

Project for porn comic

Theme and genre of the story:

The genre is about gender bender, futanari, gay, physical transformations of the body, magic and biology, the kink in particular that must excite in the story is the perversion of the transformation of the body and mind through a magical element that manipulates biology and the natural order of biological bodies in the sexual gender of the protagonists, the sensation must evoke despair and pleasure and a general perversion of the distortion of biological nature and corruption in sinful lust.

Characters:

Two young boys (25-24 years old) the first named Micheal is a boy of medium build dark brown eyes, hairy body but not too much a right thing, the second boy Samuel blond also identical physical characteristics, both are not Chad but they will still be very attractive in the eyes of a gay or straight woman, so the shapes always athletic and sensual, from the lips to the face to the tone of the muscles (not exaggerated), will have a bit of an unkempt beard the clothing will be summer with shorts and undershirt.

Magic item:

A board game (see InfinitySign's Date Game 3d comic I was inspired by) will have a look that is very reminiscent of a mystery game.

He is a very important protagonist, the board game will show phrases or speak in the thought of the kids through a crystal ball (same as the 3d infinity sign "the date game"), the game will have a petty and sadistic personality where every time the boys will go on with the game will explain the unlocked effect but in a fun, sadistic and above all perverted way.

Plot: version 1.2

Creating an introductory preamble of the author's choice is fine by me.

The boys are on the floor sitting on cushions and the game is on a small table.

The room is a normal nerdy room with a nice double bed, a few porn posters lying around.

The characters find themselves a board game with jumanji-style dice capable of manipulating reality, they begin to play it by discovering later all the effects of the game that will have on them, the game is played in a generic bedroom. (1-2 introductory pages)

PAGE 1:

The first roll is made by Michael, as soon as the dice stop a declaration from the board game echoes in the minds of the two boys, welcomes them and warns them that it is not possible to withdraw from the game without consequences and that they will soon experience true pleasure and the deep sexual lust in their bodies, the guys are amazed and amused wondering if this game comes out from some strange sex shop cursed by a magic, they don't have time to think that immediately the first effects of the shift are noticed, a tingling pervades their bodies and all their hairs dissolve slowly with slight itching in all its parts, their beards dissolve, their appearance is more youthful almost adolescent, their armpits, chest, arms and legs are freed from any hair, the itching is suddenly dissolves and they notice the magic.

PAGE 2:

This makes both of them feel strange with their skin which is now smooth and pleasant in contact with the clothes, but it makes them feel good and not uncomfortable, they touch their face, chest, legs and finally they look inside their underwear to find out. that their cock was now completely cleansed of hair, intrigued by the game and by that pleasant feeling they continue to play having understood that this was an interesting magical object and that perhaps they would have had other interesting advantages.

PAGE 3:

Now Samuel throws the dice, the pawn moves and the game declares that Samuel's mind will open completely and every taboo will be demolished, his sexual orientation always very inclined to girls and straight fantasies are corrupted, here we will have a flashback of his mind in which his fantasies usually full of naked and busty girls slowly begin to get confused, images of sumptuous well-made curved and straight cocks appear, cocks and abs of gifted guys who gradually replace the beautiful big tits of girls, images of guys in very hot panties, very beautiful cocks in the midst of the female figures that slowly dissolve into nothingness, his mind is definitively corrupted to homosexuality and passive submission to cock.

PAGE 4:

Returning to reality, Samuel seems to have changed a lot mentally and seeing his friend Michael now hairless feels a new perverse and unnatural arousal, he has an erection, his panties have a very sexy bulge that they barely contain.

Michael is not very clear what happened and thinking that maybe Samuel's turn was over he rolls the dice again, the pawn moves and the game declares that it is time to spice up the situation and the atmosphere, the game is loaded with testosterone. the two guys directly in their balls, now also Micheal has a strong erection and the excitement eliminates all modesty in them, they both take off their shorts and panties, strip completely, they both sit on the bed and jerk cocks without control, they are really horny until both of them cheer with an upward splash of cum that wets everything, their abdomen, on the floor and some squirt on the table next to the game.

