

# **ALISON**

## **Fall of the Apple**

### **Walkthrough 0.6**

**Getting started** - It warns you from the start that it's a text heavy game so if you're just looking for a quick fap go play something else

Don't play it then complain about a visual **novel** having words in it

**Fun Fact** – Default name for the MC is Michael so if your name is Michael just hit enter

**1<sup>st</sup> Major choice – Normal game (partial remaster) or Skip to 3 route choice**

Normal game means you just start from the beginning

The remaster of the early part of the game is a work in progress but over 200 renders and a couple of animations have been added to the prologue so far so worth checking out if you haven't

Skip to 3 route choice takes you to the point where 1 game becomes 3 very different games (Love/Dom/Harem)

This skip option is only intended for people who have played before and either have save problems or want to try a different route

The story won't make sense if you never see the prologue

**Prologue Choices –**

All the choices in the prologue only change dialogue and/or renders seen

There are no lasting consequences to these choices so just go with what feels right to you

## The Major Choice

When you see this screen you've reached the end of the prologue and this is where the game splits into 3 different games with different stories, characters and kinks

You won't see a render from 1 route repeated on any other route

Additionally, some characters can have different looks, personalities or backstories depending on the route you choose

**As it says - "Love is the real, canonical story"** so that's where you'll find most progression with the actual story and it's currently the route with most content

**Harem** has the second most content and although the main story will still progress (in a different way to the Love route) the primary focus will be the MC setting himself up with a house full of hot women

**Dom** is currently the shortest route but it has 2 separate sub-routes within it

**Dom-Affection** and **Dom-Obedience** The MC will act differently depending on which path you choose and the relationship between him and Alison will develop differently as a result

These paths will also contain different stories and characters

**All major kinks and love interests will be optional whatever route you choose**

## **Love Route**

At the start of the Love Route you get the option to 'Just Play' or 'Take a Shortcut'

The shortcut skips most of the Love Route and takes you to the start of the previous Love update as there is a major choice there that will affect things going forward

This is only intended for returning players who have already played the route

1<sup>st</sup> Love choice – Only changes dialogue, go with whatever you want

2<sup>nd</sup> Love choice – I recommend nuts, then face, then face nuts combo and finally escape  
He had it coming and this way you get most dialogue and satisfaction out of the scene

3<sup>rd</sup> Love choice – You get more dialogue if you're honest with her but it's down to personal preference

4<sup>th</sup> Love choice – Personal preference again but I say knock him out

5<sup>th</sup> Love choice – Once again - You get more dialogue if you're honest with her but it's down to personal preference

6<sup>th</sup> Love choice – Personal preference, either's fine

7<sup>th</sup> Love choice – 'I have a secret to tell you' gets the most content

**After this the choices in Love become more important**

**I recommend having multiple named saves dedicated to different choices**

**1<sup>st</sup> Major Love choice** – Basically ‘Link only’ means no sex scene now

Choosing ‘Fully link with Alice’ gives you a sex scene with Alice now **and** a sex scene with Alison later

You can turn her down if you want to make the first time be with Alison instead or if you want to go after Melissa

During the scene, the ‘Daddy’ option is purely a matter of personal preference

**2<sup>nd</sup> Major Love choice** – This will only appear if you turned down Alice

You can choose ‘Alison romance’ and get a sex scene with her here

Or

Turn her down for Melissa

This will change how things turn out later that day but can also lead to another route entirely

**3<sup>rd</sup> Major Love choice** – If you said yes to either Alice or Alison then your next scene will be with them. In this scene you can either lock them down as your main love interest or say no in order to switch to Melissa or to say no to her too and ***see what happens...***

If you stick with Alison/Alice you get a sex scene where you can say you like one more than the other if you like (only changes dialogue)

You can then choose from 4 different options on how the sex scene plays out which change dialogue and animations

**Preg choice** – On or off, your call

If you said no to Alice/Alison, instead of the above scene, you finally get the chance to kiss Melissa which leads to a sex scene

Or

Remain ‘Undecided’ and ***see what happens...***

If you chose Melissa there is a position choice which will change the animations and dialogue you see

**Preg choice-** On or off, your call

Followed by a minor dialogue choice

### **SPOILERS AHEAD**

**Now-** If you somehow managed to say no to Alice, Alison and Melissa by choosing to remain undecided then they and Jessica will come to you with the proposition of a 3 girl mini harem

There are 3 different versions of this morning depending on the choice you made the night before

1 on the Alice/Alison route

1 on the Mel route

1 for the mini harem route

\*\*\*End of Love as of 0.6\*\*\*

## **Harem Route**

**1<sup>st</sup> Major Harem choice** – Forgive her = Mel gets naked and it is, of course, the correct answer

Say no if you want though I guess

The next morning has a minor choice, go with whatever you prefer

The Nadia choice has the answer at the bottom but feel free to try the wrong ones first  
You'll get to try again after she kills him

The next option is the sex animations

Play whichever ones you want as often as you like

Nadia buttjob choice – Nadia has a sub and dom route so play it however you want to play it

The Harem route is really quite simple

Choose whatever dialogue choice works for you

Say yes to everyone that you want to say yes to

Visit the girls when you get a chance

Choose whichever route you want to go with Nadia

## Dom Route

There are 2 routes within Dom

Dom-Affection *and* Dom-Obedience

**1<sup>st</sup> Major Dom choice** – First click on the skirt then

For **Dom-Obedience** choose 'Sniffing distance closer' then say you 'dropped something'

This causes her trust to drop but you will get it back later

For **Dom-Affection** Choose 'Time to pretend we just got here'

From this point on **Dom** will split into 2 completely separate routes with different events and characters

**Dom-Obedience continued -**

Saying it's "only a bathing suit" will gain **+2 Obedience points**

The interaction with Alice at the pool will gain **+8 Obedience points**

This will also restore the trust lost earlier

The next option is for a sex scene with a trans girl you meet in a bathroom

Play it or skip it if it's not your thing

The scene can play out in various ways, choose whatever ones you like

The next day you have up to **3 options** for who to call

You can only pick one per playthrough so save if you want to try them all

If you chose to play the scene with **Tiffa** the day before you can go visit her for sex

Calling **Melissa** will lead to you spending some time with Ava

And calling **Shadow** will lead to an optional sex scene with her

If you leave Alice active when Shadow is visiting, then she will walk in on you but it won't lead to anything bad

\*\*\*End of Dom-Obedience as of 0.6\*\*\*

**Dom-affection continued-**

After pretending to just get there choose the affection option for **+1 affection points**

Choose D-aw for another **+1 affection points**

Either nose or lips will get you **+1 affection points**

**All 3 points are required for full content on this route**

Next option – Just watch, it won't cost you anything

When telling her how she looks the affection option will get you **+1 affection points**

The other options get you **+1 points** for either **corruption, pregnancy** or **assman**

**These point systems are not heavily active at this point in development**

But you do get a small extra scene at the restaurant if you have an assman point

For the next choice 'Tell her the truth' for **+1 affection points**

Then you get an affection/pregnancy/corruption choice which will get you +1 pts to whichever one you choose

There is then the chance of another assman point so just take it

\*\*\*End of Dom-Affection as of 0.6\*\*\*
