

NOW & THEN

A Tale of the End

Now and Then v0.18 Walk-through

Choice walk-through by: Mordred93

The intent of this guide is to get you the most points with the girls, but is primarily a Carol run-through. There are alternate dialog trees throughout the game, however this walk-through will give you the most points, and probably be more useful in the future as the game develops. If you want to see it all, play the game with the "bad" choices, in an alternate save, to see what happens in those dialog trees. This Developer does a lot of work with the dialog, and lots of changes to the dialog occur if you make particular choices.

As you go through the game, some choices will give you one or all of these things; Points, Alternate Dialog, and Additional Dialog.

There are four types of points:

Love: This is, of course, a measure of each girl's feelings for the MC (Jack). Right now, this doesn't have a noticeable impact on the story. It will, in the future, help shape the course of the game's endings. Also, there will be choices later in the story where you may have to "spend" these points if you don't choose Carol.

Trust: This is earned by being honest with each girl about your situation. The more you treat her like an adult, the more she trusts you. Often, the decisions that earn Trust also earns Nerve. Trust points will impact future conversations and actions.

Nerve: This is a measure of each girl's nervousness about the world around her. The more you confide in her, or the more she sees the dangers for herself, the more stress she'll feel. This may make her more cautious, or more of a paranoid person depending on her personality.

Conflict: As you may have noticed, there is an uneasiness between Alice and Naomi. While they are family, Naomi feels there's a bit of competition between them. This is actually a measure of the tension

between Alice and Naomi in terms of how they both interact with Jack. This stat may have as much an impact on Naomi as it does Alice.

Alternate Dialog: Dialog that is different, and you won't get to see any other way unless you make this choice. An example of this might be if you see the bandits in CH4 instead of going bra shopping. Later you will have an internal dialog when you see them on the street at night and you will be able to identify them since you saw them earlier in the day.

Additional Dialog: This is dialog that is in addition to what is normally said. For example, you have a scene, and then if you made enough right choices, you will get some additional lines of dialog which enhances or alters the conversation in some way.

Understanding the choices (IE. how to read this guide):

Choice Text (IE. what you are choosing)

Choice with most positive outcome

Choice with least positive outcome

Choice is a Coin Toss, you must choose your own path, no choice is inherently better, but may provide drastically different outcomes.

"You can help around the building.":

You get Carol Trust and Nerve +1

"No, it's not safe.":

You end up at the same place (she does the work) just trusts you less

The End of Chapter 1

"Tell her.":

Longer talk & Carol Trust and Nerve +1

"Distract her.":

Shorter talk, no stats

"Fess up.":

Trust +1, Love +1

"Don't admit to anything.":

Trust -1

"Give her the details.":

Trust +1

"Yada-yada-yada...":

shorter, alternate text, No stats

The End of Chapter 2

Carol is going to try on 4 outfits as part of this scene. If you pick the right answer for all 4 correctly you get +1 love and some additional dialog.

"Yes":

Correct Choice

"It's nice.":

No Points Awarded

"It's looks good.":

No Points Awarded

"You look wonderful in it.":

Correct Choice

"It's okay.":

Correct Choice

"It looks great":

No Points Awarded

"It looks nice.":

No Points Awarded

"Wow":

Correct Choice

You get a choice of outfits to wear home after this scene. It really doesn't matter you just get different random renders back home with Carol wearing what you picked. Pick what you like.

You are now going to start an event, which starts with two choices (left/right) which one way gets you more points, but the other may be more important in the future (don't know yet).

"Left: Start heading back now.":

See some bandits, alternate dialog later due to knowing who the bandits are, and that they are working in your neighborhood.

"Right: See if I can get Carol something at Burgundy Petals.":

Go to the store to get a bra for Carol, and some points

"Check out the noise.":

Pick for possibility of Love +1 and Nerve +1

"Be smarter than the people in movies: Leave.":

You leave with nothing and go home

If you checked out the noise:

"Go to my right.":

You shoot an infected, and don't end up bloody
(different dialog at home)

"Go to my left.":

You end up bloody and stab an infected with your machete. You got a bra without making a lot of noise, so you will get Love +1 and Nerve +1 when home. This also helps with Sydney in Chapter 12.

The End of Chapter 3

"Stay here and tend to the stove.":

alternate dialog

"Send her to Roy's to get supplies.":

Trust +1

"Let Carol choose.":

Trust +1 (if you followed this guide, and trust >=3, additional dialog will be displayed)

"Take care of it in the morning.":

Tomorrow you will clean up the body on the street. You miss out on a scene for getting food. If you are playing for points with girls - don't pick this.

"Maybe later. I have better things to worry about.":

You scrounge for food at the store, and may have future impact based on usage of the flag being set that the body is still there. You get a chance to clean it up in a few days with zero impact, plus you get to see the food scrounging.

This is a series event where you are drinking with Carol. One way gives you more points, the other lets you just go and jerk off (which you will do anyway)

"Gotta go before I go too far.":

Run to the bathroom to jerk off

"I can't help myself. It feels so good.":

You continue Making out

"I need to stop right here before we go too far.":

Run to the Bathroom to jerk off

"Just a little more. It feels so good.":

Make out more with Carol, and Love +1, you end up Jerking off anyways

The End of Chapter 4

"Leave it alone.":

Alternate Dialog

"Try the door."

Additional Dialog and Nerve +1

"Be patient with her.":

Alternate Dialog, Nerve -1, Trust +1

"Try the door.":

Alternate Dialog, Nerve +1

"Fondle her.":

You grope her, Additional Dialog

"No, it's not safe.":

You don't grope her, Alternate Dialog

At this point you can have sex with Carol. The next section tells you how to get the most bang for your buck. You cannot do an infinite loop, so only pick Finger and Oral Sex one time (one run through of each option), and then go on to the next. If she gets off 3 times (Oral, Fingering, Sex), there is an additional Love point +1 and additional dialog. So make her happy and make her cum a lot :)

"Go down on her.":

If you pick this you will go down on Carol, then have the option to finger her. You will miss out on additional/alternate dialog.

"Finger her.":

If you pick this you will finger Carol, then have the option to go down on her. You will get additional/alternate dialog along the way to match the choice pairing.

If you Go Down on Carol, and haven't fingered her first, you get this choice:

"Move on to fingering her.":

Best choice as you get her off again, and can get an additional Love point after you have sex.

"Make love to her.":

You have sex, but she doesn't get off 3 times, and less Love points for you

If you Fingered Carol, and haven't Gone Down on her first, you get this choice:

"Go down on her.":

Best choice as you get her off again, and can get an additional Love point after you have sex.

"Make love to her":

You have Sex, but she doesn't get off 3 times, and less Love points for you

At this point you have sex, you get Love +1 and Sex +1 (used later for alternate/additional dialog). If Carol got off 3 times, you get an additional Love +1

The End of Chapter 5

If you did not move the body in chapter 4, you will be asked:

"Yeah, go move him.":

You take care of the body, then have breakfast with Carol (just like the other choice). While you don't miss out on any dialog, if you are playing for points with the girls, don't pick this, as you miss out on points in CH 7.

"Put it off. Breakfast is waiting to be made.":

You just go and have breakfast with Carol. There is no negative at the moment for not doing it, and no flags set if you don't.

You are given one of three options. They are separate scenes and have different outcomes, and nested options. There is a flag set about Naomi's Guilt which can add additional dialog later. Remember, the more gunshots (IE. loud) you create, the more infected that come. Also later in the game - the more gunshots you shoot - the more the bad things happen to your neighborhood.

"Wait for an opening.":

You wait a while, to assess the situation. You get the same two choices as below (Rambo, Gunfire is bad) and you eventually get Naomi Love +1 and Naomi Trust +1.

"Go Rambo: Fire on them.":

You open fire, and attract the Infected. The more bullets in subsequent choices you fire, the more Infected that come. If you straight up execute the bandit to ease his pain, you get a Naomi Nerve +1. You get some additional dialog later as well.

"Gunfire is a bad idea. Scare them off.":

Best choice as you scare off the bad guys, no bullets fired, and no one is hurt.

"Go Rambo: Fire on them.":

You open fire, and attract the Infected. The more bullets in subsequent choices you fire, the more Infected that come. If you straight up execute the bandit to ease his pain, you get a Naomi Nerve +1. You also get a Naomi Love +1. You get some additional dialog later as well.

"Gunfire is a bad idea. Scare them off.":

You get Naomi Love +1, and scare off the Bandits

"Yes.":

Alternate Dialog and Carol Trust +1, Carol Nerve +1

"No (lie).":

Alternate Dialog and Carol Nerve +1

"Tell her you're proud of her.":

Alternate Dialog and Carol Nerve -1

"Tell her you love her.":

Alternate Dialog and Carol Love +1

You will now play a game of truth or dare (but mostly truth). Carol and Naomi each have 4 questions, which you can pick in any order (no difference, no points, etc). There are some questions you cannot ask (only 6 rounds). Again it doesn't matter in terms of points which questions you ask (Naomi or Carols, etc.)

One Round - Carol will ask: "Okay .. uh .. What was the kinkiest thing you ever did with Lori?"

"Incest Play":

This sets your preferred kink to Incest Play (Calling you daddy during sex)

"Schoolgirl Play":

This sets your preferred kink to School Girl. You can get cool school girl sex later in the game (IE. Chapter 12)

"Butt Stuff":

This sets your preferred kink to Anal Play

"Nothing":

This sets your preferred kink to none

One Round Naomi will ask: "Okay .. [player_name]? Have you ever liked someone older than you?"

"Yes.":

Makes no Difference, Alternate Dialog

"No.":

Makes no Difference, Alternate Dialog

Round Six comes and you get to pick 1 person to ask a question to.

"Ask Carol a question.":

Naomi asks the MC about the length of his hair and Carol Love +1

"Ask Naomi a question.":

Naomi asks Carol about the first time she masturbated and Naomi Love +1

Naomi asks if you want to play a more R rated version of Truth or dare. Your choices are to go down this path, or to go to bed.

"Sure, why not?":

Play a little more Risque version of Dare with Naomi and get Naomi Trust +1

"Grab her boob.":

Umm - you grab Naomi's boob and Naomi Love +1

"Better not.":

Alternate Dialog and no extra points

"Actually, better not.":

Quit playing the game

The End of Chapter 6

"Apologize."

Additional dialog and get Naomi Trust +1

"Stay silent."

Dialog

There is a scene in Chapter 4 and Chapter 6 where you had the opportunity to move a dead infected body from the street. I have modified the "best" choices now that the outcome is fleshed out. It is best that you don't move the body if you want max love points. Otherwise you should move it in Ch 6 when there is no penalty for missing content.

If you didn't move the body - you get a ton of nested choices which you can get a few points for each girl.

"Be honest with them.":

You tell them about the body, get Naomi Love/Nerve +1 and Carol Love/Nerve +1. You also get alternate dialog.

"Come clean.":

You get alternate dialog

"Tell Carol a half-truth.":

You lie to Carol and get Carol Trust -1

"Fudge the truth.":

You get alternate dialog and lie to them. You get Carol Trust -1, Carol Nerve +1, Naomi Nerve +1.

If you moved the body - you get no points and alternate dialog.

If you followed this guide, you should have at least 3 (4 if you picked Naomi in the Truths game a couple nights before) Naomi Love, since you need at least 2 to get a goodnight kiss, and 3 to get the following choice.

"Keep looking.":

Additional Dialog and scene plus Naomi Love +1, plus you get alternate dialog the next day, and another scene in Ch 8. This is not the best play if you are trying for a Carol only path.

"Probably best not to.":

You miss out, alternate dialog

If you fired 2 or more shots when saving Naomi, you get visited by multiple infected, and get a Naomi and Carol Nerve +2. Otherwise you get visited by a single infected and get a Naomi and Carol Nerve +1.

"Motion her in for a hug.":

Alternate dialog and you get Naomi Trust +1

"Maybe not. You've been too "touchy" with her lately.":

Alternate dialog and no points

"That's great, but not now.":

Alternate dialog and Carol Love +1

"(say nothing)":

Alternate Dialog and Carol Nerve +1

The End of Chapter 7

"Four":

Carol Nerve +1 & Naomi Nerve +2

"A few":

Carol Trust -1 & Naomi Nerve +1

If you have Naomi Nerve ≥ 3 you get an additional scene with choices (You should get it if you follow this guide)

"Calm Naomi down yourself.":

Alternate Dialog & Naomi Trust +1

"Carol's got it under control.":

Alternate Dialog

At this point you are getting to a conversation about moving to a different location to live. If you followed this guide you should get the option for the GREEN path Choices. If you don't have Naomi Trust at least 3 and Carol Trust at least 5, you get alternate dialog and Naomi freaks out about having to move and not being safe, and there are no choices in the dialog.

"Bring it up":

Additional Dialog and if Carol Trust ≥ 5

"Put a hand on her shoulder.":

Alternate Dialog and Naomi Trust +1

"Maybe not.":

Alternate Dialog

"Put it off for tonight":

Alternate Dialog

"Wait the infected out.":

You wait for the Infected to leave and Alternate Dialog. It initially is the best play but eventually you get Carol Nerve +1 and Naomi Nerve +1 as the Infected is still lingering around later and scares the shit out of you.

"Go all Solid Snake and sneak up on it.":

You kill the Infected you come across and Alternate Dialog and eventually Carol Trust -1. There are several mini things that happen if you kill this guy (like an infected comes out of the blue) but no other changes in stats.

If you talked about moving to a new place, the girls are less scared when you leave to hunt for new housing. No points are give/taken but it leads to different conversations based on talking to the girls the night before.

"Put a comforting hand on her leg.":

Additional dialog and Naomi Trust + 1

"Maybe not.":

Small dialog and go to next scene

If Naomi flashed her boobs to you in the previous chapter (7) you get this choice:

"Nah, don't be a creeper.":

You don't see any naked Naomi

"Just a peek wouldn't hurt.":

You see a little Naomi skin while she sings in the shower.

You get 1 in a series of scenes based on your love points for each of the girls. Each one is a different.

- If Carol's Love is at least 5 and Naomi's Love is at least 4, Naomi messes around with you in your sleep.
- If Carol's Love is at least 5 and Naomi's Love is less than 4 Carol nestles up to you in bed
- If Carol's Love is less than 5 and Naomi's Love is at least 4 you all will sleep together and get the following choices when Naomi starts to rub your dick:

"Shift about":

She stops playing with you and Alternate Dialog

"Say something":

She stops playing with you and Alternate Dialog

- If your Carol Love is less than 5 and Naomi's love is less than 4 you sleep alone.

Okay - save here. Seriously in case I cannot read code right. If you pick the green you go down a path of sexy time with the girls. You can go through the process of watching Naomi masturbate and/or fingering Carol. It doesn't matter what order you pick, (all Carol, all Naomi, C N C N C N, C C N N N C C, etc) you can see both scenes, or one and go to dinner to not see the other's scene. For ease it is easiest to pick one girl, watch the scene through the 4 steps, then go to the next girl.

"Check up on Carol":

You check on Carol and calm her down by fingering her, get Carol Nerve -1

"See what Naomi is doing":

You can watch Naomi masturbate, then do the Carol Path.

"Continue with Carol"

You get Carol off, you can then do the Naomi path.

"Head onto the kitchen":

You don't get to see any sexy with the girls and just go to dinner.

You get to deal with an Infected. If you beat it 1, 2, 5, 10, 15, 25 times (no points penalty) you get different funny dialog:

"Give him another one.":

Alternate dialog

"He's dead. No need to drag this out.":

Alternate dialog

The End of Chapter 8

Part 2

Note: I noticed during Part 2 that more and more choices are not "right and wrong" but you are "Choosing your own adventure". You pick one girl or the other, or other things so there are not as many clear cut choices (thus a lot of gold colored choices).

"Be brutally honest.":

Carol Trust +1, Naomi Trust +1, Naomi Nerve +1, Alternate Dialog

"Fudge the truth a little.":

Alternate Dialog

If your Carol Trust is ≥ 4 you get some happy time with Carol which leads to the following choices:

"Pull out.":

Alternate Dialog

"Cum inside.":

Alternate Dialog, and the game remembers your choice to cream-pie (possibly for future ramifications)

If your Carol Trust is < 4 your very presence angers Carol, get Carol Love -1, and will get no happy time in the showers, and some other passive/aggressive dialog about the MC throughout the chapter.

"Yeah, it was nothing.":

Alternate Dialog

"Just smelled something odd.":

Alternate Dialog here and in the future chapters.

"Pull her in for a hug.":

Naomi Nerve -1 and Alternate Dialog

"Let's sit down for a bit.":

Alternate Dialog

"Maybe.":

Alternate Dialog

"Probably not.":

Alternate Dialog

"Check on Carol":

Carol Nerve -1, the game remembers your choice, you sleep with Carol and provides alternate dialog.

"Check on Naomi":

Naomi Nerve -1, the game remembers your choice, you sleep with Naomi, and provides alternate dialog

"Roll over and catch another 15 minutes.":

Alternate Dialog and you sleep more

End of Chapter 11

There are a few places where you have a series of conversations and if you get enough points, you will get some points with girls. I have the math laid out after the section:

"She's my adopted daughter.":

Alternate Dialog, Sydney talking point +1

"She's long gone.":

The next choice is a biggie. You basically have three choices. Have sex with Naomi, Carol, or neither. When you pick a girl (or neither), you still see the other girl and talk, but just no sex with the other one. If you picked schoolgirl as your kink you selected during the truth or date game in Chapter 7, it will play out if you pick Carol.

"Head to the gym (Naomi).":
Alternate Dialog, Naomi Sex +1, Carol Love -1, Naomi Love +1, Sydney also catches you, which can lead to additional dialog in other Chapters.

Alternate Dialog, you keep Naomi all to yourself, no sharing.

"Your call. You're a grown woman.":

Alternate Dialog, you let Naomi explore her bisexuality, and opens a route with Naomi.

End of Chapter 12

I cannot emphasize how many details are in this game, and my walk-through will not address them all. Like for example, for almost every choice, there are changes in dialog throughout the game based on the choices you made. Another example, is if you picked Naomi in Chapter 12 to have sex with, you get a nice little scene where she takes a pregnancy test, and have additional dialog if you chose her again in Chapter 13.

"Yeah, she was heavier than I expected (lie)":

Alternate Dialog and Sydney Trust -1

"I took a little detour before coming back.":

Alternate Dialog and Sydney Trust +1

"A couple and only when I had to.":

Sydney Nerve -1, Alternate Dialog

"That one makes five/four (this # depends on previous factors).":

Alternate Dialog

"Yes, I have the room.":

Sydney Like +1 and Alternate Dialog

"No.":

Alternate dialog

"Let me see if I can get that door in the locker room open (Naomi).":

Sex with Naomi, Naomi Sex +1, Naomi Love +1, Carol Love -1, Sydney catches you, and leads to Alternate Dialog later. If you chose this, and chose Naomi in chapter 12, Sydney will only know about MC and Naomi.

"Cum on her face.":

Alternate Dialog and Pictures

"Cum on her breasts.":

Alternate Dialog and Pictures

"I love you, too.":

Alternate Dialog

" ":

Naomi Trust -1, Alternate Dialog

"See if I can find Sydney in the library (Carol).":

Sex with Carol, Carol Sex +1, Carol Love +1, Naomi Love -1, Sydney catches you, and leads to Alternate Dialog later. If you chose this and chose Naomi in chapter 12, Sydney will know about the MC, Naomi, Carol all fucking. If you chose something else, Sydney will only know about Carol and MC fucking.

"Head up to the roof.":

Conversation on the roof with Sydney, which changes depending on if you got smokes for her or not. No sexy time with the girls, and Sydney doesn't know about MC and girls unless you chose Naomi in CH 12.

"We won't be able to use it.":

Alternate Dialog

"I could hold off for right now.":

Alternate Dialog, Carol Trust +1, (For now - another variable was set and we shall see how this plays out)

"No, I just need to move quickly.":

Alternate Dialog

"It might be.":

Alternate Dialog, Naomi Nerve +1

If you told Naomi she can explore being Bi, she will have a scene with Sydney here. Otherwise you will get a small apology for a prank earlier in the Chapter and move along. If you are going the Bi route with Naomi - you will see the following:

"Want to continue?":

You watch Naomi have sex with Sydney

"See what [player_name]'s up to (scene end)":

You go back to the main path of the game, no sexy time.

"Hell no. GTF0.":

Alternate Dialog and you leave

"Just a short peek will do.":

Alternate Dialog and you find an infected

At this point Sydney and Naomi have a heart to heart. Sydney asks questions about the relationships between the girls and the MC. Sydney can know nothing about the girls and the MC (depending on choices in Chapter 12 and 13), about Naomi, or about both Carol and Naomi fucking the MC. I have highlighted the choices in the WT. If Sydney likes MC > 1, a flag is set that she will ask the MC for some sexy time (in a later chapter, as not in Ch 13)

There is a ton of variations of scenes based on what Sydney knows, if Naomi is Bi, and how many times people have slept with whom. Just know that each play through might be different but no different values are assigned, just different dialog.

You go and have breakfast (boring)

"Ask her about it.":

Carol Love +1, and sex

"I don't have the time.":

Alternate Dialog

The following is a hard choice as no matter what you pick - someone loses trust. Since this WT is primarily a Carol/Naomi run through - I would pick the top choice as the pick. If you are going on a Sydney run - pick the second.

"Yes. They should know.":

Alternate Dialog, Carol Nerve +1, Naomi Nerve +1, Sydney Trust +1

This opening sequence has five ways this can play out. Four ways based on the next set of choices, and a fifth depending on a choice made in chapter 14. The end of the chapter happens the same way no matter what choices you make along the way. There are no further choices. Basically you

now lose Sydney and leave Julie behind, but take Alice, Naomi, and Carol with you to the next adventure.

Unless there is something in the future, all the points that you scored with Sydney are "wasted" because you won't see her again.

Unfinished Alternate Run:

So far this walk-through has been mostly about getting the most points with the girls, and not screwing up your relationship with Carol. You can make a different run that is not fully implemented in the game yet (without developer console access, graphics not rendered, dialog not finished, etc.). This run is the Naomi Love Interest run.

To get this, and access the scenes you have to have Carol's love 2 or less and Naomi's Love 4 or more. You also have to set a flag in the ren'py dev console (do a search) and set "persistent.ch8naomi_alt_unlock = true", "naomi_relationship_tier = 1", "persistent.ch11_alt_unlock = true"

Chapter 12 has some code for Alternate Scenes, but it is not finished. The flags are: persistent.ch12s08naomi_alt_unlock, persistent.ch12s15sydney_alt_unlock

Chapter 13 has some code for Alternate Scenes, but it is not finished. The flags are: persistent.ch13s08naomi_alt_unlock, persistent.ch13s09carol_alt_unlock, persistent.ch13s15sydney_alt_unlock

Chapter 14 has some code for Alternate Scenes, but it is not finished. The flags are: persistent.ch14s02naomi_alt_unlock, persistent.ch14s14sydneysex

Chapter 15 has code for Alternate Scenes, but it is not finished. The flags are: persistent.ch15_carol_alt_unlock, persistent.ch15_sydneynaomi_alt_unlock

Chapter 18 has a code for Alternate Scenes, but it is not finished. The flags are: persistent.hana_alt_unlock:
