## Introduction

The day starts with what would be a typical morning, if not for the sudden epiphany you have when waking up. You have a fundamental choice to make, one that could change your destiny (for the rest of the game). It had never occurred to you, not until now. The chance, the opportunity! that you've been missing. The question is, should you peep on your mother? or should you not?:

- If you peep, your "guardian" will be your mother. This enables incest (and is the only kind of incest with the MC in the game). This option is not available in the censored version of the game. (**Daring +1**)
- If you don't peep, your mother will suddenly go on a (very long) trip and your babysitter will take her place, becoming your "guardian" for the rest of the game.

You'll be given the option to peep every morning. Even if you choose not to peep right now, you will have to do so in the next few days to get your (**Daring +1**) stat and advance with the story.

After you go through your classes you'll find you have free time to do whatever. If there is nothing for you to do playing games is always a good option, it will rise your skill and you can use that later in the mall arcade to get easy money. Otherwise you may just nap.

You may also want to visit your friend, perform chores or masturbate. For now you can be lazy with your chores, but you should still do them unless you want to get punished (non-sexual). As for your friend, you be given the chance to choose whether your friend is a he or a she. There are small variants of the scenes depending on your choice. If you choose a man, some scenes may look a bit gay (since you won't be properly feminized yet).

You need to rise your daring stat to 2 in order further progress the story. In the meantime you can keep going forever with the other tasks. To rise your daring state you may buy batteries on the mall and snoop into your guardian bedroom or buy a new alarm clock and peep on your guardian while she is sleeping.

When your daring stat reaches 2, the next day you go to school you'll automatically start the teacher blackmail quest.

## Chapter 1

This can be done in many orders, here is an example:

1. Start with peeping in the shower. (**Daring +1**)
2. Then use the batteries to enter guardian's bedroom, do camera first, then magazine. May also place camera in bathroom. Teacher quest will start, get panties from friend. (**Daring +1, Teacher +1**)
3. Snoop in guardian's bedroom again to get panties, failing, therapist starts. (**Guardian +1**)
4. Do alarm, win + caught. (**Guardian +1**)
5. Buy panties/lacy panties.
6. Get friend to give you lacy panties. Pose for friend.

(At any time between 3 to 6) - Talk to therapist about your problems and do survey.

## Rationale

- You start as a teenager so peeping is to be expected.
- Since you think about stepping up in your peeping (game plot), you buy the cameras, but where to place them? You use the batteries

trick for the bedroom and you normal peeping for bathroom.

A)

- You see her playing with the magazine, after, you use the same trick to see what there was in it but you accidentally take it with yourself.
- An incident occurs at school and you get yourself blackmailed. You go speak with your friend about it [(optional) and steal panties]. You snoop in guardian's room to get panties, or simply because you're horny, but you get caught. You'll attend the therapist like a good boy.
- Therapist doesn't actually reprimand you much so you continue, one step further this time you get to peep into guardian and feel her while she sleeps, you go quite far but are caught.
- Before therapist hypnosis starts (or soon after), feeling defiant you don't pay the teacher that week. She makes you recite a very humiliation letter that convinces you that from now on, you better pay.
- Teacher is increasing amount each week, and because of therapist hypnosis you start to think panties aren't that bad, so you wear them to school, after some days you also go to the mall and try buying some other design (cotton) to see if teacher approves and stops the blackmailing, but she doesn't.

