

Official Player Guide

a SHOT in the DARK

How this guide works...

A Shot in the Dark is all about choices. This guide helps with those choices and unlocking all Extra Content (EC), Memories, Photos, and Achievements. It contains SPOILERS! It is meant to be used, at a minimum, with the “**Show ‘Liked that’ Notifications**” enabled in the **Options** menu to see how your choices are affecting your relationship status as you play. It is designed to help you follow paths for all characters and open all Extra Content (EC) in Memories, Photos, and Achievements. It may not necessarily take you through every single scene of the gameplay!

This guide follows the natural progression of the story. As branches and paths become available, however, you will skip scenes that another path would take. A navigation pane helps you move around. Where feasible, links are embedded within the text to move forward to the area your choices lead or back to the choice that brought you to your current scene.

Main Character response effects are shown as below...

“+)” gain a point, “-)” lose a point, “=)” neutral choice

#) = Branches or variations due to previous choices/interactions

Memories location mapped to the Options/Memories screen

Photos location mapped to the Options/Photos screen

R = Row / C = Column (e.g., Memories R₁/C₁; Photos R₁/C₁)

CHAPTER ONE – A Fresh Start

Move-In Day

It's the beginning of your college career and you and your Mom (Melissa Long) are unloading the car outside the Freshman Dorms of Mountain Valley University. You really want her to get out of your hair so you can check things out, namely the hot coeds next to the stairs.

Your first choice is to wait for **Ashley** or blow her off for a closer look at the **Coeds**. No way around it, you'll want to do both to unlock all Memories and follow each path. That makes this a great place to SAVE so you can follow both. Meeting Ashley and keeping her status >0 earns some revealing EC that does not appear in Memories or Photos!

You talked with [Ashley](#) or the [Coeds](#), now you're finally in your room to unpack where you meet your roommate Kevon.

+) *Want some help with that?*

-) *I've got a lot to unpack, too.*

You notice your sweatshirt is missing. If Kevon's status is >0 an Extra Content scene gives you a clue about your missing hoodie.

-) *Did you take it?*

=) *Do you think someone took it? (EC if Kevon >0)*

EC -) *Thanks for nothing.*

EC +) *Thanks, anyway.*

If you keep your friendship with Kevon >0, he invites you to the Zeta Omega Chi party to be his wingman. He also has an idea for you to pick up girls. This is a BIG decision for you! Do something you wouldn't normally do and go to the [Zeta Party](#) and have the chance to interact with all the girls in Chapter One. Or you could do the normal you and [Stay Home](#) to unlock more Memories and Extra Content only available down this path.

Zeta Party

Somehow you found the courage to [agree to Kevon's offer](#) to be his wingman. Not bad for your first night on campus. You arrive at the party and start taking photos.

Zeta Party Photos (3)

R1/C1-2-3 – Ch1 Party 1-2-3

Kevon encourages you to have a shot with him in the kitchen and loosen up. What to do? Either way you'll see some new faces and talk to some girls. The best course here is to pass and run into [Elly at Party](#); but you could skip seeing her altogether and go straight to the kitchen with Kevon for some [Liquid Courage](#) and miss an opportunity.

Memories

R1/C3 – Meet ELLY Party

You're talking with a hot Red-Haired Girl who just asked if you want to escape with her to a quiet place and be alone! No way this would have happened to you in high school. You found yourself in this predicament after deciding to go to the party and [skip the drink](#) with Kevon.

Do you have the balls to get alone with her? She asked, now you have to choose what you're going to do. If you bail out to go find Kevon for some [Liquid Courage](#) you'll meet the rest of the Chapter One party girls at the expense of her feelings and later consequences. Getting [Alone with Elly](#) offers some intense Extra Content and an achievement. Don't sweat it! In this world you can have it both ways.

-) I can't, I need to find my roommate. → [Liquid Courage](#)

+) Sure. Where should we go?

Alone with Elly

-) Maybe.

+) No.

+) If you go down, I'll definitely go down on you.

-) No way. I'm not going down on you.

-) I'm definitely not that kind of guy.

+) You'll have to figure that out for yourself.

-) No, it's not like that at all.

+) Yes. A very manly security blanket.

Zeta Twins...

