

## Culture Shock Ch. 2 v0.3 Bugfix

This walkthrough was made by [IAmAB](#) and if you want to help me, report any errors or tell me that there is a new update for this game this is my [Patreon](#) and profile on [F95zone](#).

The original game was made by [King of lust](#) and this is his [Patreon](#).

I also did a Walkthrough mod so if you want it will be on patreon and on my post on f95zone. I recommend you download it because my mod also removes the gallery with ntr (the gallery without ntr remains) and in-game improvements. More instructions or details in the files of the mod.

**NOTE:** This walkthrough and the mod is only for the [Alpha route](#) (no ntr). I don't like the [Beta route](#) (ntr) so I decided not to do the walkthrough or mod for it, sorry. But if you like both routes you can also use this walkthrough and the mod without problems.

**NOTE 2:** The patch is compatible.
