STATUS CHOICE:

A box like this indicates that the game prompts you to make a choice between several options in a flow of the game that has been triggered by a particular status value above or below a particular threshold.

Terminology

Flavor – you'll see this a lot. It means that a choice leads to a different outcome in image and/or dialogue, but not in an impactful way. It just adds flavor to the story.

Friendship points: Natalie (-1, 2) – This means that within a particular scene, depending on the choices you make, you can get between -1 and +2 friendship points for Natalie. Most of the time there is only one number in the paranthesis, indicating the most or the least you can get.
