THIS IS A NEW GAME!

Things to note:

1. The game auto saves, if you exit the game, and want to continue then just hit the continue game button. It will pick up from where you left off.
2. Time advances 1 hour for every min IRL (In Real Life).
3. **Right Click** your **mouse button** to **force scenes to pop up** (a bunch of times). If there are scenes there.
4. The lockpicking is hard... all but one door are set to 100% difficulty. I will show you the door you can pick easy and where you need to go with the lock pick to open it. (**Note**: IT IS SUPPOST TO BE RANDOM, so if the spot I show you doesn't work then try another spot and good luck). Also I should say, you move the Lock Pick with the mouse but you turn the Lock Tumbler with SPACE BAR.
5. You make \$ by working at the Pharmaceutical Research Company as a Janitor, you get \$50.00 a shift.

6. Lock Picks can be bought at the RED-LIGHT DISTRICT from the Troll, they are \$10.00 each.
7. **Text's** are random!
8. When you start the game your map will look like this. (see pic below).

First things first. The order you meet the characters is the order they will show up in your phone.

When you enter a location EG:/ your Apartment Building, your apartment you will see the rooms of your apartment. You can choose a room you want to enter, and you will be there. Once you hit the map button again you will see the same rooms, however if you want to leave that location and go somewhere else then you have to hit "ALL LOCATIONS" (Top Left), and you will see the map list as above.

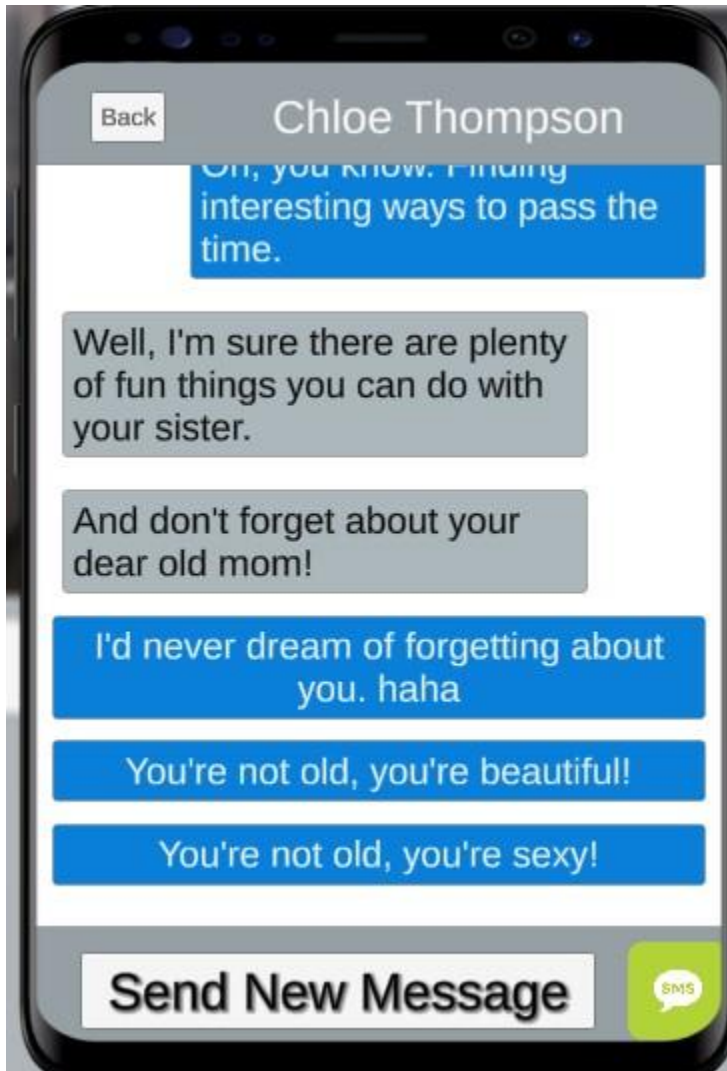

There are not many scenes as of yet, but I will tell you how to get them.

I Choose the order of characters as follows:

Chloe Thompson (MOM)

Once you see her you can flirt with her until you have 100% with the "Love" stat.

To build her "LUST" Stat you have to wait for her text's (see pic)

Pick The bottom option to build her "LUST" stat.

There are no real scenes until Her "LUST" stat is over 30.

There is ONE (1), make out scene that you will get, and it's when you flirt with her. Yes it's repeatable, It also raises her "LUST" stat.

You can also watch her shower in the mornings, 7am.

Hannah Thompson (Sister)

You can watch her shower in the mornings at 8am.

At 9am you can eat breakfast with her. You can also play footsies with her Building up her "LUST" stat.

She will send you texts, depending on your choice you will build up "LOVE" or "LUST" stat with her.

AT Noon on the weekend you can watch her in the living room doing yoga.

Once her Lust stat is 40+ when you play footsies there will be a scene.

Once her "LUST" is 60+ In her room there will be another option and a scene.

AUNT: Jenna Cooper

She is the easiest to build up stat with.

You can flirt with her to build her "LOVE" stat.

You can play with her Gorges and Massive Breasts In her living room to build up her "LUST" stat.

You can watch her in her shower, 9am.

Kim Cooper

No scenes yet.

Heather Cooper

No scenes yet.

Amy Cooper

You can watch her in her shower in the morning, 10am.

