

My Dorm v.0.13 Instructions

Change Languages from Spanish to English in Part 2

Click on **Configuración**

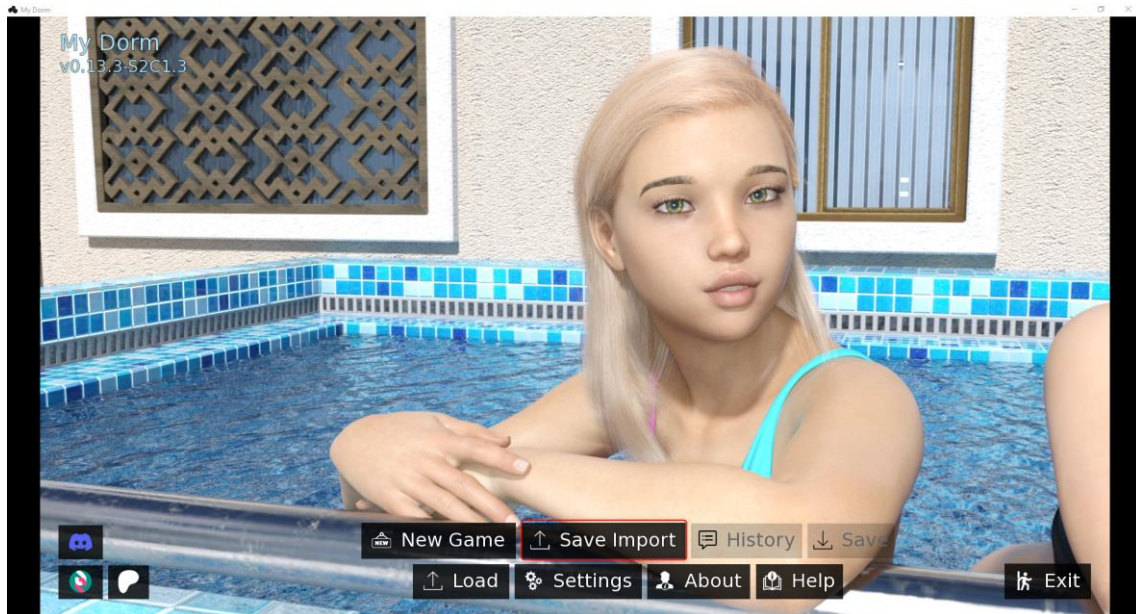

Click on **Idioma**

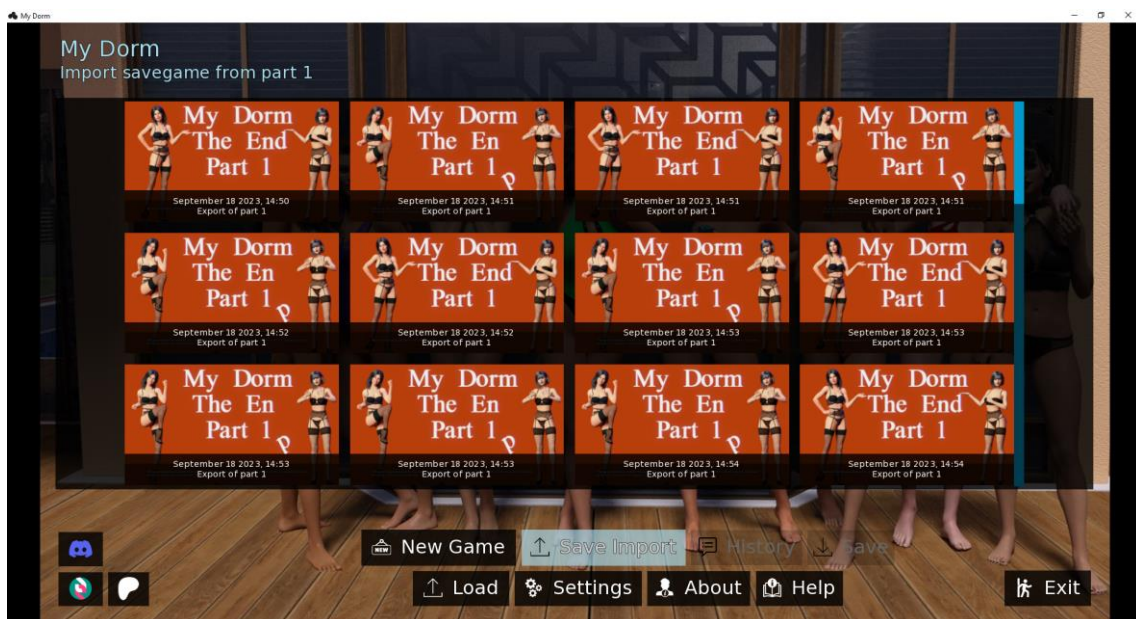

And choose **English**.

