Books of Sin	
Volume One - Gluttony	Already included.
Volume Two - Greed	Found in MC's room.
Volume Three - Sloth	Found under Annabelle's arm in the study.
Volume Four - Envy	Olivia has the book in her possession.
Volume Five - Pride	Found in Victoria's room.
Volume Six - Wrath	Already included.
Volume Seven - Lust	Found in Madeline's room.

In order to unlock the door in the basement (once you have the key), use the colors you saw in the bookcase that corresponds with each of the volume numbers of the books of sin and the paintings throughout the mansion.

Hint: The pass-code for the door that represents the colors of 7 books of sin will change with each play-through. So the code may not be the same for everyone. This was intentional and not a bug.

This is an example of the color code you *might* see, not the actual color code itself.

Using these examples, the hypothetical pass code would be: 1243

Fight Scene

In the fight scenes, you ***must*** use your arrow keys (up, down, left and right) to select the appropriate arrow that drops down into the circle on your screen. Anywhere outside the circle is a miss. Losing the fight is not on option, otherwise you would be fired from your job. Orange and green are hits to your opponent, while red is considered a miss (and he lands a shot on you).

Killing Rabid Squirrels

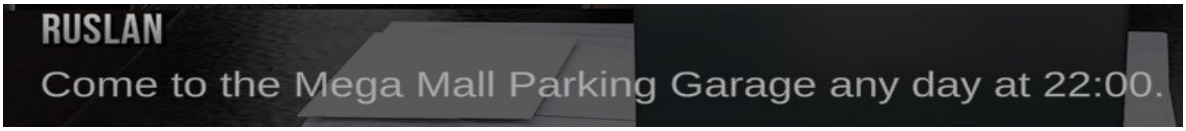

You must kill 20 squirrels by clicking your sword pointer on the eyes before the timer runs out (within 30 seconds) which will appear in 15 random locations in order to earn 10 gold (to initially enter through the city gates). You will also receive bonus points for completing this task (this mini game is repeatable, once per day, but you will *only* gain additional bonus points for each replay).

How to Earn Extra Money/Bonus Points/Increase MC's Stats

Currently (as of v0.3.0), there is only one way to earn extra cash you will need in order to purchase items at the Mega Mall, and that is by going to Ruslan's Fight Club located at the parking garage of the mall between 22:00 and 00:00 on any day of the week. Ruslan tells you this after you've paid your debt to him. Other ways to earn extra money will/may be added in future updates.

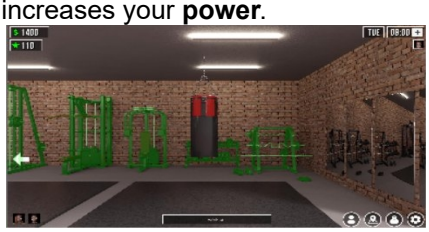

You *can* skip the fights, if you prefer, but you will not gain bonus credits, which may be required to unlock bonus content in future updates. You must also complete 5 fights (without skipping) in order to receive the "Brawler" achievement.

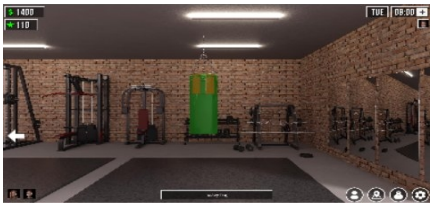

The stats for the MC are as follows:

Power		increases your base damage (working out with the weights).
Skill		increases your reaction time (working out with the heavy punching bag).
Endurance		increases your hit points (taking laps in the pool).

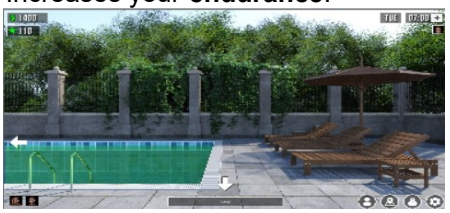

Using the weights in the basement increases your **power**.

Using the heavy bag in the basement increases your **skill**.

Swimming laps in the pool Increases your **endurance**.

Important info: Note that the only times you can workout in the basement or swim in the pool are when the girls are not working out, sunbathing or swimming, and Kate isn't cleaning the pool area.

As of v0.3.1, there is another way to earn extra bonus points by logging into Hentai Impact at any time of the day and playing the rabid squirrel mini game at the Pristine Forest. You can only do this **once per day**, but remember, do not play the mini game when you are required to take one of the girls to their appointments on time, otherwise you will be fired.

Requirements

Flirting with Madeline at the pool requires **25 love**.
Checking on Victoria when you take her to her boxing lessons requires **25 skill**.
Joining Olivia for the swimming contest requires **50 endurance**.
Modeling for Annabelle requires **50 strength**.
Doing Victoria's front (when she is sunbathing) requires **45 love**.
Boxing training for Victoria requires **50 skill**.
Letting Victoria win during your boxing lesson with her requires **50 lust**.

Important information

Side note #1: Make sure to visit the fight club (once unlocked after paying your debt to Ruslan) often in order to earn extra spending money for items you will need to buy at the mega mall. To start with, you will need to buy: boxing gloves ($150), men's workout clothing ($100) and swimming trunks ($200). Other items to help boost your stats are: mouth guard ($75), protein powder ($125), jump rope ($150) and swimming goggles ($150).

Later on, you will need to buy the women's workout clothing ($275) and maid uniform ($1000). So you will need at least $2225 to buy everything listed above (as of v0.4.3).

Also, don't forget to workout and swim laps at the mansion to increase your stats (after you buy the 3 main items you will need), as some will be required to be at least 50 for some stats to progress the girls' (Olivia's, Victoria's and Annabelle's) story-lines.

Side note #2: Working out with the weights helps gain stats for Annabelle's nude portrait modeling.
Working out with the heavy bag helps gain stats to check on Victoria and help her with her boxing lessons (after defeating Devon).
Swimming laps helps gain stats for Olivia's swimming contest.

Side note #3: Before you begin your training with Victoria, then subsequently checking on her to make sure she does her chore, make sure that you do not train her on a Monday night or Wednesday night, due to the fact that taking Madeline to work and checking on Victoria takes place at the same time (14:00 on Tuesdays and Thursdays). Both events can't be done on the same day, which would lead to you getting fired by Madeline if you decide to check on Victoria.

Side note #4: Bonus points/Bonus credits earned from both the fight club and squirrel hunting (later on in HI) are not implemented as of yet. They will be required in future updates.

HI = **Hentai Impact -** The name of the game you install on Olivia's laptop after she leaves it in your bedroom on the desk.