Amanda Phillips

You can watch her shower in her apartment in the morning, 8am.

At the GYM in the Massage Therapy room she will give you a message for \$50.00, this will build up her "LUST". Once her "LUST" is high enough then there will be more options each one costing more then the one before. THERE ARE THREE (3) LEVELS to this.

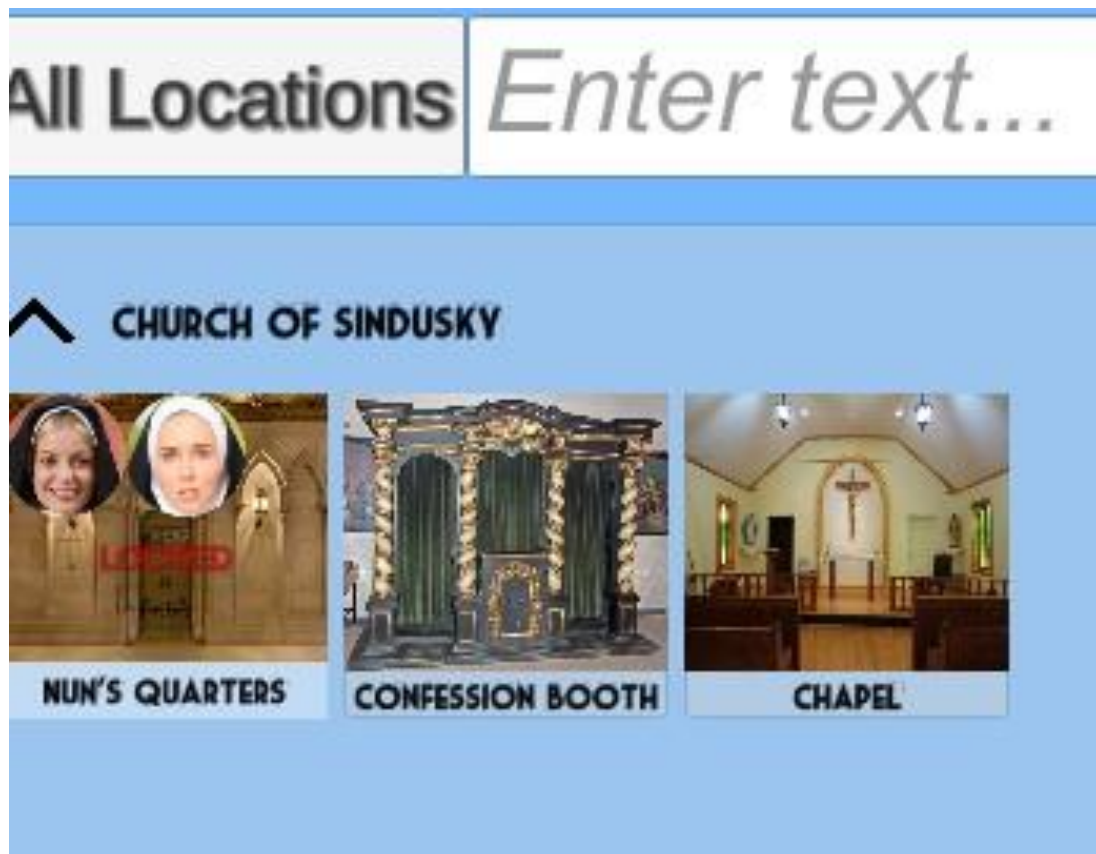

Level 1: \$50.00, Level 2: \$100.00, Level 3: \$250.00.

NOT GIVING YOU THE "LUST STATS" Just grind it up like I did.

The NATURE PARK: - Park Trail

There are Two (2) women you can run into. (Right click a bunch of times and you can see each one assuming your there during the day and not at night). Enjoy!

Church:

The **ONLY DOOR** You want to **Lock Pick** is the **NUN'S Quarters**.

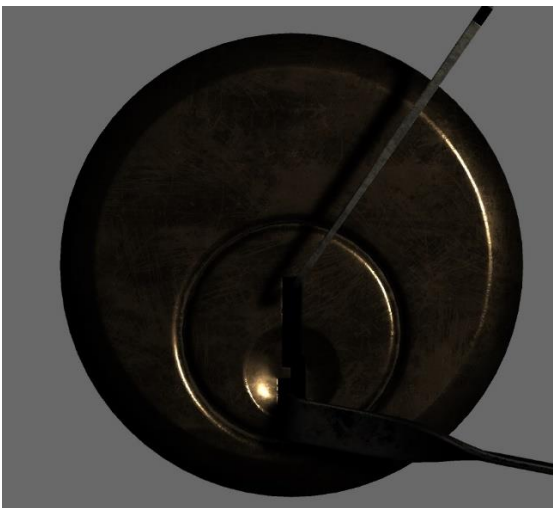

It will get you in to their shower so you can watch on of the two nuns shower, 6am. (second nun was just added and there is no more content for the nun's except for the one scene I mentioned above.

Lock Picking!

There are clicking sounds you can hear but they will not lead you to anything.

Move your mouse to the right, Listen for two (2) clicks once you hear the third click move back to the left of it just a bit, and your in. (Just before the third click)...

If this one doesn't work then try the other side same steps...

Much Thx from **Sinaxxr** and **Reaver**
