Naomi threesome path

on top

1st Moko must be pregnant with or have 2nd child

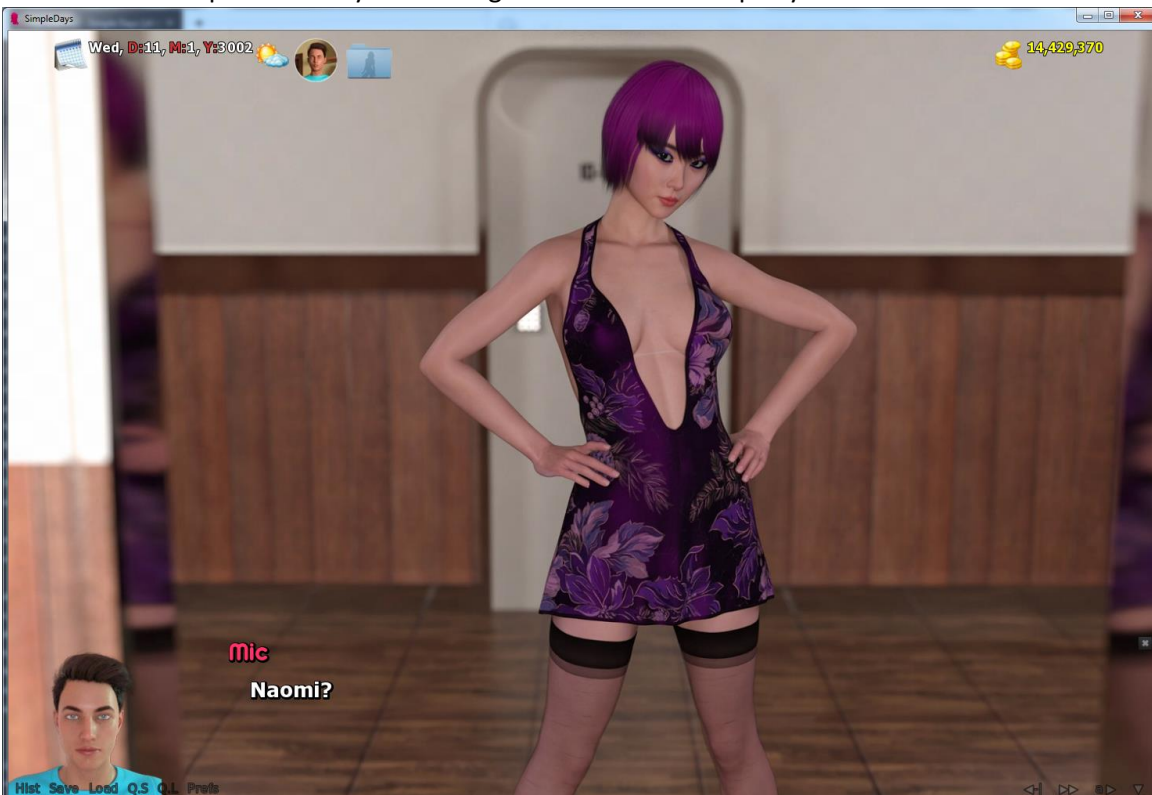

down

then you start with that when you got talk with Moko in morning before breakfast, if it hasnt been changed you can change the date with NaomiOvul = what ever date you want - next day+ and sleep alone

then she shows up on that day in morning and takes Moko to party

up / down

same night you have to go sleep to your room (alone) and you get woken up for action

up / down

then if you impregnate her she will call you and inform you - if you dont you cut her loose from rest of game up / down

You can have an abortion.

Just say that it is from your boyfriend

If the baby is mine, come live with me.

Sorry, but it is not my problem.

