

Hello and thank you for playing "Saturday Night V5".

WARNING !

Help can seem complicated!

I advise you not to read everything!

The most important thing for now is the anal plug and your cheat and share points!

Use the file search option to find out when you need to pay attention!

-You can record whenever you want by using the up arrow on your keyboard!

But it is strongly advised to use the menu in the main room to avoid creating a corrupted file!

Like you, I have to restart the game at the beginning to create a backup file, that's why I wouldn't give any!

-To speed up the dialog, press the key:

Azerty keyboard: W

Qwerty Keyboard: Z

Abusing this option can make the game buggy!

-Some events are random and may be different from this help!

-You must have 160 naughty points to start using the statues in version 5 of the game!

If you don't find the anal plugin, you won't get enough points for in this version!

-You'll have choices to do, so it's impossible to see the whole game in one go!

-Some events/customers are only present temporarily! remember to back up regularly!

-In part 5 of the game (and before), you will have to choose between sharing and cheating before leaving the club!

The sequel of the game "house and cab" will depend on your points!

-And of course, the real end of the game!

I wish you a good game!