PAGE 5:

In the next scene from a shot from above we see the two exhausted lying on the bed but with the cocks still very hard, the boys however realize that the game is continuing alone, now the pawns

move without rolling the dice and the game declares that now that the two have enjoyed fucking like gays it's time to change the pace a little and completely change their nature into something new, here samuel begins to experience very intense and long changes, his body begins to feminize (here the detail is important because the kink becomes dominant in the plot), the game declares that if samuel likes to be fucked so much why doesn't he become a young lady and let everyone fuck him? (in the whole scene samuel is standing naked)

PAGE 6:

And here the transformation begins, we notice that samuel sees his muscles shrink to become the body of a somewhat athletic femboy, his nipples begin to develop but not his breasts, his nipples are very hard and touching them makes you feel intense sensations, his penis is stone very hard, the game claims to have replaced all his hormones with female estrogen, soon he feels the blood inside him boiling, his skin becomes even softer, his butt grows and becomes very soft.

PAGE 7:

Her thighs become thicker and smoother, her hips begin to deform, her internal bones creak, a beautiful belly is created with a very sensual and elongated navel, her hips are very sexy for a woman, her face always deforms more from an effeminate masculine to that of a real girl with particular beauty, feminine eyes and a lovely French nose, her hair is still the same as before which makes her look like a lesbian with short hair, her lips develop, she feels thick and sensual, the shoulders are shortened while still maintaining well-made athletic female shoulders, at this point her bones have completely transformed and her hips create a firm and feminine butt to envy, his cock is still intact without any modification but during the whole transformation sequence has a small tip of precum on the tip of the penis.

PAGE 8:

Samuel feels biologically confused but it's not over, the game now declares that his body will be filled with progesterone and in fact his body now begins to develop an even more slender and sexy belly, a perfect flat stomach as a model, immediately after a nod. breast grows, a cup A, begins to grow like a delicate flower.

With his hands samuel touches that sumptuous body smooth as silk and his new curves well sculpted like a work of art, up to his cock which had remained unchanged all the time, was still hard as rock, Samuel explores his body feeling the pleasure of feeling the hardness of his cock between two soft and smooth thighs rubbing on the hard shaft.

PAGE 9:

But now his penis was also undergoing changes, his balls full of estrogen and progesterone begin to shrink his testicles from the inside, the balls continue to maintain their volume but internally the testicles were shrinking (an X-ray image for understand what also happens inside his body) remain swollen full of hormonal fluid, Samuel squeezes his balls with one hand due to internal tingling but feels nothing, in fact he no longer felt pain by squeezing his balls because by now his testicles were completely dissolved leaving only cute puffy balls to squeeze like the games they sell in newsstands as anti-stress.

From his throat she feels a slight choke, his adam's apple is reduced to a crack in the esophagus and visibly disappears, his noises and light male moans are transformed into those of a horny girl. In the background, the game welcomes Samantha.

PAGE 10:

Her penis is really thrilled and aroused by the transformation, finally after her chest has developed very feminine nipples her breasts begin to seriously grow into a plentiful and busty natural D cup with fully developed nipples, soft tits. they puff up like mozzarella and keep a perfect and abundant shape that any woman would envy, her hair grows long and wavy like a beautiful blonde from a

porn magazine, and she begins to walk on tiptoe, moves towards a vertical bedroom mirror to see himself from the feet to the head, he looks and admires all his beauty in front of the amazed eyes of his friend, samuel feels satisfied by those extraordinary shapes, his hard penis is now of a greater and more feminine beauty (the cock is feminine it has no veins or ugliness typical of an ugly male cock, it is a really nice and well made penis) with the tip pointing in to the open well with the head of the pea clearly visible.

PAGE 11:

In front of the mirror Samantha continues to touch her abundant breasts, touches and feels their weight and their consistency, perceives their size occupying her no longer flat chest, rubs her fingers on her nipples whose impact discharges strokes of pleasure on the breasts , slips with her hands from her tits towards her hips until she reaches her busty ass, with her fingers she explores her anus opening a buttock with her hand, she discovers that she has to sink a lot with her fingers before being able to touch the hole because now the her butt is very abundant with meat compared to her old male ass, with her hands she slides on her fertile hips and on that perfect belly like a Greek statue and in front of all that splendor of sensual forms she cannot ignore his wonderful cock.