Alone After Party

You need some air after an intense time [Alone with Elly](#) or meeting the [Kitchen Coeds](#) (Sara, Mai, and Alexis). You step out on the back porch to clear your head and meet identical twins Sophie & Natalie.

NOTE: You start with a +/- point with Sophie if you didn't wait for Ashley at the dorms.

You quickly realize Sophie & Natalie are polar opposites despite being twins. One will like what you say and the other won't. Simple as that. Natalie likes a more conservative approach while Sophie likes a more carefree you. If you're reading them right you have a shot at either one. So take your pick and choose your responses accordingly. They connect with you on **Photogram**, but more rewards are waiting down each path.

TIP: Who do you want to end the evening with (and ultimately end with her kidnapped)? Keep EC unlocked for both twins by first getting + likes from the other one. Change to the twin you want to stay with when prompted below and raise her status for the EC when you're alone.

+/- That's cool. (**Natalie+**)

With Elly after Park

You sealed your interest in [Elly in the Park](#) and you stuck around to hear her long story. You got here from [Kevon, Dorm](#) after he invited you to the Zeta party but you chose to [Stay Home](#). You changed your mind and ran into a Red Haired Girl when you tried to [Find the Party](#) and talked to her before arriving late together.

NOTE: You start with a +/- point with Sophie if you didn't wait for Ashley at the dorms.

You can choose to let Elly go inside and you'll have the Zeta girls to yourself; or you can ask her to stay. Getting 3 people to like everything you say will certainly be tricky! At least it's easy to keep Elly's EC unlocked if she stays outside because she should be in double digits. But you can only keep one of the twin's EC in positive territory, not both. In general, Elly and Natalie respond the same to your conversation.

SPOILER & TIP: If Elly stays outside, Sophie is kidnapped. Split your conversation likes to keep Sophie >0. You should have plenty of points to keep Elly >0 and you'll easily raise Natalie's status in the next Chapter but you'll end this one with her content locked.

CHAPTER TWO – A New You

Week 1, Moan Daze

It's the first day of your college career after an incredible first weekend with some beautiful women. You wrapped up your first night on campus at the Zeta party with a beautiful twin after arriving late [With Elly after Park](#), or soloed in [Sophie's Room](#) or [Natalie Alone](#). Today is also the first day for the New You! Right now you're almost late for class when you run into either [Sophie](#) or [Natalie](#) looking for her sister.

#) NATALIE FINDS YOU

#) SOPHIE FINDS YOU

Sophie teases you about sleeping with Natalie...

-) *I guess.*

+) *I'm sure she's fine.*

A little reassurance is appreciated. Surely the missing twin will show up. In the meantime, you're definitely late for class and it threatens to spoil your plans to be as inconspicuous as possible. Maybe nobody will notice.

Photography 101

Sneaking unobserved into your first class is not going to work out for you today. Damn! Your photography instructor is hot but the attention she's giving is not the kind you want. Don't make excuses, just apologize and find a seat. You won't gain any points by apologizing; but you won't lose any either.

Your professor lays down the cell phone law and then shatters your idea of her class being an easy A. You have to make a decision about switching to PHOTO 201 by the end of class. Mai asks your thoughts about the professor.

Ooh, it's the Red-Haired Girl from the party! This may be your first time talking to her if you had that drink with Kevon then went to talk with the kitchen coeds. You came by to provide a bit of comfort to one of the twins from last night. Before that, you have a proposition to consider.

Memories:

R5/C3 – ALEXIS & SARA Zeta

You're greeted by two Zeta girls whom you may or may not have met at last night's party. Lots of discussion and (if this is your first meeting) a couple of **Photogram** connections later, you're asked to decide between photographing Alexis's Campus Campout or Sara's Sexy Sleepover events. These are two paths you'll most definitely have to explore!

TIP: This is another case where one girl will like what you have to say and the other won't. Earn 3 likes each from Sara & Alexis and you'll end with the same number of points you started. If you saw Sara at the dorms you'll start with an extra +/-1. Your last answer should go to the one whose event you will photograph to keep her EC unlocked.

HINT: Depending on which twin is missing, Natalie will be at the Campus Campout or Sophie will be at the Sexy Sleepover.

- If none of that applies, it's time to head over to [Monica's Office](#) to find out what she has in store for you after fucking up not just one, but two first days of her classes.

