- Go to the airport and look around
- You can now board a plane for the magic island (\$300)

If you decide to see the event, you'll have the possibility to corrupt the stewardess with gas potion.

Side note: When on the island, you've two possibilities to pass the night. Either you go back to MC's house, then you'll have to spend \$300 to come back, or you stay at the hotel for \$600. The first one is annoying due to the number of click, the second cost twice the price, your choice.

To trigger the maid event, go to the living-room and choose "action".
Note that the coffee shop stop to be available once Heather is enslaved.

- Works as a teacher.
You need to open the teaching job before (see "School"). Only available on Tuesday and Thursday, and it will take the rest of the day, this whatever the period you start. You'll earn \$1000/day at first, then \$2000/day once the school is corrupted.

Enslavement

In order to open the enslavement, you'll need to go to the sanctuary, then to Utopia.

After this, once the character met the requirement, you'll have an option to "make her slave". The requirement and place where the option is will depend of the character, and each enslavement will cost you \$3000.

Be aware that enslaving a girl will close all previous actions with her. Ensure that you've finish all the routes before you finally enslave someone, else you'll sometimes be stuck and unable to progress with some other characters. But once a character is enslaved, you can have secondary actions from the private room in Utopia.

Note that, while there isn't really an effective order for the enslavement, Jenny need to be the first character enslaved. I recommend you to then enslave Nicole, followed by Megan. This will permit you to later enslave in what order you want without having to come back to one of them.

Heather's ex-husband route

There's some events involving Heather's ex-husband and his new girlfriend. They are randomized event that happen when you go to work. The progression is simple, just get closer every time you see someone talking with Heather, and use a potion each time it's asked. Since enslaving Heather close the access to her coffee shop, be sure to have finish this route before making her your slave.

Potion for men

Sometime the progression will need that you use a potion for men. You'll need to go to the sanctuary, then ask about men potion for that.

Then, you'll just have to use the potion for men each time it's asked.

MC's Grand Mother

You need to have enslaved Jenny and Nicole before you can start this part. Once done, go to MC's living room in the morning, and choose to pay her a visit. After that the progression is linear, corrupt her with potions until you have the possibility to enslave her.

Aunt Family

Access to the House

After the first week, the first time you'll leave the house, Jenny will ask to MC to go to his aunt house, opening the access to it. Her house is located on "uptown" part.

Once you'll get the key to the house, you'll also be able to access the backyard, and spy on them. To get the key, you need to go to the aunt room when she isn't there, and look around.

Corrupt Them

Note: For better results with the group scenes, it's better to raise them in parallel, in order for them to always have the same level of corruption.

- Go to the uptown, then to the bar. Here, look around
- Go to the aunt's house, then the twin's room and give them a potion. Raise them to their level 3 of corruption.
- Go to the aunt's house, then the aunt's room and give her a potion. Raise her to level 3 of corruption.
- Go to the aunt's house, then to the yard
- Finish raising the corruption of the aunt and twins
- Go to the aunt's house, then to the yard, and use a men's potion. Do it three times.

Note: There's a long-time bug here. If the uncle is in the yard, but you don't have the option to give him a men's potion, go to the sanctuary and ask again about men's potions.

Enslave Them

Go to the backyard and enslave them.

Church

Corrupt the Church

Firstly, raise Maria to the level 4 of corruption. Then, go to the prayer room and use a gas potion. Repeat this eight times.

Enslave the Church

Finish raising Maria's corruption, then make her your slave. Once it's done, go to the church once again.

Note: In order to progress you've to corrupt the mayor secretary and his family, therefore I grouped them here for a better readability.

- Go to city hall, then to the mayor's room
- Go to the mayor's room in the morning or evening

- Go to the mayor's room in the morning or evening, then trap the mayor and use a potion
- Go to the mayor's mansion, call everyone, and use a gas potion

Warning: So far, this part is bugged and will prevent you to reach the needed support rate to win the elections.

You now can have the support of different entities, depending on their level of corruption. Except for the mayor's family, they need to be enslaved in order to give you their support. Those entities are:

- Scarlet and Victoria (the mayor's family)
- The Church
- The Police Station
- The School
- The Hospital

- The Rock Band

I recommend you finish the secretary and mayor's family routes and do the TV station corruption route before you validate the election. This would make more sense.
