

Lust is Stranger Guide 0.15

General tips

- Treasure finder isn't required. Save the \$ and just use the guide.
- You don't need to be full paragon/renegade. More of 1 than the other just has flavor dialogue differences so to keep more options open choose a balance of the two.
- During free roam events can mostly be completed in any order. I present the choices in the order in which you encounter them but if you need more points for a given encounter move on and come back.
- I have highlighted the major branch points or choices that have unclear consequences.

Short and dirty guide for Kate

The decision for Love/Corruption is locked in on Wednesday when you deliver her package to her dorm. To get her corruption route her score needs to be 4 or more by then and get her to do drugs. To get her love route her score needs to be 14 or more by then and no drugs. Possible paths for Kate are: Kate Solo Love, Kate + Max throuple (implied based on achievements), Kate solo corruption, Kate sharing corruption.

Short and dirty guide for Max

Her route is a little more complex. Mostly make sure you have at least 5 affinity by the time you invite her to your dorm on Tuesday. Then you are locked into the Love or corruption route depending on what type of photo you take (either together -> love, or her in undies -> corruption). But There is also the option to have Max get together with Warren and it's implied you will steal her away from him later on but this path hasn't been developed yet. Possible Paths for Mac are: Max solo Love, Max + Kate throuple, Max solo corruption, Max sharing corruption.

Major changes from 0.14 guide

If you are on Kate corruption path just make sure you have a happy pill in inventory by end of day 4. Obtained for free by whoring out Chloe or can buy for \$10 from Nathan/Frank.
