normal conversation pattern may occur.
- Residents who have poor liking and can't talk to use these events to improve relationships
- Favorability of salesclerks can also be increased. In that case, select a conversation.
