

## Town of magic guide

Created by shadow

This guide has been created to help you guys with quest, item locations, fuse items, and relationship guide

## Important points

This is a document in progress it will be continued to be updated as new content is being created, from future updates the new additions will also be added to a changelog, so you can travel to the end of the document to see what is new, Deimus will have a final say if this document is divided in two versions

One for the patrons with all the content, and another with only the current public release

The guide was made to get as much of all the details needed for an event to trigger as possible, however is advised to improve the relations as soon as possible

# Frequented asked questions

## What are the current cap levels?

For the MC (Celica), Galiene, Evie, Faylen (possessed by pirate) and Selena the current cap is 80

For Faylen (possessed by Celica), the cap is 20

The puppet will have at first a level cap at 5, after meeting Faylen her level cap will be 10

## I can't raise my affection with a character and the fortune teller won't tell me what I need to do, is this a bug?

No, that's not a bug, more often than not you need to advance in the story or increase your relationship with Nel, various characters are dependent on these two factors, or even the story itself is dependent in the point that Nel can possess you whenever she wants

In general, try to advance with the relationships as early as possible, as of right now, your decisions won't affect the end of the game

## Where can I use the magic beans?

As of right now version 0.65.010, you can't use the magic beans

## How can I upgrade my wallet?

The first two times you will need to buy a new one, after that you will have to use the fuse master with different stones to upgrade it

### Can I upgrade all my equipment to last level?

As of version 0.65.010, you can't, there are only 3 Solarites, I do recommend to upgrade the arcane ring, watch and hourglass to its last level, it will increase your attack, turn speed and reduce cooldown of the spells

### Who can help me decipher the stone tablet that morden gave me?

No one, the stone tablet is not meant to be translated, instead you gave it to the fisherman to use in his chair, he will give you a fish, going to the plaza in the city you give the fish to the cat, with that you get a shoe, giving it to the toy maker will give you a crystal ball, giving this crystal ball to the fortune teller will enable free advices for treasures and relationships, you will also gain the magic beans

### How many cursed items are in the game and where to find them?

As of version 0.65.010 there are 6 cursed items, these are dropped by the mimic chests, after you get all the cursed items, the mimics will drop lustians; the mimics appear at random in any location and are affected by your luck status and how many days passed since your last encounter, you can't encounter them while Nel is in control

## Tips about the game

- As of version 0.63.14 you can get the item talisman XP, if you are new to the game or are starting a new file then you should master this equipment and always have it enable, it will give you bonus experience so you can level up faster
- As of version 0.64.14 you can upgrade the treasure finder to mithril level, the bar for a guarantee treasure will increase faster, so make it a priority to upgrade the treasure finder to its last level
- the best way to master equipment is by either have Nel possess you (she will equip any item that's not been mastered, and can change the items while exploring, you can't do this) or fight mimic chests
- for the potions and the books you need to use alchemy to continue to level it, when reaching a thresholding new recipes will become available for purchase in the alchemy store
- When Violet relationship becomes available is best to improve her relationship as soon as possible until you get the full bodysuit, this will allow Celica the chance of using one extra attack, and you will have more HP and MP
- when the option to have teammates becomes available, try to explore with them as much as possible, you also need to level them up, it will make exploring more easy
- as of version 0.63.14 one of the pirates girls can possess Faylen and have her as teammate, try to also bring her to level 80, in the event is needed in future updates

-as of version 0.65.010 the wagon of wonders / relationship shop had been added so its best to buy the relationships items there to quickly progress the relationships

# Relationship shop / wandering wagon of wonders

As of version 65.008 a new shop was added to the game this shop in particular sells items to increase the relationship with the characters, instead of doing their increase relationship method, also you can buy the stones required to upgrade your wallet here, only one of them though, still the new stone for the wallet (if you didn't purchase another of the previous ones) alongside the last Dwarven cogwheel can only be bought here (the Dwarven Cogwheel from the mystery box)

**Note:** You can also buy the items from gold and silver chest (at random), from the mystery box, the price of the box indicates if it's a rare item or not; you can only buy one of the stones for the wallet, otherwise you will have to try your luck with the mystery box or by exploring

## How to unlock

After the events of rescuing Liam, and talk to him in the tavern (after he goes to the dessert), you just need to let a day pass (sleep) and then go to where you found Liam and the new shop will be there

Also, this shop besides appearing in the mentioned location, it will also appear where you fought the queen bee when doing the Mindflyer quests

**Note:** the price for the affection objects is as n.0, if the character relationship is n.1 ... and so on the price will be reduced, and it will not appear if the relationship level is n.9

### Magic Toy Wonderland

This place is unlocked when you had explored the Fullblossom woods, and visited the guild HQ for the event to trigger

-the first quest you get from Phineas is to collect fairy dust, in Fullblossom woods a fairy will appear you have to chase it, repeat this 3 times, and you will unlock the Fairy tree, here you will have to give the Fairy a plumberry and she will give you the fairy dust

-Once you give the Fairy dust, Phineas will give you the Stone Emblem, key item to unlock the Magma Mounds location

-once you unlock the beach, you can complete the quest of retrieving the shoe from the cat in the central plaza (give stone tablet to grumpy old guy, you get a fish, give fish to the cat, you get the shoe, and now give the shoe to the toy maker)

-after previous event going in the night will trigger the event where you meet the puppet

