GAME PLAN

The guide will list almost every set of choices that are presented to you in-game with its corresponding effect (if it has one). Just keep an eye on the following tags:

[Name] Points gained/lost for those specified character.

[Trigger] Unlocks exclusive scenes and dialogues.

Please note that I intentionally selected some of the choices which doesn't offer points with some of the girls, as this will come into play at the end of the Main Route. It won't affect the images, only a minor difference in dialogues but will open up opportunity for all future paths.

Viewer discretion is advised!

The game contains adult content and thus you have to be the legal age according to your country.