B)

- After the webcam you want to get one step further this time, you get to peep into guardian and feel her while she sleeps, you go quite far but are caught.
- An incident occurs at school and you get yourself blackmailed. You don't plan to wear panties to school though. Next day your guardian sends you to the therapist. After the hypnosis session you panic, you're not gay! Not only you're not going to wear panties, you'll stop paying to the teacher, what can she do eh?
- Not paying the teacher was a very bad idea, she makes you recite a very humiliation letter that convinces you that from now on, you better pay. Now you have a huge debt, still, you refuse to do hypnosis or chores, you fail to pay again and get additional punishment (nail polish).
  - (Optional) Fail to pay a third time and you'll get another punishment (chastity), that'll send you directly to part 2.
  - (Optional) Maybe the first punishment convinced you already, go directly to next point.
- The nail polish punishment is enough to convince you to get some panties, maybe wearing them will finally make this nightmare stop. You decide to steal your guardian's panties, but you fail, get caught and instead get the magazine. With no other choice, you buy the panties at the mall. Reading the magazine, a survey says you're submissive. You start to wear panties to school and even dream about it.
- Teacher is still increasing amount each week, so you go to therapist for money. Because of therapist you start to think panties aren't that bad, so you go to the mall and try buying some other design (cotton) to see if teacher approves and stops the blackmailing, but she doesn't.
  - (Optional) You go to sleep in panties, since they are so comfy, you get immediately caught by guardian. Since you ain't making chores, you eventually get spanked. (Spanking may also trigger in other ways, you need not wait for spanking to start part 2)

With this you're pretty much in a stable position. You can continue on *Part 2* by at any time. Remember that for part 1 of the game, you're a lazy horny brat addicted to videogames and porn, so you try to get by with the minimum amount of chores possible.

# Snoop into your guardian bedroom

(**Daring +1** if < 2)

Doing so you may find 3 different items *Cotton Panties*, *Vibrator* and *Magazine*. This items are unique in the game and can be used on further parts of the story as an alternative to items purchased in the mall, they can also trigger some events. The next time you'll need to buy better batteries and wait 2 days. You can only snoop at most 3 times because of the following logic.

- There is a change of getting caught, it makes (**Guardian Perversion +1**), this will advance the story and stop you from snooping again.
- After 7 days from the first snooping, if you've snooped more than once without getting caught and *Guardian Perversion* is still 0, you'll automatically get caught.
- The third time you snoop you automatically get caught (spy camera doesn't count).

The items that hold most content are the *Spy Camera*, the *Magazine*, the *Cotton Panties* and the *Vibrator* in this order. The first two have their own masturbation scenes, the last two just add minor changes and can be replaced by other events.

# Peep on guardian while she is sleeping

This starts a memorization minigame based on the description of her actions. Here you have the solution:

- Kiss her Lips | With a short intake of breath, her mouth parts, and she licks her lips.

- Touch her tits | She moves her hand over her chest and rests it on the pillow.
- Suck on her tits | With a short intake of breath, she moves her hand over her chest.
- Stroke her hair | She moves her hand up her body and rests it over her head.
- Rub her thighs | She bends her leg, bringing her knee upwards a little.
- Touch her pussy | Her breathing quickens slightly, and she turns her head into the pillow.
- Finger her pussy | Her breathing quickens, and she brings her knee upwards a little.
- Touch her ass | She brings her knee upwards a little and turns her head into the pillow.
- Finger her ass | She turns her head into the pillow, breathing gently.

Succeeding in the game (now is your chance \$\to\$ flinger ass) is rewarded as a small expansion of content further in the story of the guardian during your wake up routine. If you get caught (required to success, you get **Guardian Perversion = 2**)

## Installing spy cameras

- On her bedroom when replacing the alarm batteries. You can masturbate to her in her bedroom after 21:00
- In the shower when peeping in the morning.

Getting caught in any of this will open the Therapist quest-line.

# Chapter 2

Eventually friend lends you a trap manga, when you go back to visit friend you have two options, tell friend everything, or tell him/her nothing.

- If you decide to tell him/her everything you should then let friend help you with all teacher tasks after this (including lacy panties). You can also choose whether friend just likes traps or want to be one as well.
- If you refuse his/her help you'll have to do teacher tasks on your own, this enables a second route with alternative content.

*It is possible to mix both routes (do some tasks with friend and others alone) but doesn't make much sense story wise.*

## Preliminaries

*If not already in chastity (special punishment in part 1):*

You wear the lacy panties your friend lend you (or bought form mall) to school. Teacher doesn't like it and changes deal. You go to research and put chastity every night but not at school or anywhere else (to not skew research results). Research finishes and you keep the items, and start wearing them. The toilets option appears but you ignore it for some days, then tell the therapist about the chastity cage. Then the locker room accident happens, (bonus for wearing friend's lacy panties when it happens).

*For all routes:*

You find a matching bra (friend/mall). From now on you're all week in chastity, but refuse to wear the butt-plug except for school (or not even at school, your choice).

Keep doing teacher & guardian tasks. You should aim to advance both to perversion level 5 at roughly the same time. Advancing one quest-line will eventually automatically advance the other.

Most of these punishments may also apply in Chapter 3. If you receive body modification punishments you may later receive a semi-permanent modifications renewal task that may open new possibilities, see Chapter 3 for more info.

You can stay at teacher perversion 3 as long as you want. There are two ways to progress to the next perversion level, either failing to pay or agreeing to remain in chastity for the weekend. Once you wear the female school dress to school you'll automatically get the cross-dressing stat to 10. Note that body modification punishments and (CD +9) tasks should happen at Chapter 3.

## Guardian

At this point you may get spanked for not doing your tasks. Later you can also trigger the ass check and room redecoration punishments for not doing your chores properly.

Essentially the guardian perversion increases every time she found out you're doing perverted things. Specifically, wearing female clothes to sleep (2=>3) and masturbating with a dildo (3=>4).

Guardian has four routes in this chapter (it is possible to mix some tasks). Reaching a strap-on scene will rise perversion to 5 and **enable future strap-on scenes**.

## Routes

### Chore Lazy

- Guardian at 3 or 4: Be lazy => Forced dress-up (automatic).
- Guardian at 4: Be lazy => Try to steal vibrator.
- Wait until corruption reaches 15.
- Guardian at 4: Be lazy => Forced strap-on scene.

### Chore Reward

- Guardian at 3 or 4: Do chores => Skateboard gift => Masturbate: Look-up dom dress online.
- Guardian at 4: Be lazy => Ask to return vibrator: Dominatrix scene.

- Wait until corruption reaches 15.
- Guardian at 4: Have breakfast: Say that you loved it => Strap-on surprise scene.

## Become a cam-whore

- Guardian at 4: Uploading your videos to the internet. There is a chance of being discovered. This will set perversion to 5, blocking the other routes. It will also keep normal future guardian strap-on scenes disabled.
- It is possible, but notoriously hard, to trigger the forced strap-on scene much later in the game (by buying a strap-on with the "shopping at the center" chore).
- It is also possible to become a cam-whore after reaching perversion 5 by following another route.

## Skip it

- Advancing the teacher route will eventually automatically advance the guardian.
- Being found out with body transformations or cross-dressing in public will also advance guardian's perversion.

## Getting the vibrator

It is possible to buy it. You may have also have already got one when snooping in your guardian bedroom at chapter 1. The most interesting way to get one however is by consulting your therapist about your problems sleeping with the chastity cage.

# Chapter 3

This chapter starts around the time you become a maid at home and wear a girl school uniform to school. You can now visit your friend dressed as a girl if you didn't do so before.

## Cheerleaders

At some point while advancing Chapter 2, the Cheerleader quest-line will start. Once you finish cleaning the team equipment room you'll be given a choice:

- If you "ask to stay in the squad" you'll start the Cheerlander route (unfinished) and the school slut route will be paused.
- If you "accept your freedom" you'll continue progressing towards the school slut route.

## Teacher

In this chapter you have more tasks available from the teacher. If your debt increases substantially you'll be given an "opportunity" to reduce it by becoming a test subject for a new device at the mall.

Here is a list of the newly available tasks:

- MD-CD: Max Days to finish - Cool Down days
- Requires: P (Teacher Perversion), B (Punishment Penalty), S (Slut Score), !F (Disabled on Futa mode), \* (Special)

Task Name	Requires	MD-CD
Play with butt-plug	P (4-6)	2-1
Flash chastity	P (5-6)	3-0
Train BJ with dildo	P (5-8)	2-1
Guide hand	P (5-8)	4-3
Ask stranger	P (6-9)	2-4
Fake girlfriend	P (6-9) S (7+)	1-5
Ask to be spanked	P (4-8) B (1+)	1-3
Ask to be fucked	P (4-11) B (0) *	1-1
Drink piss	P (8-11) !F	2-1
Whoring	P (8-11) !F	3-1

## Guardian

You'll be rewarded for doing your tasks, and punished otherwise. Life will continue as usual, but there is a gotcha. Your guardian has gotten herself a boyfriend, and he will tease you during the "main cleaning" task.

If you keep performing this task you will eventually trigger a scene in which you must choose to either go against your guardian or confess everything. This scene may feel quite sudden and it is not recommended to trigger it before becoming the school slut.

- If you confess you'll start the "good maid" route. In is the route involving more content and it is a slow progression into more extreme bondage and sissyfication. Your guardian will be happy and cooperative.
- If you go against your guardian you will start the "bad maid" route. This is a more forced route where extreme bondage will be applied from the beginning. Your guardian will be dominant and may be even cruel.

## Beauty Salon

The most interesting plot development in the beauty salon is to get submerged in debt. There are to ways to do so:

- Get punished by teacher with a semi-permanent body modification (fail to pay on monday). Then teacher will give you a renewal task, fail to pay for the renewal.
- Get a new noise. Ask to get back your normal noise. Wager at coin toss game, fail to pay for the treatment.
  - You may voluntarily get a noise job done, or:
  - You may get the piggy noise punishment (fail to pay) from teacher.

Once your debt increases over 400, a new variant of the renewal event will occur involving more body modifications. Being a bad boy will ensure you get into a debt spiral (not doing tasks => no money => teacher punishment body mod => body mod reversal costs \$\$\$ => not enough \$\$\$ to pay renewal => Try to save money putting normal treatments on tab => even more debt).

A second variant may occur if you reach 1000 in debt, this will turn you into a bimbo and cancel your debt and credit line.

It is however recommended to try to pay your debt before reaching this last event. The event is more of a placeholder to stop players abusing the credit line, than anything else.

## Coach

Initially all you have to do is pose for the coach and follow his recommendations. Once you're caught you'll be given instead the task to help Miss Willow. Your bully will find out and force you to give him head. This is way too much for you to handle right now, so you need to stop it. You go to the mall and buy a stun gun, then use it against the bullies next morning. After this you go back to service coach, this starts a memorization minigame based on his orders. Here you have the solution:

- Kiss the tip of his penis | The head of Coach's half-hard penis pulses and oozes with precum.
- Lick around the head of his dick | Coach's half-hard penis twitches and perks up a bit.

- Take the head in your mouth and suck softly | With a short intake of breath, Coach opens his eyes as his penis drips precum.
- Suck him down as deep as you can | Coach winces as his dick softens a bit.
- Lick the length of his penis and his balls | Coach's half-hard penis twitches, swaying from side to side.
- Massage his big balls | Coach winces, his cock twitching as it stops leaking precum.
- Rub his shaft with your hands | Use your hands faggot, touch it, like you wish you could touch yours.
- Turn around and rub his dick between your butt cheeks | Coach smirks, watching you squirm before him.

Once you're good enough, you get a new option to make the coach fuck you. After this you get to choose to become the school slut or get revenge on your bully.

# Club

You'll be given a task to get inside the club. Once you do you'll be given more tasks involving the club.

The club hides quite a bit of content. The rationale is that the first time you enter the club you try to dance a bit and maybe explore it a bit too. Since you like it, you decide to go to the club every now and then, even without your teacher ordering you to do so. There is also some content hidden in the basement!

# Chapter 4

This chapter starts when you become the school slut and continues until the thropy wife ending.