Abandoned House

- you unlock this location by reaching level 9 and talking with Bert, you will be assisting Evie in dealing with a ghost (Nel) here
- Traveling to this location at 12:00 am will trigger the event to 'meet' Nel, but you cant see her (need the spirit stone)
- if you go here again after 'meeting' Nel from the previous event, without the spirit stone, you will have another animation, where Celica tries to attack Nel, without effect and will run away again
- going here the next day in the morning you tell Evie you saw the Ghost, she will tell you to get a Spirit Stone, and her house will become available, she will try to give you her Spirit Stone but it has been robbed, you will get the Spirit Stone in the pawn shop
- now going here with the spirit stone equipped you will be able to face Nel, for story progression purpose you need to 'loose' 2 times

## Eleth elven enclave

### Unlock conditions

You need to explore the Misty Marsh, with that you have a chance that Celica will find the hidden path

### Events

-you first need to have unlocked the ancient celestial ruins, have triggered the event where you “meet” Faylen, and finally have Edgar join in the discussion in the lighthouse you will be delegated as the person to talk with the elves, but you need to make the guy let you pass... just keep selecting talk with him, his dialogue will change until Faylen comes for you, she will use her staff on you and will discover that you are a celestial... after that she will give you the Celestial Key

-after the event just go to the Elet general shop and then return to Eleth house to trigger the next story event

## Eleth General Store

Once you finally enter the elves' home this location will be available, you can buy new spells and alchemy books here

	advanced alchemy book: 998 coins
	Icerain book: 850 coins + ice flake + water jewel
	Maelstorm book: 850 coins + Wind cone + Electric Shard
	Meteor shower book: 850 coins + Fire stone + Earth pine

Dirn Kibar entrance

You get to this location by exploring the Fairlily lake, just getting to the gate the Guard will not let you in, by this point you have already attended multiple **Masquerades** now you must return to attend another one

-after getting the Dwarven Royal Crest in the Masquerade, you need to show it to the guard to be able to enter the Dwarves kingdom

## Blacksand cave / treasure cave

You will discover this location when starting captian Ceres relationship the pirate ghost will take you here

### Events

-having Galiene in your party visiting here will trigger an event where the cave will be unlocked and you will continue with Captian Ceres relationship

-visiting here again after previous event will allow you to get the Magic Mirror

-when you advance with Captain Ceres story a pirate ghost will be here, bring Faylen here for a new event

### Sweetway Bakery

You need to explore the Dirn Kibar mine at least once, in the plaza a new event will be waiting for you where you will go to this place, in here the items they sold (as of right now) is to remove curses or anormal states of Celica

**Note:** unlike other stores, in here you can only buy one item at a time, also if you use one of the items you need to go to your house and sleep for the item to become available again

	Mind Cookie: 100 coins, removes the Mindflayer state from Celica, (don't know what does this status effects do though)
	Soul Cookie: 100 coins, clears the progress bar for Glace to take over when you are wearing her

Galgatin's lab

For this location to become available you need to have explored the Dirn Kibhar Mine, and have triggered its event, where you will meet Rusty

### Events

In here you will see multiple events, the first one is Rusty and Galgatin attempt to time travel

For the events to occur almost all of them you need to have triggered them, and then go back to sleep

-here you will see 2 events regarding Celica's past with Elith, those are necessary for her relationship to start

-if your relationship with Nel is high level (above 10 if you completed the requirements to start Elith relationship), you will see multiple events regarding Nel's past

# Special Quests

Here will be listed different quests to get a special item or spell, some of them need you to advance in a relationship and story for the different quests to become available

**Note:** if an item is obtained because a relationship milestone or event was reached it will not be listed here

## Get the Darknova spellbook

For this particular spell you will be seeing a mercenary/hunter (Miriam) while exploring the Fairlily lake, will fight different bosses and need to have advanced in your relationships, Nel and Faylen

1.- First when exploring the Fairlily lake and have triggered the events of reaching the Dirn Kibar entrance, exploring again you will hear fighting and get to a new location meeting the mercenary/hunter and you will fight a queen bee

2.- you need to get the dwarf crest in the masquerade and have let a day pass

3.- go to the misty marsh for a new event to trigger where you will meet Miriam again, you will fight some of the monsters there, after that you will find a new variant (a white one), its recommended that for the fight against the white one you upgrade the arcane ring to the Solarite arcane ring, if possible be level cap (80) and have violet in full body suit for the chance of a second attack

4.- after the fight you will arrive at the darkgate prison, where you will meet the warden

5.- now for the next step you need to have reached Nel relationship level 10.9, be able to possess Faylen and have reached her relationship to level 1 for the skill staff of reveal to be available,

return to the Darkgate prison, and use Faylen skill on the warden to reveal its true form, and a new fight to start, its recommended that you have Faylen at max level (20) and have some health potions in hand

The enemy will turn invisible so you need to use the staff of reveal skill on him, the enemy is weak to holy attacks

Once you defeat him you will get the Mindflayer ring

6.- now go back to Celica's body and equip the Mindflayer ring and go explore the misty marsh, there is a chance that one of the enemies will turn into a white variant

7.- eliminate the other enemies but let the white one attach itself to you, unlike with the relationship character fights you can't give up, so it will take a while

**Note:** before going to explore to the misty marsh make sure to have bought the Mind Cookie, make anti-sleep and anti-confusion potions, have the potion plus skill activated and the break free skill, and just in case make health and magic potions, also if you are using Violet change it for an outfit that its effects could help you in the fight, the steampunk outfit is a nice option because of its HP regeneration skill

8.- now the enemy will take you to the Mindflayer, for this fight you will be naked, but the effects of the clothes you selected will remain, break free and use the potions to gain resistance

This is a hard fight but with this you should be okay, make sure to defeat the variant enemy first