PAGE 12:

He grabs his cock and begins to gently jerk off with one hand holding the little finger of his finger up like a miss, the game makes a statement and says in a very sadistic and funny way that Samantha is about to experience her latest man creampie and that she is to expel all the male semen left inside her prostate, including her last spermatozoa, and so soon after Samantha has the longest cumshot (in terms of time) ever, a thick, white sperm jet comes out of her tip , several intense multiple squirts hit the mirror straight, she repeatedly wets her cum in the mirror, during the cumshot Samantha moans like a girl in heat as her woman's body cannot bear intense and direct male orgasm, this makes her feel helpless and submissive to the cumshot too hard for her delicate body, at the end of the cumshot her legs tremble, leaning with one hand on the slightly bent mirror to rest and a hand on his cock, his face is exhausted and excited, the mirror wet with sperm dripping and sliding down all over its surface, you can see his face mirrored and look in the mirror with the latest splashes of leftover sperm of her old body sliding down the mirror past her female face.

PAGE 13:

Samantha is tired and her penis rests slightly, softening a bit, she can't resist the sight of that sperm dripping from the mirror, she approaches with her face on the surface and starts licking his old sperm a little excited a little desperate of his manhood lost, her boobs rest on the glass rubbing her nipples over, the sperm sticks to her breasts and her tongue, she starts licking and cleaning the mirror, after finishing she pulls back, rubs her breasts and immediately brings her hands impregnated with cum in her mouth, she finishes licking her fingers, when she pulls up her fingers you can see the sticky semen going from the breast towards her fingers to her mouth, like long lines like cobwebs or a sticky liquid that stretches.

After clearing herself of her own semen that appreciates with pleasure her last residues in her mouth, the game declares that now is the time to experience the emotions and pleasures of a real woman, who will forget the squalid female orgasm and embrace the female one throughout her life. his glory.

PAGE 14:

The whole transformation had loaded her with hormones in a very heavy way, her body produces only estrogen and progesterone in abundance, his cock reacts and suddenly returns to erection, the game launches winking phrases to tempt the girl to touch herself again, she tries touching his pea gently, rubbing the tip with one hand and the other rubs a nipple, touching Samantha's body experiences a new kind of orgasm never experienced before, like a wave of pleasure going through her whole body, her skin becomes like goosebumps, the wave passes through her breasts, reaches

the abdomen, even her anus perceives the orgasmic sensation, the whole wave of pleasure spread throughout the body up to the feet finally arrives on the penis which instead to emit a powerful orgasm comes out of its tip, without exploding, a very viscous and oily transparent liquid comes out and gushes slowly from the tip of his beautiful pea, like a delicate and abundant thread like a pretty fountain with no splashes of any kind, as if pouring a vial of oil into the floor, the game at that moment declares that Samantha has been stripped of all the remaining sperm and that she will no longer have to be afraid of getting any girl pregnant even if now the only thing he wants is cocks teasing his wrecked manhood.

PAGE 15:

The orgasm lasts up to 5 minutes, while the liquid continues to come out her voice begins to moan like a whore in heat, orgasm is like pissing pleasure, her prostate forces the release of all that transparent oil (image x-ray to see what happens inside her body) the prostate contracts slowly but without spasms, like a balloon that slowly deflates, one and only orgasmic pressure, until it leaves the girl breathless, like throwing air out of the lungs at once slowly without breathing in a kind of suffocation.

Samantha realizes a side effect immediately after having this new orgasm, she no longer feels the refractory time of men, in fact after emptying she no longer perceives the feeling of emptiness that you have after a male cumshot that makes you lose the arousal and the desire, but she still feels her heart throbbing and arousing without interruption, has now become multi-orgasmic and is amazed by this advantage, and laughs.

