

A WIFE AND MOTHER

Ellie/Patricia Lesbian Walkthrough

By Alley_Cat

These are the decisions needed to play the Ellie/Patricia route, focusing on the lesbian relationships. It rejects most of the male advances, except those required for the route.

It results in:

- Rejecting Aiden's deal, and sending Dylan to boarding school
- Rejecting Bennett's deal, with whatever that results in
- No thugs
- Ellie kissing Julia
- Accepting first side job

Since Emma has now moved to the Aiden route, she has been dropped in this playthrough, so stays a nerd.

From a Lesbian Temptation point of view, there's currently no real difference between the first and second side jobs. The first side job is chosen arbitrarily. If there ever becomes a difference, for example if Leah comes back from Japan for the second side job and there is lesbian content, this walkthrough will change accordingly

Choices for this route are designated with "✓"