When you are done the enemy will once again run away, but you will obtain the Dark Nova Spell

### Mimic Chests

The mimic chests are special enemies that appear after you visit the forsaken keep, this is a special kind of enemy because its power is fixed at your current party total power, meaning that if you are high level but your teammates don't, then your teammates aren't going to make much damage at all, still they give a lot of XP and SP

### Where do they appear

They don't have a specific location and can instead appear in all the exploration locations, still, Celica's luck status, and how many days had passed since your last encountered one will affect how likely is for them to appear, also while Nel is possessing Celica to explore different locations, the Mimic will never appear

### Dropped items

The Mimic will drop cursed items, always, until the current game version has no more cursed items, and in its place will drop lustians

	Cursed Health Regen Ring: regenerates enemy health, every turn
---	--

	<p>Cursed Magic Regen Ring: regenerates enemy Magic, every turn</p>
	<p>Cursed Skull Ring: increases all enemies levels, so they will always be stronger than you</p>
	<p>Cursed Talisman: the time and energy it takes to go to different places increases</p>
	<p>Cursed watch: increases the enemies speed</p>
	<p>Ring of lust: when aroused by the enemies the bar increases more quickly</p>
	<p>Lustian: with this item you can create lust potions, wich increases the lust levels of Celica</p>

# Characters Relationships

Throughout the game you will find different characters that you can build a relationship, some of them are strictly story related and you won't be able to improve them, except from the main story, from the others you can improve them through various actions, or even be dependent on another character

Some of these characters offer a feature to the game

Some events will be marked as **Hidden** this because you don't need to trigger them to advance with the relationship, those events will become available once you reached a certain relationship level with another character

On the other hand, if you need to advance with another relationship to advance with a character, it will say as so

As of Version 65.008 you can buy affection items from the relationship shop / wandering wagon of wonders, these affection items will instantly fill the bar to your current threshold with the character (Example, Nel relationship from 4.0 will go to 4.9, that is her current limit until you trigger the corresponding event to go from 4.9 to 5.0)

Nel (Ghost girl)

### Meeting conditions

When you get the mission to assist Evie in dealing with a Ghost in the Abandoned House (level 9 required), you have to come to this place at 12:00 am (midnight), for that you need to be able to create potions, and drink an energy potion so you can stay awake

Now after Celica get her scare, you talk with Evie the next day, her house will be unlocked as travel location, and you have to buy the spirit stone in the pawn shop, after that you need to go to the Abandoned House with the Spirit stone equipped

### Enemy drop

You don't gain anything by defeating Nel

## Perks

With Nel you can have her possess you and grind for you (getting levels, items, etc), also if you advance Evie and Ceres relationship, she can take them with her to explore, effectively leveling up both Ceres (Galiene) and Evie

### Events with other characters

So far Nel has events with Violet, Evie, Capt. Ceres (Galiene possessed), Faylen, and Glace

### Increase relationship method

Let her possess you to grind for yourself

Buy her relationship item from the wandering wagon of wonders

### Relationship levels

0 - 1: in your first encounter you need to choose the option give up, this will rise her relationship to level 1

1 - 1.9: in your second encounter also chose to give up, a new event will play and she will unpossessed you in the central plaza, now in the next day go to the abandoned house in the morning, talk with Nel and chose yes

1.9 - 2: return home without the spirit stone equipped, and you will meet Nel, talk with her, it doesn't matter which option you chose, she will possess you and masturbate, you will gain the dildo

2 – 2.9: let Nel possess you, multiple times until you fill the bar

2.9 – 3: ignore her for some days, and then an event will trigger after you go to sleep

3 – 3.9: let Nel possess you, multiple times until you fill the bar

3.9: go talk with Nel in the abandoned house, select the new option of ..., then select why don't you come to my place, now Nel will be living in your house and you can call for her to possess you

3.9 - 4.2: just go to sleep and Nel will use your body to masturbate first thing in the morning

Note: once reached this point and going to the guild will have an event where Nel possess Celica and will give Bert a cup of beer, this is important to continue with the Demoness/Demonea/Mistress relationship, and increase Bert relationship

4.2 – 4.9: let Nel possess you, multiple times until you fill the bar

4.9 – 5: you must return home early, simple go to another location like the fortune teller and then go back to the house, now from the options select “my body is not mine alone it belongs to the both of us”, she will force possess you and then go exploring

5 – 5.9: let Nel possess you, multiple times until you fill the bar

5.9 – 6: asking her again to let her take control a new conversation will ensue where Celica will notice that her body feels stronger, and you will get a little of story from Nel's past, after that she will go exploring again

**By this point you are now able to ask her where you want her to take you to explore**

6 – 6.9: let Nel possess you, multiple times until you fill the bar

6.9 – 7: you need to have money saved on yourself before going to sleep, just to be on the safe side always upgrade the wallet to your max available capacity, you will wake up to find nel getting ready to go out, select to go back to sleep and let her do whatever she wants, you will get the Jammie top at the end of the event

7 – 7.9: let Nel possess you, multiple times until you fill the bar

7.9 – 8: have some money saved, like last time but now Celica spirit will stay in the house, she will come back with the Pink Briefs equipped alongside the Jammie top that bought in the previous event

At this point it was discussed in the event to talk with a spirit medium so go with the fortune teller and the tree beach house will be unlocked, go here now, it's located to the left of the palmtree spot

Talking with the elf lady will unlock the ability to call Nel on any location, not just Celica's House, she will take the spirit stone for the moment

8 – 8.9: let Nel possess you, multiple times until you fill the bar

8.9 – 9: first if you have already started Ceres relationship before reaching this point and Galiene is still possessed, then ask Ceres to give you Galiene back, now go back to sleep

