FAQ

[Frequently Asked Questions](#)

By JohnnyLee[QA] and 2 collaborators

7 Jun, 2023 @ 5:04pm

How do I get the spank bank scenes of Raven?

You'll unlock 2 scenes while doing the Tuvatuva Reality TV quest. Be sure to choose to go all in when she asked you how do you want it to end. 3rd scene comes with another options you can go for: **have sex like what you did on the boat** (gets you this scene), or **take it slow** (gets you the wallpaper).

NOTE:

You can save and do option 1 first, then reload to do option 2 for the wallpaper.

How can I invite Karen to drink wine?

You can unlock this by clicking on the wine boxes once you've obtain the Corkscrew.

NOTE:

You can only invite Karen for a drink during the Evening.

I cannot trigger the Pool quest (Recostarte the Piscina)

You need to sunbathe with Maria at least once by clicking on the lounge chairs.

NOTE:

This will also unlock the option to buy swimsuits. But you'll need to also unlock the Gifting option by doing the quest from Reyna to be able to give it to the girls.

When can I open the Bar?

There are 2 prerequisites for the bar questline. (1) Once you get the resort generator working and (2) after you cleaned your room.

How can I unlock the wallpapers?

Wallpapers can be obtained in two ways.

- If you reach 25/50/75/100 relationship points with the girls. You'll receive a chatty app message with a flirty image from them.
- Chatty app messages comes at **NIGHT TIME**.
- If a certain quest you completed comes along with a wallpaper.

I seem to ran out of quest, what do I need to do?

Just... Play the game.

Please don't follow a checklist, there's literally nothing that's that hard to get to 😞 Just spend time with the other girls, advance the story, get to know the island. And for the love of god, if there's a lizard, let it be until the story tells you how to remove it.

The basic pattern for the girls:

- Relax (smoke with raven, sunbathe with maria, etc), flirt and serve them drinks.
- Reach a 'threshold' (25/50/75/100). That will trigger a 'level up' quest (if it's done yet, not every girl have all their level up quests done yet).
- Solve that, now you can advance to the next threshold.

- Some quests need other quests to trigger, so if you reach a threshold and it doesn't fire off a message that night/next morning, go look around for other girls you haven't finished yet the other big one that tends to blindside people is that a fair chunk of content is locked behind the relaxation activities like, the pool cleaning event won't happen until you've relaxed at least 3x with Maria at the pool, because at that point she'll complain that the pool stinks, and Jack sets out to fix it, but some people never relax (or even realize you can relax with Maria by clicking on the sunbeds), they just flirt, so they never trigger the pool quest, which is a big nexus for a bunch of stuff.

Unlocking Jenny, Olga and Mi Sun:

- You need to discover the radio in the wrecked plane and have Gabby help you fix it

Unlocking Tori:

- Getting rid of the lizard at the bungalows as well as catching Hiro via the camera at Andreas hut

Unlocking Grace:

- You need to have built Olga's bungalows and have Tori at a romance level

Unlocking Rachel:

- You need to get Grace at 35 points
