IMPORTANT:

There will be two choices for you to choose between during this scene, that will determine which ending you get at the conclusion of the game. Which girl(s) you end up with, is completely up to you! But it all starts here.

The two choices on the screen will be:

“Agree with her”

This means you will continue to date Nicole, however, you are also free to date other women over the summer.

It will also mean that at some point in the game, Nicole will start to take an interest in the women you’ve been dating,

and she’ll want to hear all about it from you! (More details on that in a later update.)

“Break up with her”

This means that you will officially end your relationship with Nicole. You are free to date whoever you like, completely guilt-free!

NOTE: Not every potential love interest in Sunshine Bay will be looking for love or a serious relationship - in other words,

you won’t be able to have a *happily ever after* with every girl.

Some of the girls will be purely interested in something casual, or a “summer fling” if you will. Some characters will make it obvious

enough if they’re looking for this or maybe something more serious. So keep an eye out for those telltale signs.

Choose wisely here folks. Or better yet, make several “game saves” to see what happens after each option from here until the end of the story!

You **MUST** choose this option to have the chance to view her burlesque costume later that night, which eventually leads to a fantasy sex scene of “young Ashley”.