You will be out of your body again, and the event will take place of Celica seeing how is to be a ghost (Galiene will take notice of Celica spirit)

Celica will not be able to get inside her body, you will visit the dark elf lady again, get your body back and the spirit stone

9 – 9.9: let Nel possess you, multiple times until you fill the bar

Note: from this point onwards, there is a chance that when Nel appears to take Celica's body, the spirit training will begin

If you ask nel to take over the next spirit training lesson will begin, just a small cutscene

9.9 – 10: first Galiene must not be possessed for this event to occur, and also the spirit trainings must have occurred, now go to sleep and Celica will wake up to find that her body is gone, and she will find herself inside of the puppet, named Candy

From this point on you can ask Nel to help you spirit training, she will eject your spirit and you can go possess Candy (the puppet)

10 – 10.9: let Nel possess you, multiple times until you fill the bar, or go possess Candy and then go to you house, talk with Nel and they will make out, both of them work

Her bar does not go beyond this point but there are multiple events with Nel once this point is reached

Now you should go possess Candy and train in that body

Go to the toy wonderland, talk with the guy and the option to go see the mannequin (Candy) will appear, select yes and you will be Infront of Candy, now select the skill to possess her and you will be in candy's body

you will be level 1 again so go to the deepwood forest to train, once you have leveled up enough a new relationship will start

Violet

### Meeting conditions

For Violet you need to have finished getting rid of the ghost in the abandoned house (Nel relationship level 1 or more, specifically that Nel informs that Celica already got rid of the ghost)

exploring the palmtree spot until you meet the fisherman

return to the main gate to trigger Evie event where her spellbook is stolen, and then go to her house to get it

go to Morden's lab to trigger the event where the thieves stole Morden cursed box

go to the Deepwood Forest to trigger an event to unlock the Old well location

travel to this new location and you are done

### Enemy drop

You don't get anything by defeating Violet, on the other hand, the first 2 times she makes you climax she will leave behind a dark orb

### Perks

By reaching at least level 3 in her relationship you will get the slime suit, this is an armor for Celica, and an extra magic bar, getting her relationship to level 5 will get you a new version where Celica gains the chance of making a second attack, performed by Violet

### Events with other Characters:

Nel has an event that requires Violet relationship to be at least level 3 to trigger, same with the demoness

### Increase relationship method

Let her win the fights against her, and when you get her as a slime suit, fight monster while you are wearing her

Buy her relationship item from the wandering wagon of wonders

### Relationship levels

0 – 0.9: let her win 2 battles against her

0.9 – 1: let her win a 3th time and an event will trigger where the guards will come to investigate and Violet will hide you in the well while playing with you

1 – 1.9: let her win the fights against you, 2 fights needed

1.9 – 2: fight against her in the morning and loose, and this time when the animation ends you will still be wearing her, and you will take her to a tour in town, this takes all day (if your relationship

with Nel is high enough then she will appear briefly when you leave Celica's house in the cutscene)

2 – 2.1: talk to her, a different conversation will ensue

2.1 – 2.9: let her win the fights against you

2.9 – 3: go to the old well and an event will trigger where she can do magic, now she will force you to wear her, gaining the slime suit

**Hidden event:** once this point is reached if you had advanced Nel relationship to the point where she says that you should let her take care of your relationships, (the event with Evie where she starts kissing her, more specifically level 6 relationship), then going to your house and removing Violet before going to bed will have an event where Nel will take control and go get Violet for an event in the forest, you will wake up the next day with Violet already equipped

This event is declared as hidden because you don't need to trigger that event to continue with Violet relationship, neither Nel relationship

3 - 3.9: either remove her and let her win again, rinse and repeat, or fight monsters while wearing Violet

3.9 – 4: for this you need to complete Selena's event, get her memento back, she will reward you with the charm spell, learn it, if you have violet equipped remove her, then travel the map until her icon is displayed again and then visit her, she will charm you and use you for magic, and that's the event

4 – 4.9: either remove her and let her win again, rinse and repeat, or fight monsters while wearing Violet

4.9 – 5: first remove her, and then travel the map until her icon appears and visit her, now you got the full body slime suit, now Violet can execute an attack when you battle enemies

5 – 5.9: either remove her and let her win again, rinse and repeat, or fight monsters while wearing Violet

5.9 – 6: again, remove her, travel the map until her icon appears on the old well, visit her while wearing the starting clothes, a new option when talking to her will appear, select it and an event will take place where Morden will chase you to the docks, where Violet will take the form of panties, now you have obtained the slime panties

6 – 6.9: either remove her and let her win again, rinse and repeat, or fight monsters while wearing Violet

As of version 0.65.010 this is as far as her relationship goes

## Demoness/Demonea/Mistress

### Meeting conditions

You have to advance the story until the point where you go exploring with Evie for demons in the darkwoods, now while exploring you will unlock the ancient ruins, where you will 'meet' her

The next day you should go to hq for an event to trigger, where you will go here and meet Liam, after that talking with bert will unlock the spider cave

In the next day you must go to the Count mansion and talk with the maid, she will give you the keep key, now go to the tavern to trigger

an event with Liam and the count, now you can trigger the event to unlock the forsaken keep while exploring the dark woods

Just entering will have an event fight with the Demoness

#### Enemy drop

Defeating her will give you the dark magic spell book, to be able to win you should at least be level 50 or higher, have the light spell, upgrade your equipment to make good damage, don't have any allure at all, and if possible, have violet equipped for the chance of double attack and more health

