INTRO

SPoILER WARNING!

after starting the game starts you will go through the normal professor intro. After choosing a name and entering your home you are free to interact with the objects around yours and your moms room.

After going downstairs and talking to your mother you should exit your home and grab the flower outside for a future event, after doing this you should next head east to your neighbor Mr. Crabshaw's home. After entering his home talk to him and he will give you some heartfelt advice.

Next head south out of your town and head west at the sign towards Stort Port. Upon entering a cut-scene will play showing your mother leaving on her cruise, your character with think to themselves until a girl walks up to you (Serena) and asks you for directions

Next you must talk to Delia (beach) Leaf (Pokemart) and the old man in the south easternmost house and listen to his tale

After all 3 of these people have been talked to you will receive a message telling you to find Serena but before leaving I would recommend grabbing a Fungberry from the merchant at the very top of Stort port

After receiving your pristine Fungberry head south down the crossroads outside of town, after some walking you'll encounter a Charmander Talk to it and offer it either a Fungberry, Flower both OR a simple head pat the points for each option are so

Head pat = Charizard Love +1

Flower = Charizard Love +2

Fungberry = Charizard Love +2

Both = Charizard Love +3

After making your choice head east down the route and fight your first encounter. After beating this first encounter keep heading east (return to Stort port for healing if needed). Once you reach Lentell town head north to the cave entrance- talk to Serena waiting at the entrance and then speak to the officer

SERENA GUIDE

After talking to the officer and listening to his map rant head back to Serena and talk to her, she will become elated after hearing you know where a map is. So now it's time to go find it

The map is in a cave down south HOWEVER to get there you will go through many water Pokemon so if you want the upper hand look around in the apartment at the northeast of Lentell town for a big boost to your man(poke)power

The Pokemon trainers on the beach are lv 8 – 10 and then when you get to the south beach the wild Pokemon are level 10-12

Keep going south until you reach a bridge, cross it. before entering the cave you'll see a girl in the corner, this starts the Buneary quest

After entering the cave head north and wrap around till you get to the map and axe (This allows you to cut down the bush to head back to Stort port!) but for now we can use the escape rope and start walking back to Serena who is now waiting for you in the restaurant (Big building with hoot hoots on it south east of Lentell town)

After entering the restaurant a cut-scene will play and after you're done you can head

back to the cave and go in with Serena (if you talk to the officer before this you can receive a TM)

Warning before entering the cave be aware it's the highest level area so far in game

so it's better to do other relationships/quests before moving on. If you ARE ready it's as simple as point a to point b, and at the end of the cave you get an H scene

SERENA-THIGHJOB

After plowing thigh, talk to her again to open the way to the rest of the cave.

After entering the criminal hideout head into the room on the left for a short text scene and a chance to skip some battles

Leave = Nothing

Finger = Charizard Love – 1

Tie up and finger = Disguise

Now go into the main room and go directly west to the first room then go north to the next room and enter the ladder inside. After doing this make your way back to the main room and head north and go down the long hallway. Talking to the man at the end starts **Umbreon's** quest

After making your way to the exit do the little cutscene that plays and head outside to the centre of the town and talk to the old man and play out the scene

THE PATH SPLITS HERE GO TO YOUR RESPECTIVE CHOICE

If you've done some vigilante behaviour you'll have a choice of either becoming one or choosing not to go full vigilante and soon become a deputy. If you didn't do much vigilante behaviour you will automatically be put on the deputy path

After doing your respective path you wont find her and for now she doesn't have more scenes (To be continued in 0.4.5)

SERENA END 0.2c
