

Descent Walkthrough: Lesbian Path with GF Eve ending.

By Tara14

Notes:

- Many of the endings have variations in which Christine will end up with Eve in some form or fashion. However, these variations require her to have a reputation lower than 8. Lowering her reputation usually requires her to have sex with men, something I avoided.
- There are two variations of the lesbian path that I have found, one with a Bossy Eve and one with GF Eve. Which variant you get depends on the choices you make when interacting with Eve. I will highlight these choices when they come up. In this walkthrough I will be making the GF Eve choices.
- It is entirely possible to avoid sexual relations with male characters.
- I assume that a lesbian Christine would say and do things in this walkthrough to get into the good graces of male characters that want to sleep with her to further her career, but she will refuse them when they try to actually sleep with her.
- I will not be tracking Career or Reputation points in this walkthrough. Just know that I am generally aiming for Career points as long as the actions to get them are ethical.
- Choice 89 is particularly important as it will determine whether you get the associate position or not. See the highlighted note to determine what choice you want to make.

Goals:

- The goals of this walkthrough are:
 - For Christine to get kept on as an associate.
 - Keeping Christine's Career Points and Reputation high.
 - For Christine to end up in a relationship with Eve as her girlfriend.
 - Keeping the relation points between Christine and the other characters high.
 - Breaking up with Tony.
 - Avoiding sex with male characters.
 - Avoiding submission points / Keeping submission points at 0 or lower.

Key:

- Choice X / Choice Y / etc.
- Choose any of these options
- Relationship Point change (No Choice Involved)
- GF Eve points granted
- Bossy Eve points granted
- Eve points granted
- Stay away from these choices

- 89. Multiple Choices
 - a. **CHOOSE: Say yes (Dianne +1)**
 - b. **Say no (don't want to come out)**
 - i. If getting the associate position is not your goal, you can choose this option. As long as you refuse any job offers from this point forward (the assistant position and the clerkship), you will end up with a more Eve focused ending and be in a better relationship with her than if you get the associate position. I tend to view the differences in endings as a choice between professional happiness (getting

the job Chris always wanted and an alright relationship with Eve) vs personal happiness (being in a healthier/happier relationship with Eve and settling for an alright job).

- c. Say no (not a lesbian) (Dianne -1)
- d. Say you'll think about it

90. Multiple Choices

- a. **CHOOSE: Yes**
 - i. My reasoning in taking the deal is that even though you have not done any of the things Lisa is threatening you with, telling her no deal will lead her to actively harm your career by spreading these false rumors. Not to mention you are already staying away from Mr. Gordon and Tony is cheating on you. Accepting the deal will keep these lies under wraps and Lisa will spread positive stories about you instead.