PAGE 16:

After his still hard cock has stopped overflowing oily liquid, with his fingers in a graceful and delicate way he brings from the tip of his cock to her mouth a long strip (without the strip breaking) of transparent cum on her lips and taste his warm and oily sperm, the taste completely different from before, it is like saliva but oily and tasty, rich in female hormones.

The game declares that her cum made him delicious for her and her lovers of hers now that she is just a pleasure whore.

Samantha then brings her hands to her busty maternal breasts and with a little pressure on those fresh and sweet melons a lot of milk comes out of her nipples, without squirting, she comes out sliding over her boobs like a dairy cow, the game declares that she has made fertile in her breasts to feed her lovers with her rich milk, samantha then slides her hands towards his balls and squeezes them very hard since now she no longer feels pain under there, and another bit of cum residual, viscous and oily comes out of his cock, a cup then appears in her hands and immediately she milks her tits and cock, mixes milk and cum and enjoys the meal in a glass filled with liquid full of female hormones, drinking it so sensual and provocative.

PAGE 17:

Michael is speechless for the whole transformation scene, the game in the meantime does not stop and continues to advance the pawns by itself, they advance for micheal, something very special is preparing for him, the game declares that now his mind is he will open up to the transsexual world and love Samantha, Michael is reluctant ... he does not want to believe that women can have dicks, that women are made to procreate and have children not to fuck other men, but the game seduces him like a tempting snake with winking phrases, the game declares how perfect is a woman with a long dick who does not suffer from menstruation or childbirth, who gets excited like a man and enjoys like him to satisfy carnal pleasures, here Micheal experiences a mental flashback in which he they can see beautiful proseprose and fertile girls, cute girls or pregnant maternal women turn into delicious transsexuals very sexy athletic but also cute and normal, see their cocks and their tits together eme and their pussies vanish forever, micheal is corrupt and his mind opens completely, seeing Samantha immediately falls in love with her shapes she too see Michael's cock so happy at the sight of it excites her again and you can tell from his penis vibrating with joy, the game declares

how beautiful this bizarre new couple she has created is.

PAGE 18:

Both look into each other's eyes in love and with really hard cocks they hug and kiss with their tongues, horny for each other in kissing their cocks meet, touch and rub on their bellies, the excitement is high, Michael can feel samantha's breasts pressing on his chest, and he can sink his hands into a divine ass never felt before, he feels the soft curves of samantha her thighs and hips and with the body he feels that among all those soft shapes and smooth, a well recognizable hard pole stands out overwhelmingly in the midst of so much delicacy and softness, an oxymoron.

PAGE 19:

Micheal and Samantha are connected and synchronize and in fact both cum at the same time while continuing to hold each other and rub each other up, their cocks are one in front of the other not really stuck but in erection that they look at each other with the tips a little crossed between them as if they did a spade, micheal cums like a normal male with the usual white squirt in an intense orgasm on samantha's belly while they are embraced, samantha instead cums unnaturally always like a vial of oil gushing from his tip (less than the first orgasm he had) you can see very well the difference between Michael's and Samantha's cum, Michael's cum comes out and sticks like normal sperm, while Samantha's is an oily strip that is about to touch the floor, like when someone tries to make the longest spit in the world on the ground hahaha, micheal finally relaxes his panting cock in front of Samantha while she's still hard as a rock and very herring.

PAGE 20:

Subsequently Samantha goes to the bed in a very provocative way on all fours, resting on the bed at 90 degrees like a bitch, Michael admires the beauty of those buttocks and thighs that move, that perfect butt, the pea that comes out between the legs sensually, the game declares to micheal how beautiful was this creature who had created her especially for him, a superior and unique woman, complete servant of pleasure, his penis more and more attracted to her ass goes towards her and penetrates her gently, his tip tries to settle between the buttocks of Samantha's ass, tries to open her buttocks with his hands to make his way and here comes to rest the tip of his cock on the surface of Samantha's hole, she feels that tip touch her hole laughs with pleasure.

PAGE 21:

The game declares to samantha that her transformation has also included changes to her prostate which now produces a lot of vaginal fluid like that of women, lubricating her anal canal (x-ray image to understand what happens inside her body) so that she will not feel. never pain during anal penetration and will always have her anus well cleaned perfect for cocks and dildos.

PAGE 22:

The game carries out a second very sadistic mental transformation to samantha, a flashback appears, now samantha thinks she wants a baby who wants to get pregnant, images of sperm appear in her mind filling cunts and swollen bellies of pregnancy, samantha declares to micheal to fuck her well and to cum inside her because she wants a baby, but the game laughs at her and tells micheal that his new girlfriend is childproof and that the only thing he can give birth will be rivers of cum from her anus.

Michael is really satisfied with his new wife who from her best friend is now a whore in heat, indeed an incredibly hot sexual abomination.

PAGE 23:

Micheal fucks Samantha's well lubricated ass with great ease, she is lying on her stomach with her big tits well placed on the mattress as she squeezes a pillow between them, her ass fully 90 ° bent

towards Micheal's cock, every stroke of his cock reaches Samantha's prostate well directed causing strong shocks of anal pleasure to the girl, Micheal can no longer resist and reaches the climax by cumming mercilessly all inside the anus of the beautiful maid (x-ray image to understand what happens inside her body), Samantha has an anal orgasm, Michael withdraws his big cock back from samantha's hole and a thin stream of cum comes out of the anus, the girl visibly ecstatic with pleasure her thighs and legs tremble.

PAGE 24:

Samantha rolls over on the bed on her stomach, with her big tits blowing in the wind, her legs spread apart and the big cock straight as a stick dangling between her legs, Michael lies down on the bed on his stomach to rest with his legs for a while. open and the big cock in the middle facing down, Micheal is very tired from having cum so many times in a day but Samantha does not perceive the slightest tiredness and immediately changing position she sees micheal's ass smooth and pleasant, with the shaft clearly visible between her legs, she bites her lips and with her ever-hard cock approaches her ass and fucks micheal, sinks his smooth cock well, moves her hips sensually in a circular way and with her hands clings to her seductive blonde pornstar hair, the game assists as a perverted spectator and declares how beautiful the woman is fucking a man and having broken their biological natures.

PAGE 25:

Samantha unannounced cum inside Michael but in an always unnatural way (x-ray image to understand what happens inside his body), with a long oily splash inside Michael's ass, a smooth shot of a couple of minutes that takes Samantha's breath away in one fell swoop and once finished releasing her transparent oily liquid, she withdraws her big cock back, but she is not affected by fatigue or orgasm, her heart continues to beat and her arousal remains constant, in fact immediately after with force wild turns Micheal from the bed bringing him lying on his stomach with his legs open and his hard cock swinging, Samantha lowers himself with sensual and exciting movements and begins to lick Michael's balls licks all the shaft up to the top, until reaching the tip of the pea tip, gives him a very sweet and sexy blowjob

PAGE 26:

But the game she is assisting wants to make things more interesting and makes a long and anomalous, almost lizard-like tongue bloom from Samantha's mouth as the saliva turns into white sperm running down its tip, now her mouth smells continuously of cum and he swallows some as it is produced by his salivary glands, his tongue then comes out again after having swallowed a nice ball of cum down his throat, brings his tongue into Michael's anus and explores it like a pea then withdraws it out and it clings like a snake around Michael's cock, a demonic tongue that eventually makes Michael's already exhausted cock cum, Micheal's cum ends up entirely on Samantha's face.

PAGE 27:

After a few hours of fun the two are happy lying on the bed and look at each other happy and pleased, they talk about how wrong all this is that the nature of a woman shouldn't be like that, they shouldn't have a penis, fuck other men and cum, that their sensations are unnatural that they feel wrong but ... but ... fuck ... sooooo horny and that makes them feel full of life and then fuck the natural order they want to feel wrong and excited living in the sin of lifelong lust and sink their souls in sinful pleasure.

The game declares how adept he was at making their natures perverse, as the couple looks into each other's loving eyes.

