

Element-174 Official Walkthrough (v0.09)

This is a walkthrough for the adult visual novel, Element-174 by Knotty Games. We will try to make it as spoiler-free as possible, but given that it is a gameplay guide that can sometimes be unavoidable.

At the end of this guide, a flowchart is provided with all the major choices in the game and which character(s) gain points from that decision. As the story progresses, certain point thresholds must be met in order to continue down that character's route. The flowchart indicates the highest number of points that can be obtained for each character at that point in the story (e.g. *Isabella* 3 at the end of Day 2). It is also possible to earn maximum points with multiple characters (at least early on in the story). Characters marked as 1/2 or 1/3 indicate a late first meeting with that character. For example, *Rachel* 1/2 at the end of Day 2 means her first point or second point (if you already met her).

To achieve maximum points for a particular character, choose the following:
