# Welcome to Free Will, Unlocking Rewards

Version: game 0.2.2, document 2021-01-12, maintained by caiatris.

Magazines need a password or a question answered to unlock the render, while other renders are unlocked by performing tasks.

- It looks like any time you are asked "Do X" or "not yet", that ends the free roam in which there's a render to unlock.
- The passwords need to be entered in one of several formats. The safest way is to enter passwords in lower case, regardless of how you found them.
