Main Characters Of The Game

Vanessa

Mia

Lola

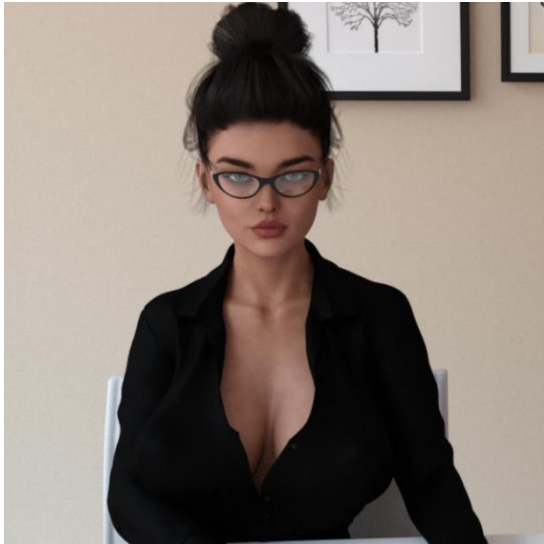

Vicky

Barbara

Bella

Doctor

Lawyer

Demon

Angel

Finally Walkthrough

1st photo of Lola blowjob

- get the feather from Vanessa's room. Left side of bed, next to pillow.
- visit Lola after 23.00.
- remove the bed clothes.
- select the feather in inventory and tickle her feet.
- then tickle her waist.
- when directed to take the photo, use the camera app on your phone.

Rats.

- Vanessa gives you this task when you ask how you can help a few times.
- she gives you the key.
- you need rat poison, so order it from your phone.
- next day when it arrives, you need to have the knife.
- in kitchen, click on the rack of knives on the wall. then click the one knife you can take.
- to collect the rat poison, open the front door, then click on the down-arrow to the right, to look down.
- now select knife in inventory and use it to open the box.
- to get into the cellar, select the key and use on the cellar door.
- in the cellar, select the rat poison and go forwards.

Laptop

- Find the laptop in the lounge under the TV. 2nd cupboard from the left.
- Find the battery on the shelves in the cellar.
- In your inventory, click and drag the battery onto the laptop. Or vice-versa. One of those works.
- Try to open the laptop, you will see you need to know the password.
- Not sure how you're supposed to find the pw, but it is the MILF's name. Default "Vanessa" (capital V), unless you changed it.
- Check out the bondage photos of Vanessa in the desktop folder.
- Give the laptop to Mia.

Mia cam-girl

- Find the camgirl business card in Vanessa's room.
- Left side of bed, in chest of drawers, 2nd drawer from bottom. click on the card.
- Now you can suggest it to Mia.

Anonymity

- Mia doesn't want to be identified on camera.
- Look in the wardrobe in your room, the right-hand door. (Click left arrow in own room to see wardrobe.)
- On the bottom shelf is a mask.
- Take it, and then go back and talk to Mia.

Vicky

- You get a hint that Vicky is interested in sex or sucking your cock.
- See her by the pool (12.00 - 14.00). Tell her to suck your cock.
- She uses you to snap photos of her and your cock, to make her ex jealous.
- Sometime later you can do this again - this time she'll ride your face and snap another photo.

Meet the doctor (1st time)

- I think you need to have paid to see Mia's tits once before the doctor will come.

Meet the doctor (2nd time)

- Need to have the lust meter full so that you will be able to influence her.
- You will get a hint that you have enough energy.
- SMS the doctor. She replies that she will come tomorrow.
- After breakfast, in the hallway, doctor appears. First the angel and demon hypnotized her.
- Take her down into the basement, do the steps offered.

Something erotic

- replace Lola's book with something erotic.
- Lola tells you that she's reading The Time Machine.
- Go to Vanessa's room, get the book "Self Love" from the drawer to the right of her bed.
- Order the glue-stick online. (Not the strong glue)
- Collect the glue the next day. Using the knife which you already got from the kitchen (see Rats above).
- Once this quest is unlocked, you will see the book "The Time Machine" on the right side of Lola's drawers, next to the lamp. Pick it up.
- In your inventory, drag the knife onto the Time Machine book, to remove the cover.
- Drag the glue onto the book cover.
- Drag Self Love onto the glued cover.
- Select the newly created book and put it back where it was.
- Now after 21.00(?) you can use the Snooper (buy it) and peek through her door to see her masturbating.

Blowjob photo 2

- when confronted about masturbating, Lola denies it.
- buy a snooper recording upgrade (\$1000), which can be applied immediately.
- view her again, (20.00)
- show Mia the photo the next day.
- send Mia the photo via SMS to continue.

Buy a sunscreen

- After Vanessa's kitchen scene (jean cut-offs, cutting vegetables, sucking your thumb)?
- Talk to her sunbathing at 14.00 by the pool.
- buy sunscreen.
- now you can also visit Vicky at 12:00 and apply lotion to her. She teases you again, and the demon plans revenge.
- Vanessa at 14.00, first do and her shoulders and legs. Then bra strap and bottom.
- Vanessa goes for a swim, her bikini top vanishes.

New swimsuit

- Buy her a new swimsuit.
- Give it to her next day.
- Go watch her and offer to do sunscreen again.

Teach her a lesson

- buy crazy glue
- drag it on top of sunscreen
- apply to vicky next day at pool at 12.00.
- use her.

Lola is not an angel

Hint reads: Check Lola's room when she's not there and see what you find.

- Look at her desk (forward then left), look at her homework. Draw a penis on it.
- Next day at 13.30, be in her room, talk to her.
- Next day at 13.30, be in her room AGAIN, talk to her.

Explore the house and talk to its inhabitants.

- Talk to Lola, get a BJ.

See naked Lola.

- Watch her in the shower, 07:30, until you get caught.

See Vanessa in her room at 18.30.

- nice scene

Be at the pool at midday

- Vicky is there with a friend, Barbara.
- New task: go find swim trunks.
- Look on your wardrobe, left side, 2nd bottom shelf.
- Return to pool. Interact with girls. See nice lesbian scene and then Vanessa touches you up.

Lola probably wants you again.

- First get another blowjob.
- Leads to 69 which she loves.
- Ask to have sex. She says yes, but 69. You say no, real sex.
- She's too tight, so buy lubricant.

Lola must become a whore

- No hints.
- She's already DTF in her room.
- Seems have to do the photoshoot (3rd?) with Bella where she offers sex if you can get Mia to join.
- Buy the new porn movie available (College girls #3), and watch it. Choose to organise the threesome. (I didn't do this and had to repeat, which you can do immediately)
- End up having sex with Mia, and Lola joins in. Task completed.

Mia promised to come to the photo studio with us.

- After visiting Mia option to discuss that with Mia.
- If There is No option to discuss that with mia
That's because the walkthrough mod you have been using is for version 1.4.0, and the game is 1.5.2.
First Copy Your Save Files From
Location (GirlHouse-1.5.2.extra-win > game > saves)
To A Safe Location Out Side The Game And Then Delete
The Game And Fresh Install It Again
And Put The Save Files In
Location (GirlHouse-1.5.2.extra-win > game > saves)

THE END