Import a v.0.12 game into v.0.13

Click on Save Import

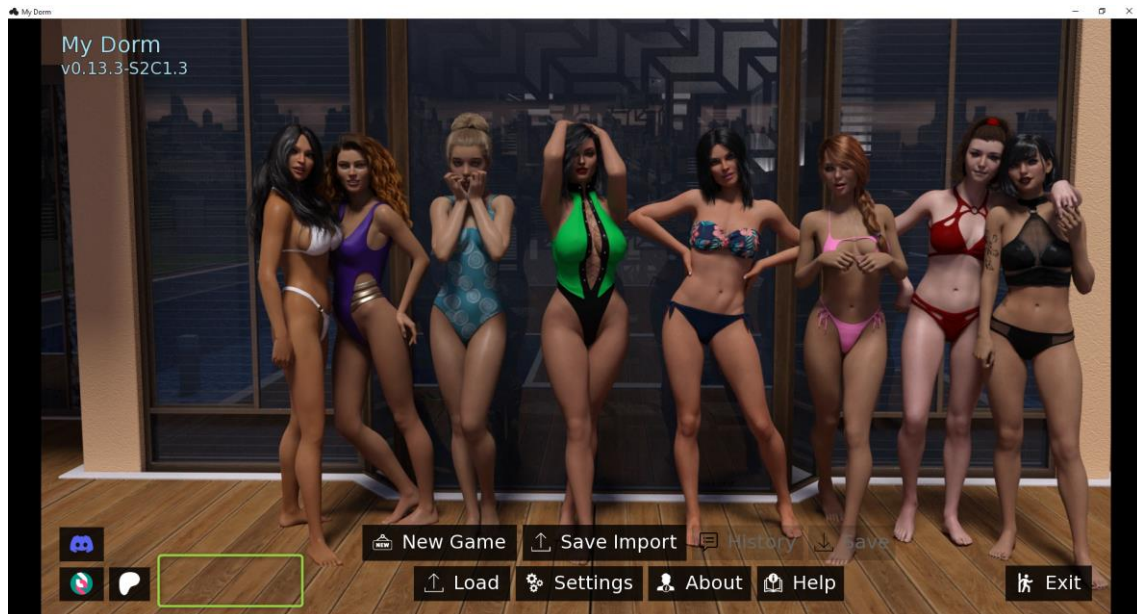

Automatic savegames should be shown. Choose the one you want to import.

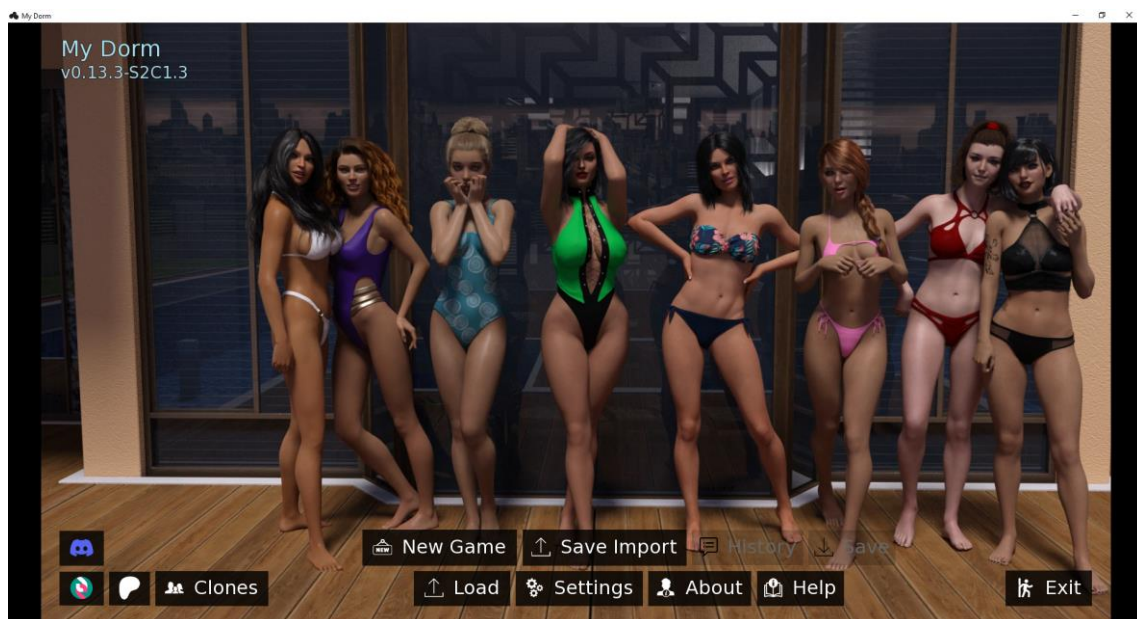

Patching the game

You should extract the ipatch file into the \game folder. Without it, there isn't anything here

If the patch is correctly installed, a new button will show up.

If you click on that button, it will switch between “Clones” (Unpatched) and “Family” (Patched)
