1 Getting started and words from walkthrough creator

Thank you for downloading and using this guide. Straitened times is a fun adult themed game that can be overwhelming at first. This walkthrough should help new, returning and veteran players navigate the game's different girls, be it their one on one or group sex routes.

Before getting into the girls themselves, here is some basic info about the game. This game lets you choose who you want to progress with. If progression for a certain girl is locked behind a certain event or route from another girl it will be noted in the guide and you'll have to go complete that other thing first.

1.1 Sexual tension or allure, opinion and conflict

Sexual tension is how the game measures if you're ready for a next step with your partner. You gain this by performing actions with them throughout the day. NOTE that you can perform the same action multiple times to gain tension until suddenly it says it is drained or you are beyond it. Sometimes it is necessary to repeat a task in order to progress. If you try and do something before having the required sexual tension your partner will reject.

Opinion is the indicator of what your partner thinks of you. it can go up to 100. Some actions can cost you some opinion whilst others gain you opinion. Discussing topics is the easiest way to get the opinion up. If you have too low of an opinion, you might not be able to progress with your partner. Be sure to keep opinion at 100 as much as you can

Game overs are not that common in this game, however they do exist. They are related to conflict. If you make your family too angry (by skipping dinner too much, broken bathroom lock, letting them stay in the same room for too long) it's game over. You prevent this by looking at your phone under personal status. Don't let conflict reach 100 between 2 girls or yourself and a girl. Switch rooms during the commune dinner, don't get the broken lock too much and don't skip dinner too much to make the Conflict meter go down.

Personal Status

1.2 Route progression

Route progression in this game can be very tricky. In This walkthrough, routes are divided into 3 categories: Routes that can be started upon finishing the girls' first steps, one on one routes that need some progression from another route first before you can start them and group sex routes. These will be indicated by a colour. Requirements to start a route or specific step in a route will always be indicated in the route title. For group sex routes, the requirement will always list a full completion of a route for the participants (Except when Sam the photographer is included). This does not mean you need to have those full routes completed to start the group sex route, but IT DOES MEAN on a certain point during the group sex route you'll need to have completed those full required routes.

To progress from one step to another in a route, most of the time you'll have to repeat the step a few times until the next one unlocks. The general rule within this game is that you have to have either done the same step three times or you've repeated the step until you cannot gain any sexual tension anymore from doing the same action. Normally this should enable the next step. If not, repeat it again a few times. In some rare cases you'll need to do some specific stuff, this will always be noted in the route itself. **The final step every route must also be completed three times.** If completion of the route is required for another route (like a group sex route) in a lot of cases you'll have to have completed the final step three times for it to finally unlock the new route/ new step of a route.

1.3 Resources, consumables and extra's

There are a few resources in this game. The most important being money. This can be earned by doing jobs. For consumables there's 2 types: Sex shop items and alcohol. Sex shop items, like the name suggests, are required to have condom sex and anal sex. The blindfold is unique for Andrea for now. Alcohol is required for different routes. Consumables will always be noted in the steps when they're needed. Finally there's the extra's. These are things you can rent at the motel when talking to Darna the motel manager.

X-shop (unlocked in the Lily's job route)	
1 Condom	Needed for almost any girl, buy plenty of these
2 Lube	Needed for almost any girl. Required for Anal sex (has 10 uses)
3 Blindfold	Only needed for Andrea at this moment

Bar (Unlocked in Jill's job route. At the strip club)	
1 Alcohol	Here you can find all alcohol, needed for multiple routes.

Money (The backbone of multiple routes)	
1 Roadside Diner	Low income for 2 hours of work. Work 14 days for a promotion (promotions needed for multiple routes)
2 X-shop	Work here for a big part of the day for decent salary (unlocked in the Lily's job route)
3 Bank	Do some dirty business to get a lot of money (unlocked in Andrea's first steps)
4 Online casino	Let's go gambling! (Search for a job on the internet until you find it)
5 Photography	Let Sam take pictures of one of your girls, you get some money of it

Motel extra's (Unlocked in Darna's route)	
Single bedded room	Costs \$50/day (Permanent if you completed Lily's Girlfriend route and have enough sexual tension with Lisa. Request Single bedded room when talking to Lisa)
Adult TV (your or girls' room)	Costs \$30/day
Bathroom lock (your or girls' room)	Costs \$50/day
Rent alternative room	Costs \$50/day

2 Basic day step by step guide			
Route A: Monday to Friday		Route B: Weekend	
1 Waking up (8:00)	If you want to do something earlier in the day that's fine, but 8AM is the ideal time to wake up on your basic day	1 Waking up (whenever - 19:00)	No school or obligation to wake up at a set time. Do what you want
2 Go to school and start lessons (9:00 - 13:00)	You need a good attendance for some quests so going to school as much as you can is recommended	2 Commune dinner	Commune dinner is important to keep everyone happy. if you skip it too much it's game over. So try to miss it as little as possible and try to pay for everyone when you can for more opinion boosts
3 After school (13:00 - 19:00)	Now you have some freedom do whatever you want	3 After dinner (20:00- 8:00)	Now you have some freedom do whatever you want
4 Commune dinner	Commune dinner is important to keep everyone happy. if you skip it too much it's game over. So try to miss it as little as possible and try to pay for everyone when you can for more opinion boosts	Weekly tasks	
5 After dinner (20:00 - 8:00)	Now you have some freedom do whatever you want	1 Roadside dinner	You have to work twice a week in the roadside dinner. this is to not lose your job and be able to get a promotion if you work enough. make sure to get enough promotions to get access to content later on
		2 Family happyness	Make sure everyone in you commune is happy. Sharing a room with each other makes the girls frustrated with each other. when the marker after the holy commune diner to stay how you are becomes red, it's time to change your room partner

3 The girls' routes

The girls will be listed in logical order of meeting. This way if you're just starting you'll find the girl you're working on a bit more easy. For every girl the following will be available: The routes, some general info about the girl, some words of advise, their topics to talk about and the colourcode for the routes

Lisa Gardner step by step guide

Lisa is your holy mother. After your dad was arrested and it became clear he wasn't a 1 woman man Lisa broke all contact with him. She sees you as the new man of the family, will you rise up to the challenges ahead?

4 Getting stuck and errors

If you ever get stuck on a girl, follow the following steps:

- 1 Have you maxed out sexual tension for all available actions or is something still effective? If the latter, keep repeating it until everything is drained and try the thing you were stuck on again.
- 2 Still stuck? repeat the last step of different routes 3 times. this is the magic number to unlock something new in a lot of cases
- 3 Still stuck? the route may be bugged or you've already reached the end of the route. It's also possible it's pure luck related and you're getting unlucky.
- 4 An error occurred? look in the dev's discord if it was already reported. If not, report it in the bugs and issues.
