

## **Futa Concoction Guide**

by Ero Bakugou (<https://f95zone.to/members/erobakugou.3877637/>)

Game ver: Chapter 1 (so far but i will update it later on)

This guide is made in a very easy step-by-step way. I understand that can be frustrating but after so many people getting lost on simple things I imagine that is the best approach.

This guide will sometimes have a direct approach and sometimes will have multiple choices, to reflect the game nature.

I will try to reduce spoilers, so i'm not naming any scene, in the future i will try to enumerate them and put references (again to reduce spoilers)

I included the ingredients on this guide but if u get confused check the game creator Ingredients guide:

<https://docs.google.com/document/d/1jVOw2J8qjkq39ZJjt8jlb9zKow9YBcFkRjnqSGPXPlg/>