PAGE 28:

The following scene after a night of love and sinful passion samantha gets out of bed with a semi hard penis, on tiptoe she goes to the bathroom with the need to pee, she goes to the cup to piss standing up but instead of pee she goes out a jet of hot, whitish and steaming liquid just like pee,

this makes Samantha smile and amaze as she tries to taste the remaining drops with her hand and feels that it is milk !!! even her piss had turned into sweet milk as from her breasts, this makes her feel truly a special creature, she goes back to the bed always on tiptoe it's almost morning.

PAGE 29:

Looking for something to dress up, the game declares that with that body of a goddess of lust she doesn't need her old male clothes and makes all kinds of sexy dresses and lingerie appear in the drawer, now the game doesn't even seem to respect the shifts anymore. for quite some time and continues to have fun manipulating reality to her liking, samantha wears simple panties suitable to contain her penis, panties are white and cute suitable for transsexuals and contain the cock in a delicious bulge, then she wears a wide tank top that leaves her big naked breasts free covering them like a veil from which you can clearly see the nipples under the fabric of the tank top, the game all the time does not stop making appreciation on Samantha's body.

PAGE 30:

Ready she goes out into the open air, goes out into the private garden of her friend's house and sits on a bench adorned with beautiful roses, the garden is a really well-kept and natural place, the girl's shapes blend perfectly well with her majestic body, its curves and perfect proportions surrounded by flowers and roses make it look like an enchanting creature, but between its legs it is actually that body resulting from a perverse and sinful biology, sin and nature come together in a perverse fusion and sexual unnatural but exciting, samantha gets rid of the undershirt releasing her beautiful melons and stays with her pretty panties, these feelings of perverse nature increase more and more because together with the beauty of the nature of the garden it is now possible to admire all the perversion of samantha's body, her perfect feminine curves, her slender and athletic belly, her fertile and maternal breasts like loaves of white bread and hard cock c he comes out of her panties timidly, scapelling her dickhead clearly visible, with a hint of precum.

PAGE 31:

She also takes off her panties, she feels whore and beautiful almost auerea with nature, with her fingers she touches the tip of his cock and pulls on a very long thin strip of oily and sticky precum that sticks on all fingers like a cobweb and always with wet fingers he involuntarily touches the flowers around him, nature now contaminated by the sin of his unnatural seed the flowers begin to become even more beautiful and begin to emit thick white cum instead of nectar, some flowers even begin to squirting this cum on the girl covering her like a light rain, samantha feels like the goddess of lust.

PAGE 31:

Meanwhile, micheal wakes up from bed with a morning erection, sees samantha return to the bedroom covered in cum and the semi-hard cock, the smell is very strong, Michael admires samantha's figure covered in cum and can't ignore that. smell of intense cum, they look at each other and samantha smiling goes to the bathroom for a shower.

PAGE 32:

Micheal moves towards the game that was the origin of all this imaginative madness, on purpose he tries to forcefully move the pawns out of curiosity, the game realizes it and declares that micheal will be punished for this and will be deprived entirely of all the his manhood, mocking him for what awaits him. Michael feels his body tingle, his hormones are manipulated, testosterone dissolves inside him and is bombarded with female hormones, his body becomes smaller and more slender, the shapes are more and more feminine, his nipples develop a lot the breast grows slightly, it looks more and more like a girl, her face is that of a girl, the nose becomes more and more cute and the lips more and more desirable, the dark hair grows longer in a bob like hair not very long, the body has more curves, he feels a very strong pain in the testicles that are withdrawing inside him, the pain

accompanied by arousal helps him to overcome the transformation, the skin is collected as the testicles move towards the innards in a mixture of pain and pleasure, a vagina forms under her scrotum, beautiful vaginal lips open and the testicles that rise inside her body form the ovaries and all the full gina, without balls, feels the emptiness between his legs and makes him feel naked and defenseless, his cock shrinks slightly and becomes a 10cm cock always hard and clearly visible, his prostate trembles inside his anus and this makes you enjoy and screams a scream of pleasure from a real woman in heat, the game declares that Micheal is about to enjoy his last cumshot as a real man, and immediately from the micropenis comes a very strong splash that drains Micheal's prostate, his appearance is entirely female except for the little cock that protrudes like a clitoris from the vagina.
