Introduction

"The Loud House: Lost Panties" is a pornographic game from the universe of the franchise "The Loud House" of Nickelodeon (a subsidiary of Viacom).

The game takes place in a near cartoon future, allowing the first 5 sisters to be of age (18 years old and over).

The 5 younger sisters, still minors in the game, will not be used for pornographic purposes, but only as extras and NPCs are used to advance the story.

In order to avoid any misunderstanding, this game will deal with a lot of porno, incest, zoophilia, rape, sexual blackmail, prostitution, etc... So many subjects that can be controversial.

This is an adult game, not a work that seeks to hurt or offend anyone's feelings !

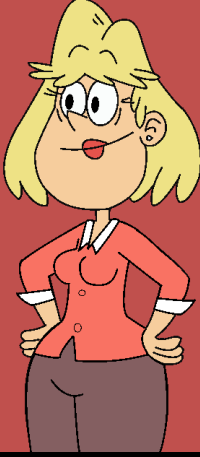

Thank you therefore for not holding us personally responsible for the perversion present in this work of fiction which is in no way an appeal to this kind of practice in everyday life.

Good game and good stuffing to all !

If she talks while she walks, there's a good chance she'll run into a wall.

Questions	Answers
Can we get CGs from Lucy, Lana, Lola, Lisa and Lily ?	No, we'll have to wait for the second game which will take place in the more distant future or Lily will be 18 !
Time management is complicated, is there a risk that I will miss a CG ?	No, the time system is set up to make the game more dynamic. No fear! Cyclic events will be continuously available without the risk of missing them.
Where's Mr. Coco's leg ?	In the attic.
Where's Luan to give Mr. Coco's leg back ?	In her room.
What are the objects for?	In this version, to nothing! Later, they will be used for various things.
What's the gauge used for in high school ?	In this version, to nothing! Later, it will be used to corrupt the Lycée and unblock new CG!
Can we finish the quest for Rita's keys in the demo ?	Yes, even if the stain will prove to be quite hard with the few elements present to help you there.
Are there any other girls besides the five sisters Loud and Rita ?	Of course, the demo currently only shows the beginnings of what the game will become, so it was easier for us to create quests, stories and a viable environment quickly for a demo by focusing on the sisters. But as soon as the next big update, more Non-Loud girls will be there !
The visuals aren't great...	Our illustrator gives her best, but she is currently working without professional equipment. By supporting us you will allow us to obtain professional equipment to improve the quality of the drawings.

How often do you plan to offer updates ?

1 to 2 big updates per year.
Unless your support allows us to speed up the pace.

Do you have other games in preparation?

Yes, we have a second game "Welcome to the Loud" and several ideas for parodic and original games!

Which ones?

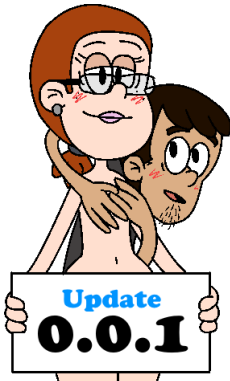

In Parodic games: Ninja Turtles (the version of Nickélodeon 2007), Shantae, Star Wars Rebel, Ben 10 (the first version) and many others!
In original ideas: a game of time stop, of mécha-girls and the others are secrets...
