

This walkthrough is just to get people through the story and all characters, it doesn't search for hidden scenes or repeatable ones.
First position is Morning,
Second is Afternoon,
Evening you can do whatever you want after the first night (mainly working out or studying, a handful of times will give you enough confidence you can skip them after) and Night is for sleeping.
As an aside, Pass = Pass time (click double triangle at top of screen or nap), Skip day means sleep through the day, always use 2nd floor elevator.
This is a very simple walkthrough.