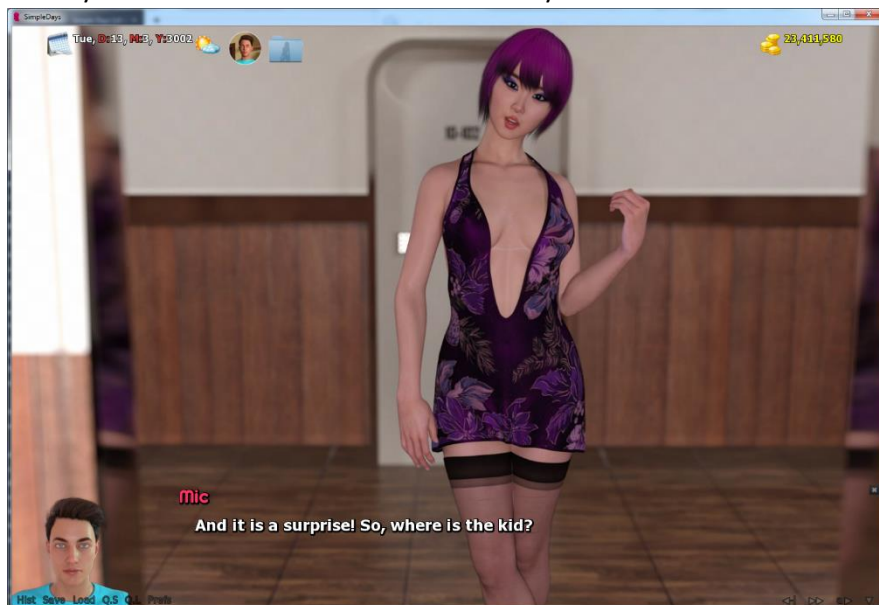

after you get another call when she give birth

up / down

and if you invited her she will come live with you

up / down

if its bug or just want to speed up pregnancy check 2 variables

CurrentDay

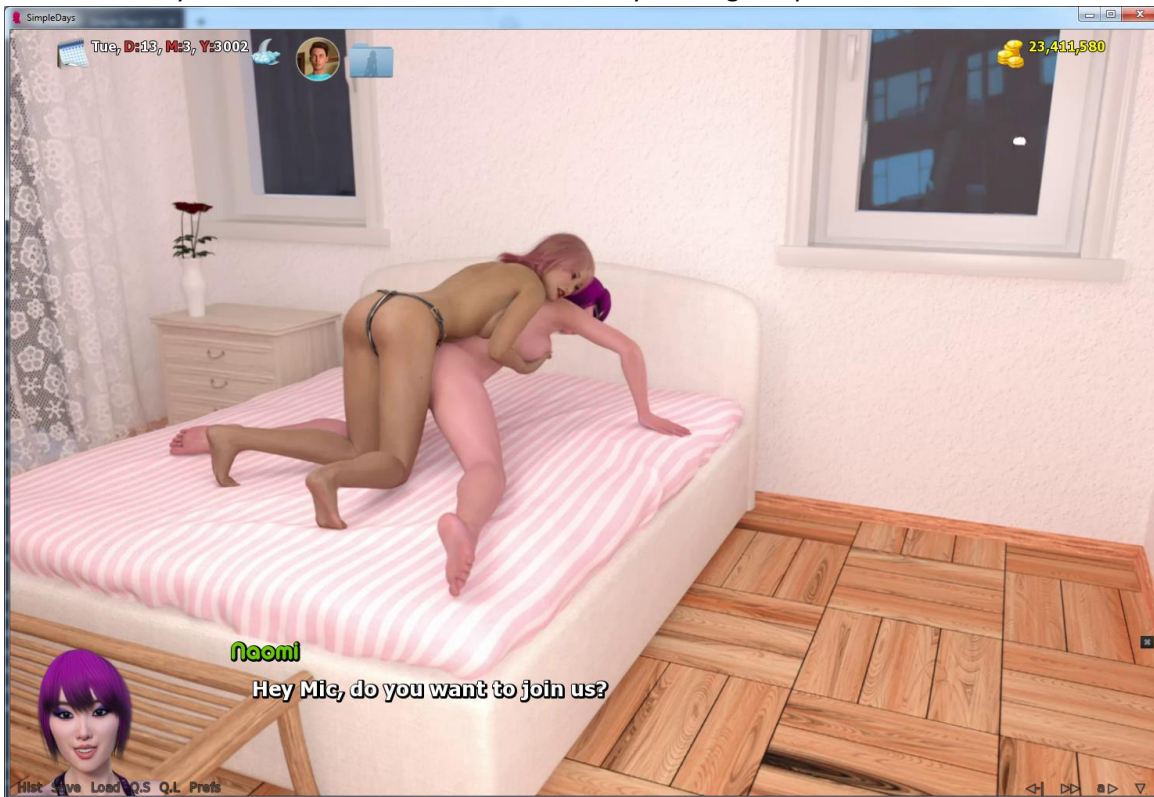

NaomiPregnDay

so if example before you got to sleep in your room alone is

NaomiPregnDay = 100 , set CurrentDay = 119 - go to sleep and you should get a call
pregnancy lasts 20 days and sleeping alone almost for sure moves current day forward
also make sure that NaomiPregnLvl = 1 (at least 1) before jump days and go to sleep
or just set NaomiPregnLvl = 2 and see if she calls you

and after that you can have threesome on certain days during sleep time

on top

bdsM quiz - must say you love it – 1st time you enter club
if you want to get **special offer** later on , but in case you are pass that there is **fix**