#### Perks

This character doesn't give any perks to Celica, as of right now

#### Events with other Characters:

She has an event with Violet, if you let her wear her for some days the next time you visit, she will use Violet to fuck Celica

#### Increase relationship method:

When you sign the contract talking with her will have a mini event where she uses Celica to please her, also if you fight with her and loose that will also increase her relationship, be warned that in the last method will use the remainder of the day

Buy her relationship item from the wandering wagon of wonders

#### Relationship levels:

0 – 0.4: the first time you visit the forsaken keep will throw you at her, losing the fight by pleasure will increase her relationship

0.4 – 0.9: now while exploring the forsaken keep, you can trigger an event where you enter her room (new location), losing against her will increase her relationship

0.9 – 1: come here, talk with her and lose again, will trigger an event where she spans you, will trigger the event where Celica pleasures her and will pass another day

1 – 1.9: continue to lose against her, for Celica to pleasure her

1.9 – 2: now here for this part it can happen in 2 ways, if she doesn't have Violet she will try to give you a 'rare stone' in exchange that you sign the contract, on the other hand if she stole Violet from you, then she will force you to sign the contract in exchange for Violet, either way to continue with her relationship (and get Violet back in the latter case) you need to sign the contract, you will get the talking stone

2: going the next day and talking with her will have you doing whatever she says, from this point you can ask the fortune teller for relationship advices

**Hidden Event:** If your relationship with Violet is to the point where you can wear her, from this point on, regardless if you signed the contract to get Violet back or get the rare stone, now you have to let her wear Violet for some days (she defeats you by making Celica cum while still wearing Violet), 2 or 3 days, after that going back with her will trigger the event, where she uses Violet to fuck Celica

**Hidden Event:** if you already meet Selena in the dreamworld and got her true name, a new option will appear where you call her by her true name, and then she will force Celica to call her Mistress from now on

2 – 2.9: talk with her and have Celica please her

2.9 – 3: Now for this event to trigger you need to continue the story to the point where the order of mages visits the guild (after you explore the misty marsh and be high enough level), and you advanced your relationship with Nel to the point where you can give Bert beer (relationship level 4.2, and have visited the guild for Nel to take over and give beer), now while exploring the town alone will have a chance of the event to trigger where the talking stone will make Celica visit the Demoness, she will tell you to go get her a demonic egg that is in the guild

She will give you a sleeping vial

Fuse this with a cup of beer and give it to Bert, now you got the demonic egg, return to the demoness and talk to her select the option ..., an event will take place (during this event her relationship level will improve drastically)

3 – 3.9: talk with her and have Celica please her

3.9 – 4: going to sleep will trigger an even where the talking stone will wake up Celica, summoning her to the demoness bed chambers

4 – 4.9: talk with her and have Celica please her

4.9 – 5: to get to level 5 you need to first continue the story until you unlock the fairylike forest, after that a masquerade in the count mansion will be held, first time you will see a cutscene with Edgar, after the first masquerade, going back here and asking about the masquerade will trigger the event where you will meet her here, after that in the next day visit her in the tower and you will get level 5

5- 5.9: talk with her and have Celica please her

As of version 0.65.010 those are all the events for the Demoness,  
with her cap being 5.9

Evie

### Meeting conditions

You meet Evie at the very start of the game, and she will help you as a teammate and give you a spell book, her relationship starts as story dependent (rises by itself) but after meeting the Demoness, you will have to increase her relationship on your own

### Enemy Drop

You can't fight against Evie

### Perks

She will become an Ally, helping Celica while exploring to fight monsters, you need to have her around so she will level up, her cap level is 80

## Events with other Characters

Nel will help you to make her your girlfriend, so her events are tied to Nel relationship

### Increase relationship method

Once you finish the event of meeting the Demoness for the first time, the event where you met her in the ruins and where unable to use magic, you can go to her house and ask her to go monster hunting, fighting monsters increase her relationship

Buy her relationship item from the wandering wagon of wonders

### Relationship Levels:

0 – 1: Its story dependant by the time you meet the Demoness in the ruins it will be already level 1

1 – 1.9: go to her house and have her monster hunting until it reaches the cap

1.9 – 2: for this you need to have Nel relationship be level 6, going to Evie's house will trigger an event where Nel will possess Celica and have a talk with Evie

2 – 2.9: go to her house and have her monster hunting

2.9 – 3: let Nel possess you and an event will occur where Evie visits the guild and Nel gives points on how to declare herself to Edgar, just for a misunderstanding to occur

Now visit the guild the next day, and a new event will take place

3 – 3.9: you can either go monster hunting with her or have Nel possess you for an event to occur at Evie's house, that will skyrocket her relationship to level 4.5 (you will also increase Nel relationship at the same time)

4.5- 5.9: if you already reached Nel level 7 relationship when you try to leave your house in the morning, she will possess you and will go to Evie house for a new event to occur

5.9 – 6.9: just let a day pass and call Nel again to possess you, now her final event Lesbian sex will start

As of version 0.65.010 this is the max level you can reach with Evie

## Galiene

### Meeting conditions

You will be seeing her as you start the game, but her relationship will start, once you make enough purchases at her brother's store, where an event will take place and you will go to her location, and will gift you the battle lens item

### Enemy Drop

You can't 'fight' Galiene so she doesn't have a drop

### Perks

She will become an Ally, helping Celica while exploring to fight monsters, you need to have her around so she will level up, her cap level is 80

## Events with other Characters

When you meet Captain Ceres, and start her relationship, her relationship will be heavily involved with her

### Increase relationship method

Once you advance with the story and can have her as an ally you will be able to increase her relationship by battling together

Buy her relationship item from the wandering wagon of wonders

### Relationship Levels:

0 – 1: once you make enough purchases at her brother's store and you trigger the 'meeting' event, her starting relationship will be 1

1 – 1.9: once you can add her as a teammate just bringing her along to fight enemies will rise her level

1.9 – 2.8: for this level is completely dependent of Ceres relationship, once you reach Ceres relationship level 2, the relationship of Galiene and Ceres will increase until 2.8, in Nel case it will be an increment of 0.8 if she is not in a level cap

2.8 – 2.9: just have her as teammate and fight monsters (if she is possessed by Ceres then you will also increase her relationship)

And that's it as of version 0.65.010 this is as far as her relationship bar goes, still there are multiple events with Ceres that make use of her

Captain Ceres

### Meeting conditions

First of all, you need to have unlocked the ancient pyramid, after that if you just unlocked it then travel to another location and then back to the ancient celestial ruins to trigger an event where you will meet a woman from the desert town, you will go to the Asayuh Main Gate, and now will be able to pass the gate, you will meet the king of the town where he will ask you to get rid of the ghost ship that appears in the port

Equip the spirits stone, go to the port, have energy potions and use the Magic Hourglass to pass the time until midnight (use your potions to stay awake)

You will see the ghost ship and a ghost pirate, talk with her, she will ask for help and tell you about a magic mirror to transport to the ship, its location is in a cave north from there, The Blacksand cave, currently is sealed and you need of Galiene to unlock it

Go back to Galiene place and ask her to go monster hunting, return to the blacksand cave/ treasure cave and the event will trigger where you will gain access

After you gain access to it you will be transported to the pirate ship where you will fight Capt Ceres

#### Enemy Drop

Defeating her will give you the ice flake

#### Perks

This character will possess Galiene and you can have her as teammate, it will add to Galiene moveset the ability to summon a ghost sword if its only you and her in the party, the sword filling the third-party slot as long as it stays alive

#### Events with other Characters

Besides Galiene, her events will be tied to Nel relationship, also while you progress her story she will ask you to bring more people for her ghost crew to possess, as of version 0.64.14 you bring Faylen

#### Increase relationship method

Let her possess Galiene and have her as teammate fighting monsters

Buy her relationship item from the wandering wagon of wonders

## Relationship Levels:

For her you need to first trigger certain events before you can start her relationship (gain levels)

First you have to let her possess Galiene, for that bring Galiene to fight and use the give up command

The next day visit her and the possessed Galiene will meet you, now let her keep Galiene for some days (a day after that should be enough)

Now visit the guild HQ

After the event visit the pirate ship again

Now return to your home and sleep (the next day if you visit Lucan store an event will occur, is not necessary for the progress but nice to have)

Now visit Galiene place, the garden cafe

Now you can start improving your relationship with Ceres

0 – 0.9: Have Ceres possessing Galiene as a teammate and fight monsters (you need to give her 100 coins)

0.9 – 1: Visit the pirate ship, talk with the pirate ghost, the captain's cabin will become available, go here and talk with Ceres, asking for Galiene back, she will ask you to return her from time to time, accept the deal

1 – 1.9 have Ceres possess Galiene and go fight monsters (she will ask you again for 100 coins)

1.9 – 2.8: first you have to improve your relationship with Nel (relationship level 9), with Ceres inside Galiene's body, visit her cabin, she will ask you to trick people into the pirate ship, so her

people can possess them, Celica will refuse, and instead will ask to bring Nel to the ship

Talk with Nel about the Emerald Galleon Pirates (it's a new option you can't miss it)

After that you will get a new cutscene and her relationship will jump to 2.8 instead of the normal 2

2.8 – 2.9 have Ceres possess Galiene and go fight monsters

2.9 – 3: you first need to improve Nel relationship until level 9.9 and have seen some of the spirit training events

if you ask Nel to take over she will take you to Ceres ship, where she will ask you to bring more people to her ship and will move the ship to inside of the cave

3 – 3.9 have Ceres possess Galiene and go fight monsters

3.9: by this point and by the requirements of the spirit training you should have Nel relationship being level 10, now call nel and ask her to take control, she will take you to the ghost ship where Ceres and Galiene are waiting

3.9 – 4: for this now you need to start Faylen relationship (be able to possess her), and have her in relationship level 1, and of course Ceres be possessing Galiene, now go to the treasure cave as Faylen for Cindy (one of Ceres crew), to possess Faylen, now return to your body and ask Nel to take control

Instead of Nel going to explore she will instead tell you to continue with the spirit training and get yourself ejected, Galiene/Ceres will choose this moment to enter Celica's house, at the end of the event you will meet Valen

By this point the quest of getting rid of the ghost ship will be completed, go visit the Asayan throne room for a new event to take place, and then the Treasure cave

4 – 4.9 have Ceres possess Galiene and go fight monsters

As of version 0.65.010 this is as far as her relationship goes

## Selena

### Meeting conditions

-you meet her as early as you go to the towns gate, going back to the central plaza you will be able to trigger her first event

### Enemy Drop

You can't fight this character

### Perks

Once you reach the point of visiting her in the spirit world you will be able to see events in the Obelisk

Also, when you rescue her and return her to her body you can have her as an ally, but you won't be able to have other characters in the party

### Events with other Characters

When you are going to rescue her, Nel is the one that is going to fight her body being controlled, and ultimately free her

## Increase relationship method

For this character you first need to finish the Events listed below, unlike the other characters, until version 64.014 her relationship was more story / quests related, having her cap at level 2.1

Once you finish the events listed below you need to complete another mission, listed in relationship levels, after that she will increase her relationship just like Evie and Galiene

### Events

1.- Retrieve her house key: once you meet her, she will ask you to help her find her house key, going to another place and then going back to the central plaza you will be able to find the [House key](#), giving it to her will make her character bar in the relationship, starting at 0.2

2.- get her memento back: now for this event you need to have completed the event of returning the shoe to the toy maker, and have seen the puppet, go to Selena House and the event will trigger, now go to the toymaker house, talk with the front desk guy 2 times until you can see the puppet; talk with her and select "HAVE YOU FOUND ANYTHING IN THE CRATES" and you will get Selena Memento

3.- once the event in HQ takes places where the elves comes, and you discover that Galiene is an elf (by going to her location and having her join you to explore), and you have meet the demoness, either loosing or wining against her ( you need to be able to explore the forsaken keep), go to sleep an in the next day go visit her house, she will not be there but on the other hand her cat will, an event will take place where the cat takes you to the "Old Harbor Dock", here you will get the Succubus ring

By this point her relationship will be sitting in 1.0, now with the ring, equip it before going to sleep, and you will enter the dream world, where you will find Selena, where she will tell you that something happened to her body

By now her relationship will go to 2.0, talking with her and selecting that she is different from other demons will raise her relationship to 2.1

Selecting the option “I have met another demon” will reveal the demoness true name, Demonea

Select how to help her, talk to her again, select how to return to the real world, talk to her again to request returning to the real world

#### Relationship Levels

0 – 2.1: as described above her relationship is more story event related, still as of version 65.010 you will be able to increase her relationship like the other characters

2.1 – 3: For this you need to have done almost all of the Mindflayer quest, so you will need Nel at relationship level 10.9 (even if the fortune teller doesn't tell you to improve Nel relationship past 8, and instead tells you to help Miriam), Faylen relationship level 1 and be level 20, and finally fought and defeated the MindFlayer as Faylen

Now go to your house and equip the Succubus ring before going to sleep

Talk with Selena and ask her to return to the real world, a new cutscene will play, a long one at that, when its finished you will have already rescued Selena and her relationship would be at level

3

Now go to her house and talk to her, from this point on you can ask her to join your party, but right now you can't have more teammates besides Selena

3 – 3.9: ask her to go monster hunting, and go fighting enemies

As of version 65.010 this is as far as her relationship goes

Faylen

### Meeting conditions

First of all you should have seen her visit Agranor, that is after exploring the spider cave, being enough high level, and unlocking the misty marsh, and have triggered her events in the elven eleth enclave, Now for this you need to have Nel relationship bar at max (10.9) so you can possess the puppet, as the puppet ( Candy ) go to the deepwood forest and level up until you are level 5 with Candy, now explore again and the event will trigger, where you will meet Faylen again

Celica will give the Spirit Stone to Faylen

Return to your body and go to the Eleth house alone

Nel will possess Faylen and start accommodating her body for your use in the abandoned house (where you meet Nel) you will also get the spirit stone back, go talk with Nel there, it takes a couple of days (two at least), now go visit the abandoned house and you can start her relationship

now you can start using Faylen's body

**Note:** Faylen does not appear in the fortune teller relationship advice, that's because Faylen is an extension of Nel relationship

### Enemy Drop

You can't fight this character

### Perks

This character is used mainly for spirit training, meaning another character you can play as on limited maps, allows you to finish certain quests, and alongside Ceres relationship she will become an ally when you further increase the two relationships

### Events with other Characters

Her relationship could be considered an extension of Nel relationship, all of her events have Nel on them, also not an event but with Ceres she will become a vessel for one of her crewmates, becoming an ally

### Increase relationship method

Just possess her and then go explore and fight monsters

### Relationship Levels:

0 – 0.9: go and fight monsters in Faylen's body

0.9 – 1: leave Faylen's body and return to your own body, now ask Nel to take over, she will go check on Faylen and the event will take place, after that Faylen will have gained a new skill, the Staff of reveal

Now when you go back to possess her you will discover that she expects that you also use her body for your own fun, also at this point Nel will appear in scene in Celica's body now wearing the full pajama outfit, you get the slippers on this event

At this point you can continue with the Mindflayer quest to get the Dark Nova Spell, but consider to level Faylen to level 12 at least, still its better to level her to 20

1 – 1.9: go and fight monsters in Faylen's body

As of version 65.010 this is as far as you can reach with Faylen, also you should have already seen all her events

Still now you can let her be possessed by one of Ceres crew and continue with her relationship

Glace

### Meeting conditions

For this character you need to first have Nel relationship at level 10.9 have started Faylen relationship and the puppet is level 10, (If Evie relationship is at max then how some interactions will play will be different), also you reached the point of attending the masquerades to be able to enter the dwarf kingdom

The quest will become available at the guild, just go there and the maid from the count mansion will ask you to retrieve an item from the forsaken keep

Going there you will have a scripted battle where you will lose and Glace will take your body, a couple of days will pass and you will be ejected from it, with no way to enter your body

Go talk with Nel

She will eject Glace from Celica's body and will disappear for the moment

**Note:** at this point her relationship bar will appear but you can't do anything for the moment

**Meeting for second time:** Now once you have gained access to the dwarf kingdom, a new event will be available at the mystic tower, go there and you will learn about the awakening spring in the Snowy haven, and the Dirb Kibar northern gate will become available

Go there and you will find a frozen door, now the Throne room will become available, go here next

Now the Lion's temple will become available, its in a previous map so look at the next image

