

## Summer of Love

Version 0.3

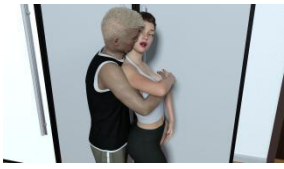

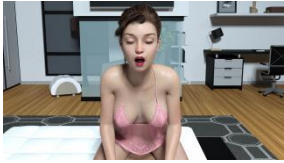

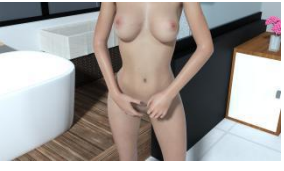

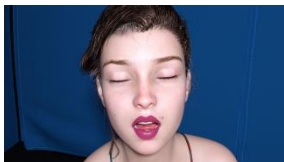

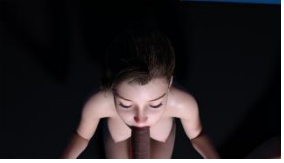

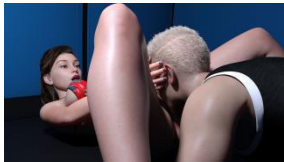

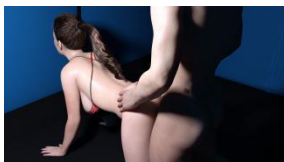

**2020**, a new bright decade! At least that was what people thought. The virus destroyed everything. You lost your job as a yoga instructor. But it was lucky for you that another yoga center in a small town hired you. You moved there with your girlfriend, who was also a yoga instructor. One day, she asked you if you could let a guy work there with you. And your mother also asked you if you could let her boyfriend stay with you when she was busy helping people in the global pandemic. You could deny (**Harem Route**) or agree (**Netorase/Netorare Route**) to let them join the story. But deny or not, you still could choose to swap couples (**Swinging Route**) with your new neighborhood. Your choices will take you to different endings.

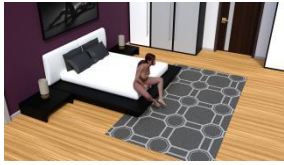

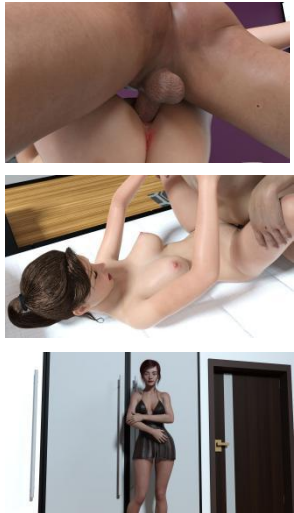

**Summer of Love** contains:

- ✓ **Romance / Harem Route:** make all women (or just one woman) fall for you.
- ✓ **Girls-only Route:** intimacies between girls with the possibilities that lead to **MFF (Harem), Swinging** or **Orgy (Netorase / Netorare)** depends on your choices.
- ✓ **Swinging Route:** have a new adventure with a couple in the neighborhood.
- ✓ **Netorase Route:** you encourage your girlfriend to sleep with other people and you also see other women fucked by the antagonists.
- ✓ **Netorare Route:** your girlfriend cheats on you behind your back and you also see other women fucked by the antagonists.
