

**New Earth**  
**Chapter 01 - Version 0.7**  
**Walk-through**

**Story:** In 2121, interstellar travel isn't a problem anymore. A group of students won a prize to travel to Kepler-452 star system. But right before they could change their route back home, they received a transmission that the Earth had just been destroyed by a worldwide cataclysm. They had to land on Kepler-452b planet, a habitable planet. As the leader, you'll have to help everyone start a new life and populate (**Pregnancy**) the **New Earth**. (Please notice that there are no tentacles, aliens, monsters... in the story.)

**Possible Endings** (depending on your choices):

- ❖ **Tyranny (Harem):** You become a tyrant, have all women for yourself. The other men are your slaves.
- ❖ **Democracy (Sharing):** The society becomes a harmony democracy, where everyone has the chance to get laid.
- ❖ **Anarchy (NTR):** A guy not you becomes the new leader. Under his rule, the society becomes a disaster (especially for you).

**Routes Explanation:**

- ❖ **Alpha Male:** You dominate the women. They all belong to you.
- ❖ **Girl on Girl:** The women belong to you, but they still have fun with each other.
- ❖ **Swinging:** The women belong to you, but they still have fun with other men under your permission.
- ❖ **Cuckolded:** The women belong to you, but they still have fun with other men behind your back.
- ❖ **Beta Male:** The women belong to Justin. He will humiliate you by having sex with them in front of you.
