

Hello! Before you start reading this walkthrough there are some important informations you need to know:

The plot of this game is not entirely linear, meaning that there is no single path to be able to progress through the story. The various stages and events can be achieved through entirely different gameplay experiences, sometimes making it difficult to progress through the story.

In addition to this there is the further difficulty represented by the absence of a quest log, which can lead to deadlock situations where the player doesn't know what to do.

I have made this guide so that you can get an overview of the various quests and how to tackle them to avoid deadlock.

Please note: this guide follows the order in which I have personally followed and with which I have unlocked all the scenes in the current version. However, as I have already mentioned, it is possible to achieve the same result with a different game order.

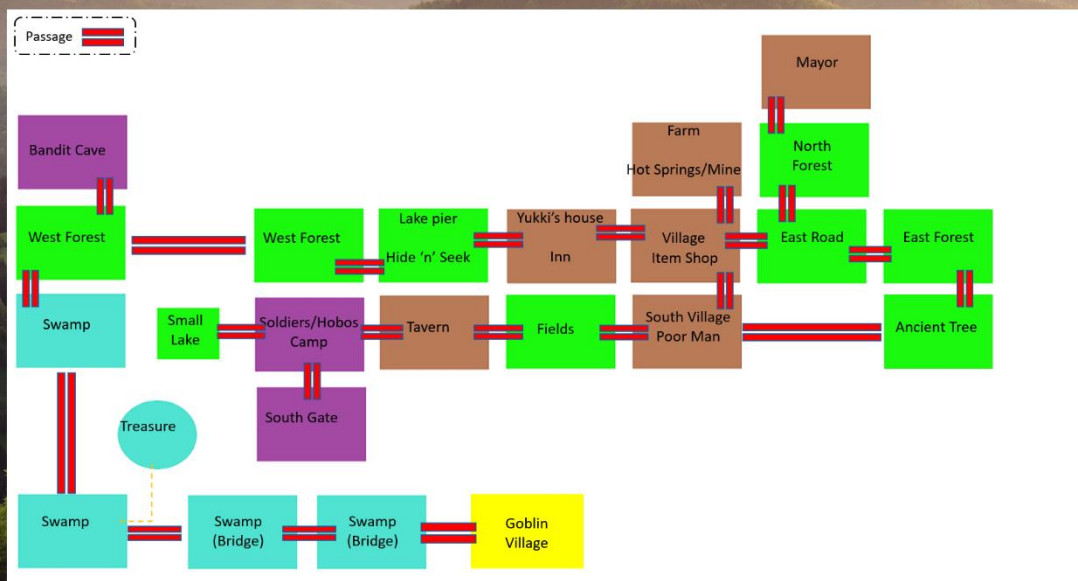

The guide presents two maps (human regions and goblin village) and a track to progress through the game from the beginning to the end of version 0.8.

To conclude: the guide is very detailed, but still within the bounds of common sense, which means that in some cases details have not been specified because they are marginal or minimal, so you will still need to put in a minimum of effort ;)

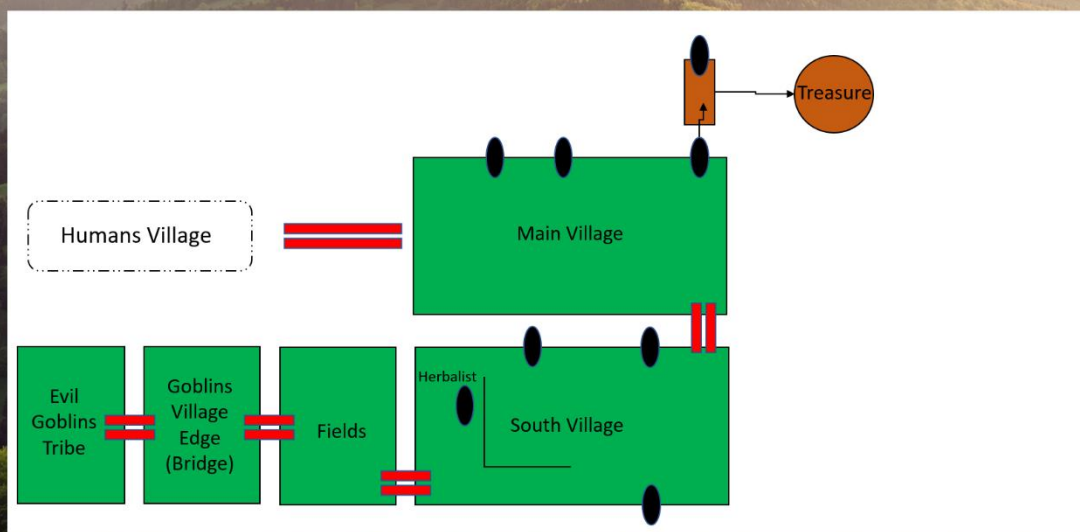

Have fun!

GAME WALKTHROUGH v0.8

- ❖ After the tiger attack at the beginning of the game, Yuuki and her brother Seita have to go home
 - The next morning the father of the blonde kid (Hiroshi) calls Yuuki. Go talk to him
- ❖ Go to the mayor's house
 - Go to the Item shop and get the equipment
- ❖ Take the East Road and then continue to walk to the East Forest
 - You can either fight every enemy or try to avoid them.
 - I recommend fighting to gain experience points and become stronger
 - When you've reached the final stage you'll find a demon. Fight him. You can't win so don't put much energy in this fight
- ❖ At the mayor's house you receive the curse explanation
- ❖ Go talk to the doctor at the Inn
 - Ground floor, last room with the old man
 - Go back home
- ❖ First study event
 - Automatic scene where Yuuki helps Seita and his friends
- ❖ The next morning someone knock at your door
 - Talk to Togo-San
 - You can now rest until dusk by laying in your bed or start exploring the locations
- ❖ Have dinner at the Inn in the evening
- ❖ The next morning choose between taking a shower or go to the doctor
 - If you take the shower one of Seita's friends will take a peek
 - After the shower talk to Seita
- ❖ Go to the doctor
 - Automatic scene
- ❖ Play with the kids
 - Go to the Lake Pier and play Hide 'n' seek
 - The kids' spots are:
 - From the pier move left then up to find Hiroshi
 - From the centre just look up, there's Takashi
 - From the pier move right, behind the last green tree, there's Seita
 - Take a bath with the kids
- ❖ Have dinner with Seita
 - After go for a walk
 - Go to the village
 - Meet the thief
 - Try to catch him
 - He's in the West Forest next to the Lake Pier behind a tree
 - Fight against him
 - **The best way to win these fights is to balance STR, DEX, AGI. Look at the statistics**
 - STR must be higher than enemies' total HP (if possible. If not add max STR)

- Choose hit chance > 85% and a good amount of AGI
 - The AP points allow you to manage the battle statistics
- After the fight watch the automatic scene
- ❖ From mayor's house go to the soldiers' camp
 - Go talk to the commander inside the tent guarded by 2 soldiers
- ❖ Go home and sleep
- ❖ Go to the item shop
 - Talk to the owner
 - **Bug chance**: it may occur a conversation about apples, if this is the case, talk again to the owner and choose the option "equipment upgrade" from the dialogue menu
 - You can now decide between exploring the map and obtain some random scenes or heading immediately to mayor's house
 - Here are the random events
 - At the inn talk to Hiroshi (breast groping)
 - At the village go inside the first house you encounter with the kid catching the cat (nipple stimulation)
 - At the village go to auntie's house, the last one with the dog outside, go inside and talk to the man (cleavage peek)

 - Repeat this whole thing at least 3/4 times