Go here and fight the Guardian, it's a fire Golem, by this point you shouldn't have any problem dealing with it

Its weakness is water, dark magic attacks

You will get the Inferno Globe

Now go again to the Dirn Kibhar Northern gate and use the Inferno Globe

Now you need to go to the Glacial Grotto entrance, where you will need a second Inferno Globe

Go home and sleep and then go back to the Lions Temple

You will fight another Fire Golem

Return to the Glacial Grotto and use the second Inferno Globe

You will fight Glace for a second time, now is not a scripted battle, if you use Violet in full bodysuit, make sure that you don't lose her because instantly Glace will possess you, either have her in panty mode and any outfit you would like or if you go full bodysuit make sure to have potions available to restore Violet health

Defeating her will give you the Ice armor

#### Enemy Drop

Every time you defeat her you will get/reclaim the Ice armor

#### Perks

You will get her armor once you defeat her, and in the case she takes over she will level up for you, if you are not max level, the downside is that she will change your equipment and spend money, items

## Events with other Characters

She doesn't have events with other characters besides Nel when you meet her

### Increase relationship method

Let her take over, get your body back, repeat

Or once you have raised her relationship beyond 0 you can buy her item to increase her relationship from the relationship shop

### Relationship Levels:

0 – 0.9: let her take over and get your body back, repeat it until you fill this bar

0.9 – 1: let her take over your body, but now go talk to her as a spirit, select "can't we find a way to work together?", after that select "I suppose, I can try accept it..."

Now go possess the Puppet, and go back to Glace, a new cutscene will play where you will get to meet Vivi (the maid from the Count house), in the puppet shack, and she is a demon, she will cast a spell on both Celica and Glace, so from now on every time Glace takes over, she will level up

Making it impossible for you to defeat her and get your body back, so you will have to go to Nel and ask her to help you get your body back

Also, every time Glace gets ejected from Celica's body it will now go to the puppet shack instead of the Glacial grotto

The puppet shack is in the same map location as the mystic tower, and Galiene location

1 – 1.9: let her take over and get your body back, repeat it until you fill this bar, or you can go to the relationship shop and buy her item to instantly fill her bar

As of version 0.65.010 this is the max level you can get with Glace

Elith

### Meeting conditions

This is a new Character introduced in version 65.010, to meet this character you need to do the following

- Have rescued Selena (selena relationship level 3, that means to have done most of the Mindflayer quest / getting the Dark nova spell)
- Have unlocked the Dirn Kibar Map (The town of the dwarves)

Now go and explore the Dirn Kibar Cave until you trigger the cutscene where you save a robot (Rusty), after that you would have unlocked Galgatin's Lab, and a cutscene will play out where the guys are attempting to time travel

Once its done go back to your house, sleep, and visit Galgatin's lab again, a new cutscene will play where Rusty will have time traveled, talk with Galgatin and select "Can't we use the time machine to get Rusty back", Galgatin will ask you if you are willing to do so, 3 times, you should respond as yes the 3 times

After the cutscene go back to your house, sleep, and repeat for a new cutscene

Now if the requirements have been fulfilled go to the guild and ask bert if there are any new assignments, the water tunnel will be unlocked, its location is besides the Count's Mansion

Go there for a new Cutscene to play, now Cephрина (a monster that looks like the ones in the misty marsh, but pink with more eyes, and the design of cat ear) will present Celica to Elith

And that's about it you have meet Ellith

And you are about to fight her, you will pretty much loose this fight because when she grabs you, she will inflict a new status that basically drops your willpower to 0

After that a day will pass and her relationship bar should have been unlocked

**Note:** At this point you have pretty much meet Cephрина but now we are going to cover how to visit her again

Now go back to the water tunnel to see Cephрина again, and a cutscene to play, and you got another status in the equipment screen Tampered Psyche

Talk with her, you can select Talk, take me to Elith or fight, select take me to Elith, and then select let her prepare your mind

And that's how you visit Elith

### Enemy Drop

When you defeat Elith you will get Cephрина's eye

**Note:** this is quite a hard boss, if not downright impossible if you are not prepared, unlike with the mindflyer that your potions effect got removed this will not be the case, so use an anti-sleep potion before the fight, have a strong willpower, and free soul equipped, the outfit can be whatever you like, this is noted down here because Elith will start the fight with a sleep spell on Celica

### Perks

Right now, this character doesn't have any perks, besides once defeating her and obtaining Cephрина's eye that will allow you to summon Cephрина, to fight her, ask her to take you to Elith or talk

By defeating Cephina you will get Lustians, that were otherwise unique to the Mimic Chests

#### Events with other Characters

This character doesn't have any events with other characters

#### Increase relationship method

Fight her and let her win

#### Relationship Levels

0 – 9: fight against her and let her win

As of version 65.010 this is as far as her relationship goes

## Story / side Characters

Here will be listed the characters that their relationship increases as you progress the story or as of right now doesn't have enough events, perks, you fight against them and so on to add their own section

### Edgar

He is the Guild Master, as of version 64.014 all of his relationship increases and events are story related

### Bert

Just like with Edgar; Bert doesn't have events of his own and instead are all story related; still unlike Edgar you can increase his relationship to 1.9 as of version 64.014, you just need to increase Nel relationship to be able to bring him beer, and just do that

### Vivi

When you completed the event of Glace where you give your body to her the event of Vivi will have already been completed, still in the quest log her name will not appear to make her relationship bar and name to appear you should go talk to her in the Count's mansion while wearing Glace, select talk, Vivi will accelerate Glace process to take control, once its done her bar and name in the quest will appear, also her bar will be already filled