Gym with Kevon...TapThat

After your workout, Kevon has an idea that's guaranteed to help you with the ladies. They will be delivering sex to you just like the pizza place—hot and delicious!

+) I guess that is pretty simple.

-) It's not that simple.

Kevon insists you use the app. You can choose all, some, or none of the ladies. If you don't give Paloma a thumbs up, it's off to [Monica's Office](#) or provide [Mai Homework Help](#). If neither of those options are on the table, go back to your dorm for [Kevon, Weekend Plans](#). If you picked her, it's a quick match! Continue below....

Week 2, Moan Daze

Time to kick off your second week of college with another English class. At least Elly is here!

Elly English 101 Redux

Your conversation with Elly depends on how things went on [Laundry Day](#) and if she was with you when you ran into [Officer Ortiz, Dorm](#). Ashley texts you first thing about your availability to photograph a house. Of course there's only one answer!

You and Elly catch up on events since your last encounter and then the conversation turns to your homework assignment.

+) Oh. *Shit*. I forgot.

-) Oh. Yeah... I totally did.

You're suddenly faced with an ethical dilemma, which will undoubtedly come back on you later. But in this moment of panic you have a choice to make.

Week 2, Freakend Bonds

Fuck! Or should you say “Fucked”? You discovered Elly’s crazy secret that sent you for a loop. Then you found Officer McCringe staking out your hallway for a trip downtown. If the New You learned anything since starting college it’s to keep your mouth shut and lawyer up.

Oh shit, Monica wants to talk to you about your level of photography experience and your precarious relationship with the truth. Regardless your path her, there's no doubt Monica has challenges in store for you.

- If her relationship is <1, hop beat feet to [English 101 – Results & Ramifications](#).

EC -) I'll pass.

EC +) Okay.

Continue to your next class below.

English 101 – Results & Ramifications

Elly is late for class. You wonder if she's even going to show today after the weekend's revelations. The quiz results are in...The instructor is suspicious of one (or two) student scores depending if you copied off Elly or not.

At least you don't have any choices to make here to fuck up an already fucked-up situation. You leave Elly on less-than-pleasant terms. Continue to [Delia – Hypnosis Round 2](#).

Delia – Hypnosis Round 2

Delia receives you for your third counseling session. She's dressed to match your hypnosis therapy choice from last week at [Delia Hypnosis](#). You will continue to explore that choice today.

Delia wants to know if you accomplished your “mission” to exert control at least once during the past week. Your responses depend on your encounters over the past week.

At least there's one thing you can always count on—Delia's counseling sessions are never dull. From here you go back to your room and sleep.

Back at the dorm thoughts of your last therapy session run through your head.

You finally fall asleep. Is it your brain simply processing the revelations from your last session with Delia that's haunting you...or is it your raw, naked past?

Week 3, Thrust Day

Morning Questions

You wake up more dazed and confused than ever. You send Dad a text, hoping for some answers. Unsurprisingly, he won't even take time for you. You're not sure why you expected anything different. If you can't talk to Dad or Ashley about the past. You decide to turn to the only remaining person who was there ... Elly.

+) *I'm really sorry about that*

-) *That wasn't my fault*

-) *I didn't mean to hurt you.*

+) *I'm truly sorry.*

She says things should be left buried. Hmmm, that's what Dad said in your dream. No time to dwell on it now.

What could she possibly have planned for your next assignment? You can't help but wonder as you put on your pants and leave the building. Continue below.

Campus Encounters

You leave Monica's building engrossed in your phone and hear a familiar voice. Kevon catches up to you full of questions. You have a lot to catch up on since your last time together. Your phone grabs your attention ... a couple of new texts.

Andre wants a meeting; it doesn't matter how you answer him. A new EC message from Alexis depends on IF you already had a first date with her AND her relationship is still >0. Otherwise she simply asks you to meet her at the tennis courts to take some action shots for her PhotoGram. Great! Now you have two meet-ups scheduled; one you are actually looking forward to keeping.

Kevon detects your change in mood. After you tell him about Andre, IF his friendship is >0, he offers to go with you but you don't want him to get mixed up in this. You part ways with Kevon telling you to let him know if you're still alive.

Next you run into Sara:
