■ About You (Onii-chan)

Generally, there are 4 types of character background (student, part-timer, working adult, bum).

- Student
 Low financial power, excellent action ability, able to stay up till midnight even on weekdays.
- Part-timer
 Average financial power and action ability, gets 1 free action during the day. Goes to sleep at 23:00.
- Working adult
 Great financial power, low action ability, goes to sleep at 23:00 on weekdays.
- Bum
 Financial power and action ability are both low, but able to use 3 free actions during the day. Goes to sleep at midnight.

■ Game Cycle

With each passing day, the more you deepen your relation with your little sister by communicating, more actions will gradually become available to you.

The weekend starts on Saturday. Shopping, working out, and other unique actions can be taken.

Also, bedtime is at 23:00 (except for student and bum), but it is possible to delay it until 01:00 on Friday and Saturday nights.

The midnight scene cutoff is also extended until 05:00, longer than the midnight scenes during weekdays.

■ Little Sister's Status

• Trust

Represents the level of trust little sister has in Onii-chan. It primarily affects daily actions; the higher it is, the more she will open up her heart to you. It also has a slight effect on the 'BAD' tolerance during midnight acts.

• Sexual Interest

Represents her interest and tolerance with regards to lewd acts. The higher it is, the lower her resistance, to the point of being more proactive in it. Her interest decays at a certain rate every day. It also has an effect on the 'BAD' tolerance during midnight acts.

• Mood

It scales from 'Near-critical', 'Bad mood', 'Normal', 'Good Mood', to '<3 Onii-chan'. If it is high, her trust will increase little by little, and vice versa. Other than fluctuations due to events, it also has a certain probability to fluctuate from day to day.

• Sensitivity

Affects how easy (or difficult) it is to pleasure her (raising the 'GOOD' gauge) during midnight acts. It scales from 'Numb', 'Dull', 'Normal', 'Sensitive', to 'V. Sensitive'. It fluctuates from day to day, and can also be raised with certain lewd acts or using the aphrodisiac.

~ Hint ~

Her 'Mood' has a large effect on her other parameters. It is even used for a GAME OVER condition, so try as much as possible to keep it good.

■ Onii-chan's Status

• Energy

Anytime an action is taken, energy is consumed.

In case of insufficient energy, the action will not be able to be carried out.

Having meals, taking tea breaks, taking baths, and sleeping will recover energy.

Also, items like dumbbells and doing workout will increase the maximum amount of energy available.

• Vigor

Represents the number of times you can ejaculate per day.

It recovers by 2 per day, while a certain meal can also be consumed in order to recover it.

Other than that, the male potency drug can be used to increase the maximum amount of vigor available.

• Money

Represents the currently owned funds. It is used to buy food ingredients and various items.

Depending on your character background, a certain amount is credited into your account every Sunday.

• Tea Break Items

Its primary effect is to recover energy and to delay the time to go to bed.

The afterpill can be used within an early period after ejaculating inside in order to prevent pregnancy from occurring.

• Games

Increases the game genres available for the 'Let's play a game' command.

Perverted RPGs can increase sexual interest by a large amount, but it has a high probability of missing the mark, and is consumed after a single use.

• Status Items

Simply owning items like dumbbells will increase the maximum amount of energy.

The comfy pillow will deepen the sleep status during the midnight acts.

• Sexual Aids

Items that can be used during midnight acts. They are generally very effective, but using them requires a certain level of sexual interest from the little sister.

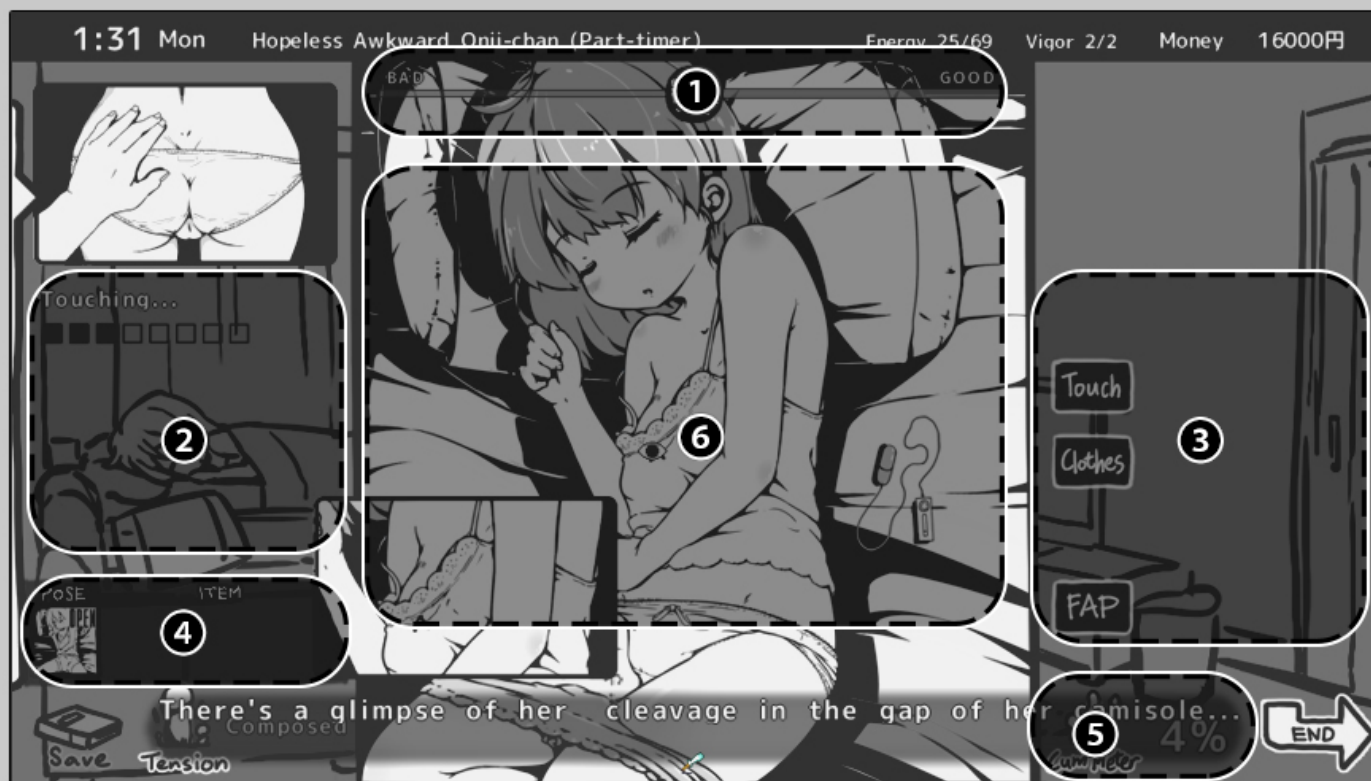

condoms are single use consumables, but they are guaranteed to prevent pregnancy when ejaculating inside.

~ Hint ~

Selecting to go to bed while having 21 energy or above will allow you to proceed to the midnight act sequence.

■ Midnight Act

① Little Sister's Condition

Displays little sister's condition; the 'GOOD' & 'BAD' gauges indicate her pleasure and discomfort respectively. When the 'GOOD' gauge is maxed, she will reach a climax state. If 'BAD' is maxed, the scene will be forcibly ended, and parameters such as her trust level will drop. Her sleep state ranges from 'Deep Slumber', 'Sound Sleep', 'Asleep', 'Half Asleep', 'Drowsy', to 'Awake'. While in deep sleep, the 'GOOD' and 'BAD' parameters can rise, but actions will not be rejected. Performing actions such as touch, etc, will gradually make her sleep state shallower.

② , ③ Actions Available for Left & Right Hands

Primarily displays the actions that can be performed by either hands, which may also be performed simultaneously. Additional actions can be performed by combining left and right actions.

④ Pose, Item List

Available positions and items can be selected from this list.

⑤ Cum Meter

Displays the interval between ejaculations. Ejaculation is possible at 100% or above; at 120%, ejaculation is forced.

⑥ Little Sister

Various actions can be performed corresponding to the part of the little sister that was clicked. These actions can be performed concurrently with other actions.

~ Hint ~

Before she wakes up completely, you can look at her face (check her condition), or pat on her head. Time will pass, but her sleep state will deepen.

The big brother a worthless slacker, the little sister a serious student. "I have to do something about Onii-chan..."

He can't deny getting aroused when finding his sister's panties.

The thought of fapping unnoticed excites him. Quite often seen around the toilet, a peeping tom. Despite being siblings, they've laid together. Some nights, he would make her climax repeatedly. They always stick to one another as if they were glue. She's not saying no to doing lewd things with him. He can't imagine a life without his little sister.

Standard Panties 15% cotton 5% Polyurethane

The quintessential standard panties, with a white base. Made from 15% cotton, fitting it on feels soft and gentle to the touch, while its high absorption material demonstrates its true worth after use. A fine article truly deserving of the moniker, "King of Basic".