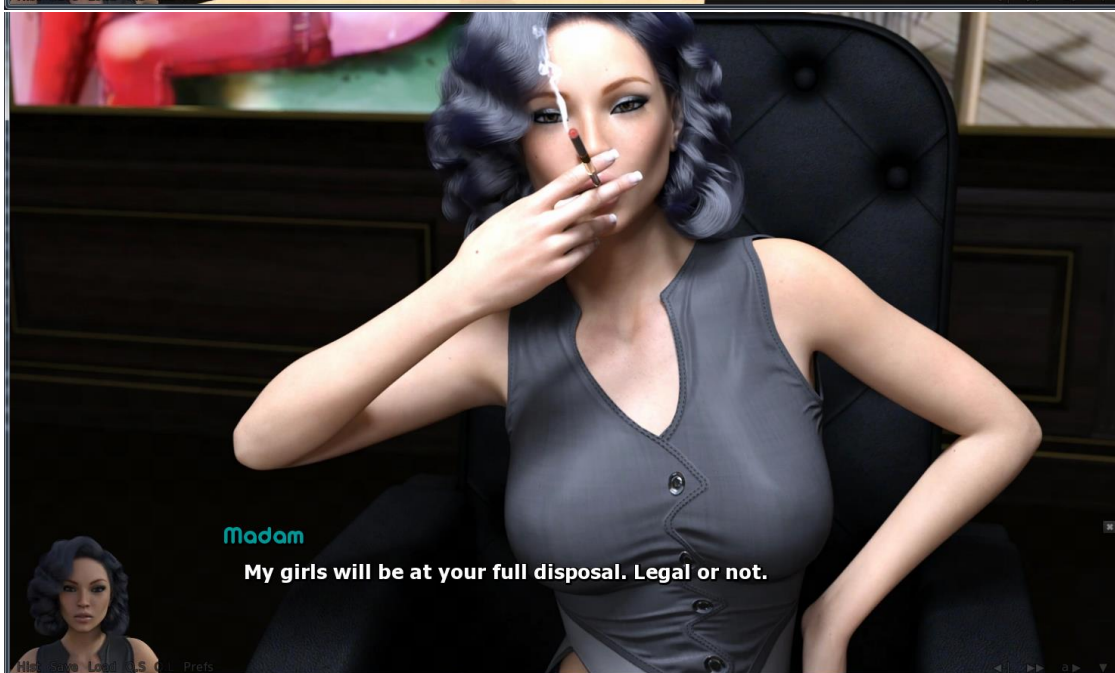

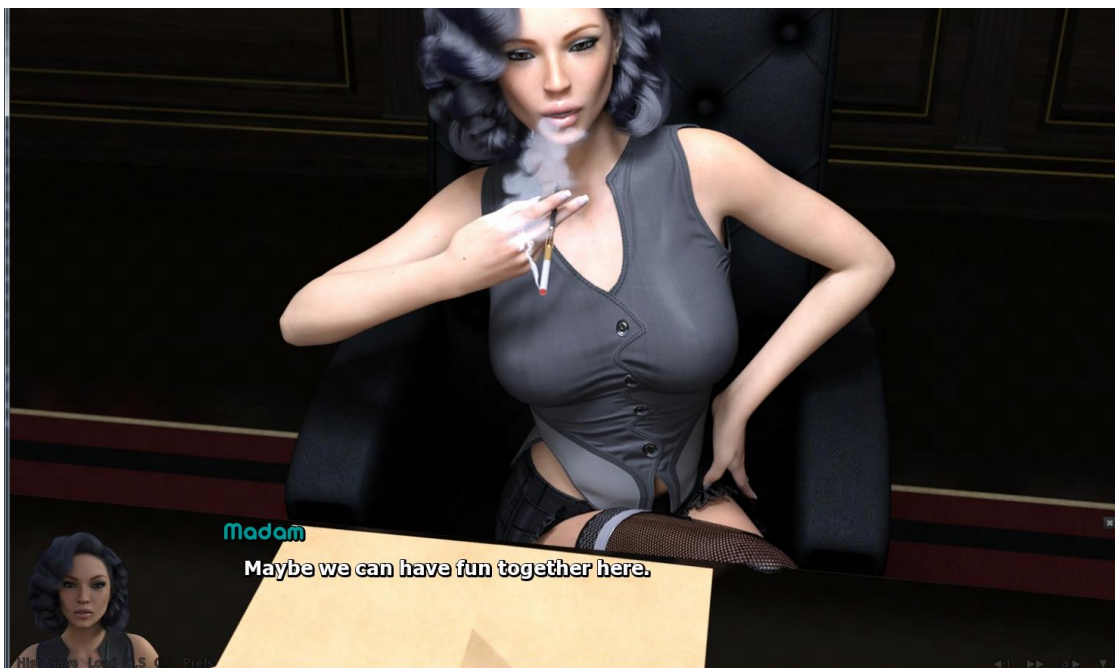

on top
down

special offer

up / down

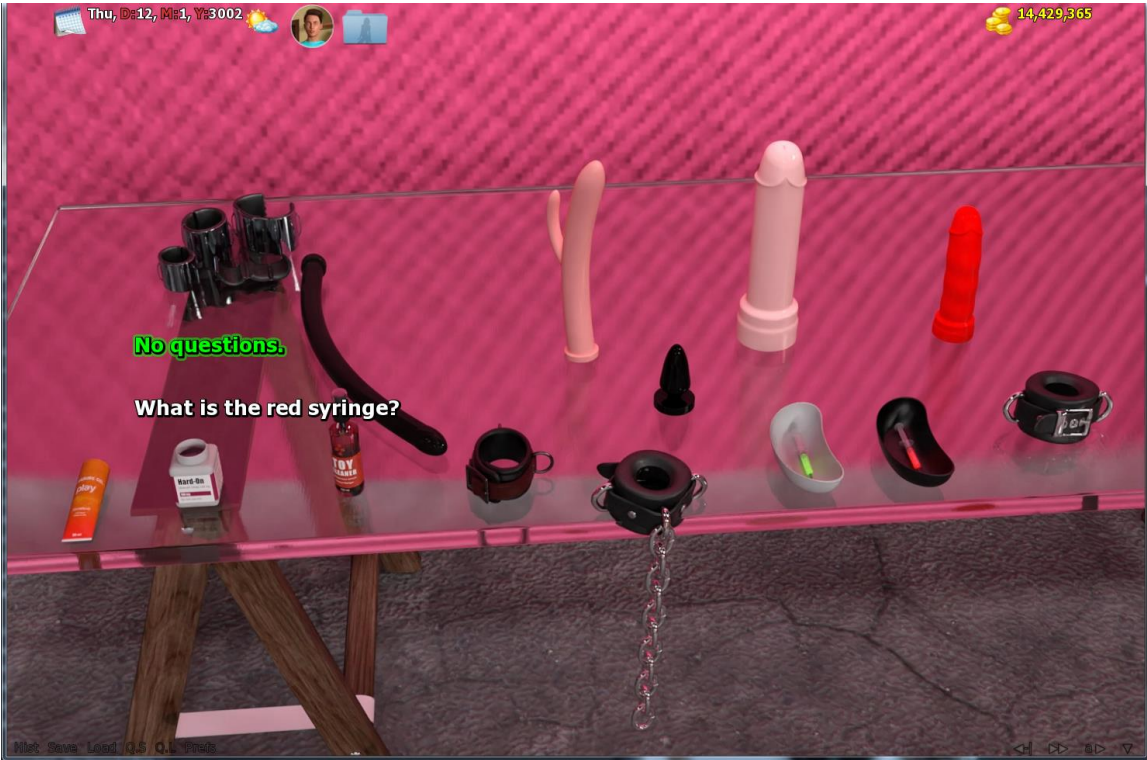

but in case you have missed that you can fix with "mclikeBDSM = 2" before you go to that meeting

dont ask for red syringe - secret, bdsm - fix

when you get 1st introduction in to bdsm club and they show you toys and stuff do not ask about it

