GAME PLAN

The guide will list almost every set of choices that are presented to you in-game with its corresponding effect (if it has one). Just keep an eye on the following tags:

- (Pacifism) Selecting those choices will result the [MC] in being more Passive / Submissive.
- (Perversion) Selecting those choices will result the [MC] in being more Aggressive / Dominant.
- (Sispervbro) Hidden Stat to track how perverted Alice is.
- [Trigger] Hidden Trigger that will affect future scenes and dialogues.
- [Image(s): #] I'm only listing UNIQUE images that can't be obtained from the default story line.

PRO Tip: Search for the missing image by; "Ctrl + F" then enter "#Number" (Obtained from gallery)

Last tip before we start, choices in **BOLD** are usually those who are tagged with one of the above tags. Choices with normal text or those without tags next to it, you can simply ignore. Enjoy!
