

Goodnight Kiss Hints and Tips

Goodnight Kiss is a sandbox style erotic visual novel. As such a proper walkthrough isn't the ideal method to explain how to see all the different content. This guide will provide you with the information and strategies to explore the world of Goodnight Kiss to your heart (and other appendages) content.

You play the role of a man with terrible taboo hungers and desires and you can choose to either give in to all your evil lusts or keep yourself under control and make the world a better place.

You're going to choose to be a huge pervert, aren't you?

Overall Gameplay and Strategy

There are a number of locations and characters in the game world you can interact with. The characters go through schedules and you can find them at different locations at different times. The game cycles through a time system. Every action that you perform that gives you either information or affects your relationships will advance time to the next period. You wake up in the Morning, that follows through to Noon, then Afternoon, Night and sometimes Late Night. To unlock Late Night you need to drink coffee in your house in the afternoon (or drink coffee at the coffee shop any time). If you stay up into Late Night you'll sleep through the Morning the next day.

Gradually over time your lust will increase. If it's too high you will lose access to "safe" choices that won't negatively influence your relationships with various characters. You can reset your lust by either jerking off/playing an adult scene with a happy ending.

The computer in your home office allows you to work, which gives you between \$25 and \$75, access social media, which will give you hints on what different characters like, or access to the darknet, where you can purchase bitcoins and use those bitcoins to purchase illicit tools and substances.

The gameplay is mostly predicated on the house, which has various bedrooms, a bathroom, the kitchen/living room and your home office. You can also click on your truck to visit other locations in the town.

New locations may unlock based on plot events, or based on gifts you give to various characters. One example would be if you raise your relationship with Sam to the level where you want her to become a productive member of the household and you're got a high affinity with Emily you can have a household dinner and discuss a potential gift that could open up a new location.

Attributes

Lust

A measure of your sexual self-control. Slowly goes up over time, or is increased by doing lewd things that don't give you a "happy ending". If it's very high (10+) it will restrict the safe options in events. Can be reset by masturbating or lowered by taking a cold shower.

Morality

How good you feel about your actions. To start with it doesn't have a huge effect. In the late game it will have a significant effect on the high level interactions. Once I have enough content to start writing endings it will be one of the major signifier of what version of a given ending you get. Can be improved by praying or confessing in church.

Coding

How good you are at writing code. Increasing it increases how much money you get from "working". Is increased through work itself, or by doing work at your home office, researching coding from your home office or doing research at the library.

Law

Your understanding of law. Will effect what options you have when you confront your wife about her infidelity. Can be increased by research at the library.

Charisma

Increases the bonuses you get to other characters main attributes. Can be increased by research at the library or by auditing the communications class at the college.

Strength

How good you are at beating people up. Can be increased by pumping iron in your home office or by taking classes at the gym.

Stealth

How good you are at peeping. A secret skill that can be unlocked by finding the correct friend in the correct location.

Building affinity without gifts will be a very slow and grindy process.

She is at her office in the morning and noon. There's a 50/50 chance she'll be in the hotel in the afternoon, if you haven't already progressed your relationship with her (ie either given her an open relationship or chose to dominate her or kicked her out). She will be at home in the evening.

Also, she's the daughter of Dan, the guy who's spending too much time with your wife. To actually start a relationship with her you need to be aware of Dan's existence, either through grinding affection with your wife or befriending Mary enough that she'll divulge what she knows your wife is doing.

To start with she's at the Ice Cream Shop at Noon and Afternoon. At Night you can watch her Cam Show (once it's unlocked) from your Home Office.

Once you're friends with her she will appear at the library in the Morning. At noon she'll be at her apartment. In the afternoon she will either be at college, the ice cream shop or her apartment. At night she'll either be at college or her apartment.

9. Played with Miranda at work with a butt plug

Sam:

A very bad girl. She has been sent to you so that you can be a good influence on her. You can either discipline her or feed her naughtiness. She arrives after Day 10 with a scene that takes up a good chunk of the day.

She is in the Guest Bedroom once she is unlocked. Once you raise her discipline or naughtiness past 5 you'll get the option for her to either get a part time job or have her help around the house. If you've taken the discipline route and had her take a part time job she'll be at the ice cream shop in the morning and if you've taken the naughty route she'll be in your home office.