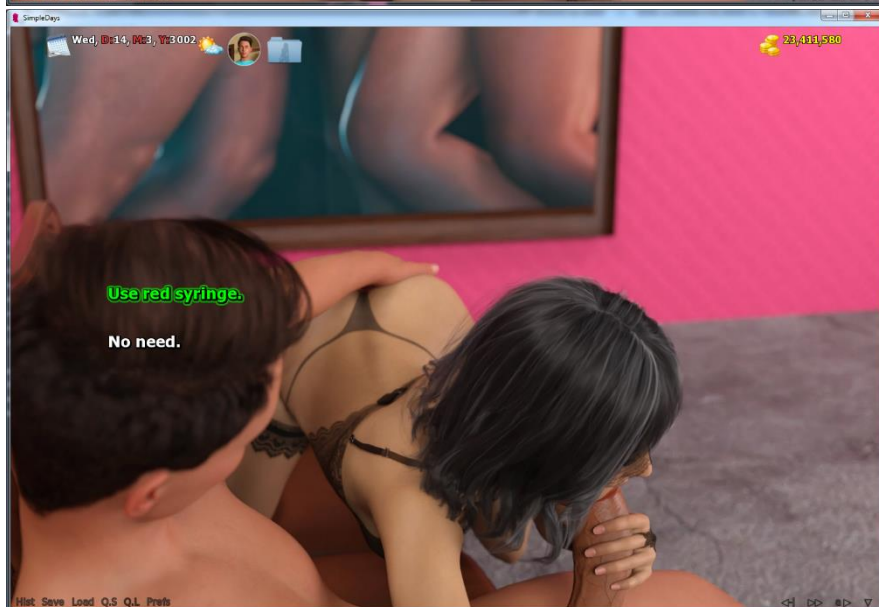

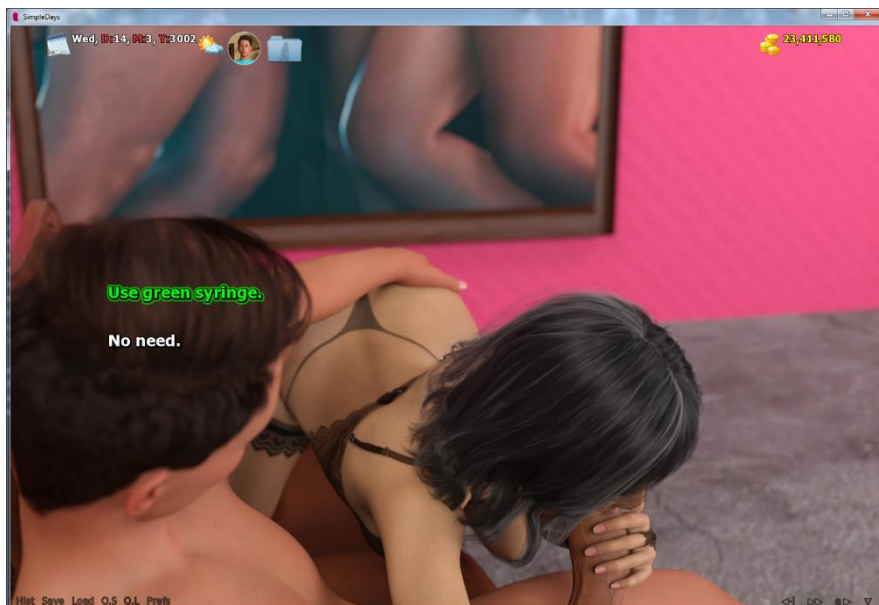

on top
down

if you don't ask about it you can impregnate secret on this point otherwise you get no option to use it

up / down

but in case you have missed that you can fix it
before [that scene](#) you have to set variables and then you are good to go
mcBDSMredDrug = 1
mcBDSMredDrugEvent = 0
mcBDSMredDrugKnows = 0

[up / on top](#)

dont warn james - shopping with emma – if you want future chance with her
you can check what you did then , but am not sure if changing variable got affect
JamesCheat = 1(warned) , 5(not warned) - only change i have found about it

on top
down

next you get invited on beach, if you get drink with alco you get to grope her

up / down

after that you should get call from her on 1st Saturday if you did all right

up / on top

not sure what else is in play, but from here you get to plot with her against james and get 1st kiss if you agree

on top

don't mute julias bf and use pill, if you want her on call in future
if you don't take the pill then you won't have choice in future

on top
down

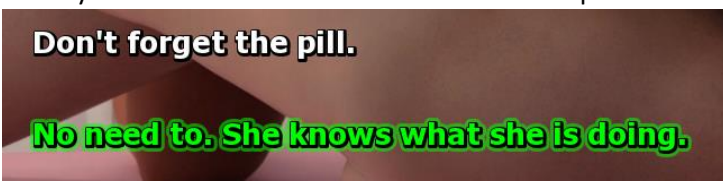

if you mute him, then you can forget about her in future

up / down

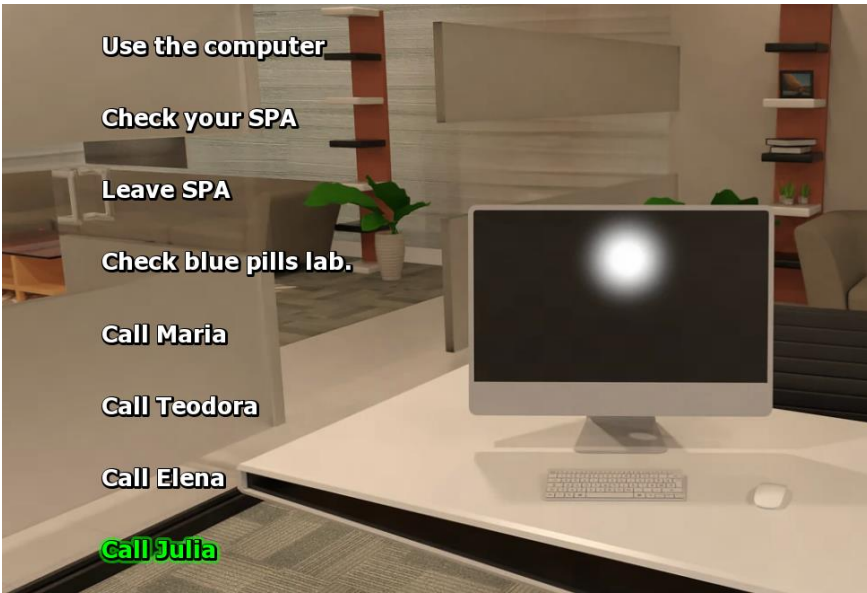

and if you want kid with her don't tell her about pill

up / down

if you do that , then you can have her daily on call from office

up / down

also if you want to keep her pregnant next time you call her, take 2 pills and half that she gives you

up / on top

have to pass threesome and tell Elena you love her - [extra on site](#)

on top

if you want any future contact with Elena you have to do or push true threesome after that you got solo option with her but without threesome she is not interested in mc at all also make sure you set ElenaOvul on current day

down

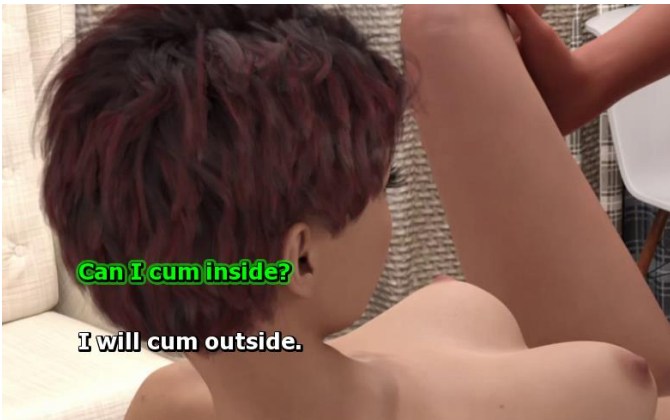

james turned in to idiot anyway, played too much Duke nukem and watched too much johnny bravo so don't ask too many ?

up / down

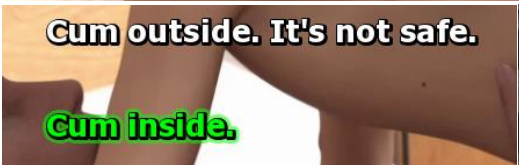

after you are at it just pump as much as you can

up / down

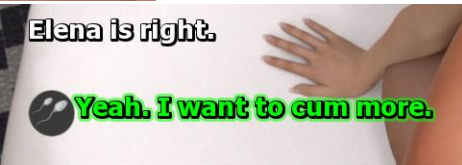

Can I cum inside?

I will cum outside.

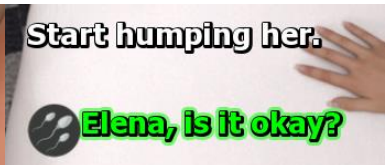

Cum outside. It's not safe.

Cum inside.

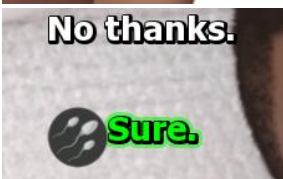

Elena is right.

Yeah. I want to cum more.

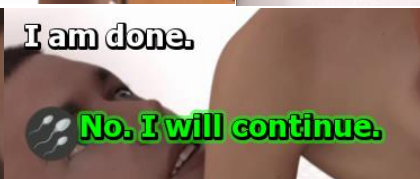

Start humping her.

Elena, is it okay?

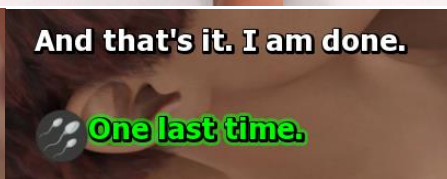

No thanks.

Sure.

I am done.

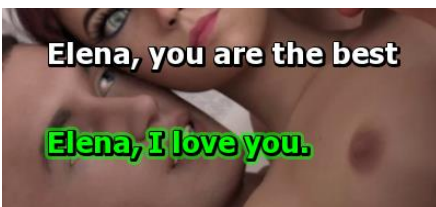

No. I will continue.

And that's it. I am done.

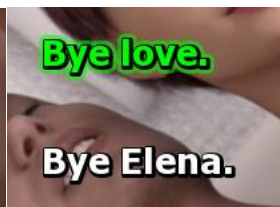

One last time.

and then it starts

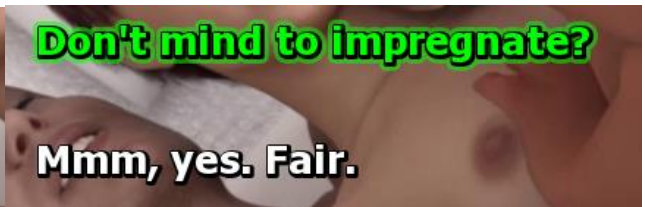

Elena, you are the best

Elena, I love you.

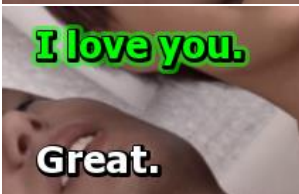

Bye love.

Bye Elena.

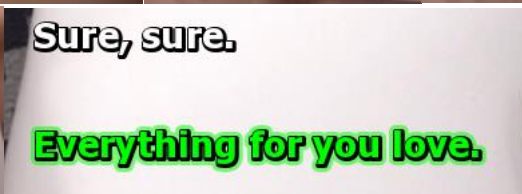

Don't mind to impregnate?

Mmm, yes. Fair.

I love you.

Great.

Sure, sure.

Everything for you love.

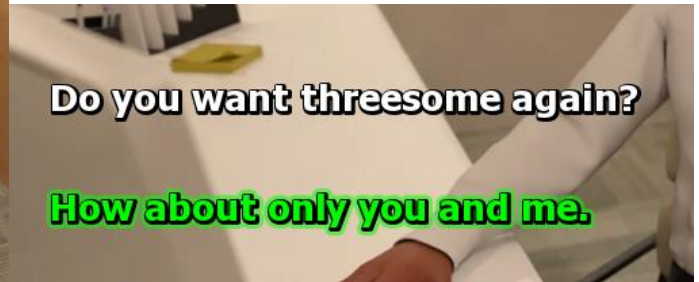

Elena

For you love.. I am doing it for you.

if you do it properly shes now pregnant and willing to have more kids
and on top you can have her on daily calls as solo or threesome

up / down

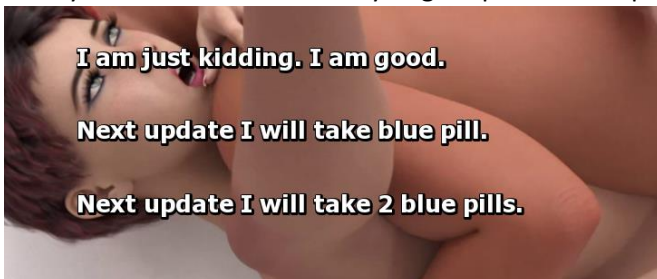

and when you meet got option to disable threesome permanently

up / down

after you call her solo 2nd time you get option to use pills with next update or next it if update cam

up / on top

you get that only 1nce, but you can cheese
ElenaAlonePill = 1(non), 2(one), 3(two)

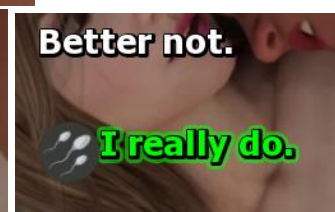

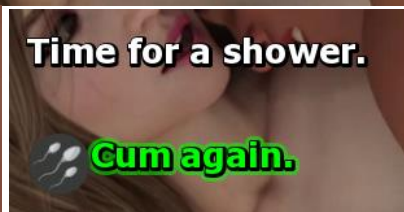

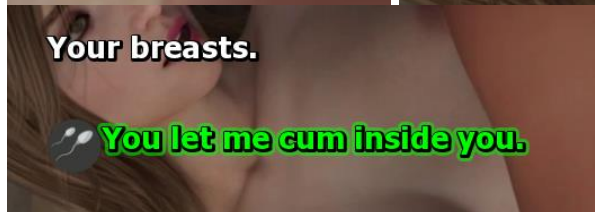

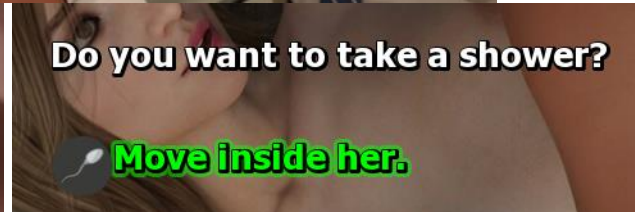

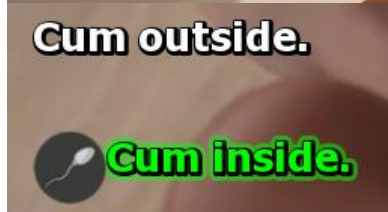

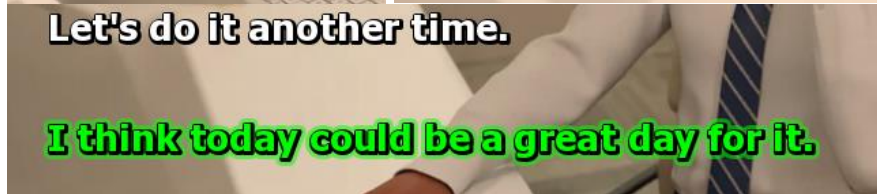

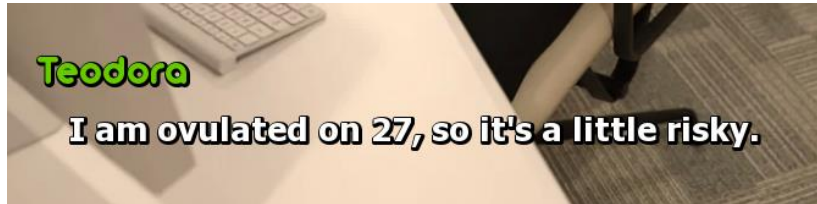

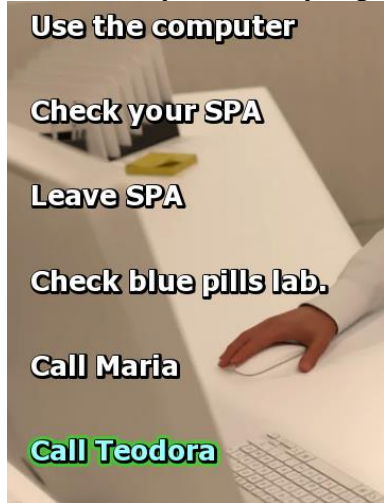

Teodora must be ovulated on her 1st 2 calls – to remain prego

TeodoraOvul = - set on day

1st one is story related so you get there anyway

on top

down

if you do it right she should be pregnant

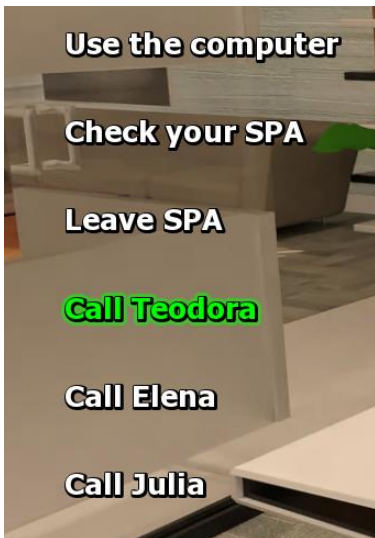

up / down

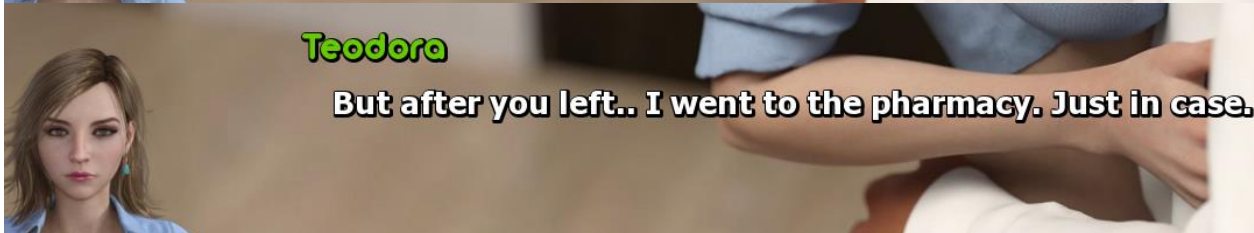

TeodoraPregn = True

But there is catch , next time you call her and go on sex visit
also make sure she doesn't text her husband and that is her ovul day

up / down

she tells you that she took pill after

and if you check `TeodoraPregn = False`

only on this cene for now you got chance to get her pregnant again cause any after daily calls
are shorter and you cant impregnate her after for now, so make sure shes ovulater here

up / on top

After that she remains pregnant
