LIST OF TIMELINES	159
LIST OF FUN POINTS	159

This walkthrough is based on the one made by **KamelKido**. I'll take control over this one so it may start to differ. There are new sections, color code for memories and new timelines.

This walkthrough uses the timeline feature of the game to avoid replaying the same scenes too many times. The list of timelines used is displayed at the end.

Color Code:

CAS memories and Fun Points

Day Events

Girl Events

Girls and outfits unlocks

Timeline Related and Locations Unlock

If you don't want to use the timeline system or if you missed to save one, you can refer to this list to replay the corresponding path.

It also uses the 'Go back one timeslot' feature, with the left arrow in the top-left corner.

MINI-GAMES

• **SELF-CONTROL:** Just focus on the color when ask about COLOR and text when ask about TEXT

- first time (color)
- second time (color)
- third time (color)
- forth time (text and color)

• **PERSUASION:**

How to win:

- First you need to determine the nature of the four sectors: there is a very good one, a good one, a bad one and a very bad one.
- You can see this by looking at opponent's face: the more he's smiling, the better is the sector.
- Try to pick good sectors when they are at maximum size and bad sectors when they are at minimum size.
- Remember that at each round you need to pick the 4 sectors.

- You need to reach 100 points before round 10.
- Jessie is not supposed to be beatable until you have self-control 2.
- **LOCKPICK:** You need to find a code which consists of 4 different digits. You have 10 attempts. Each time you will see how many digits you guessed in the required position and how many digits you guessed in a wrong position. This game is also called 'Bulls and Cows' or '4digits'.
- **MASSAGE:** This is a classic slide puzzle
- **PICKPOCKET:** Principle of the card game Concentration: you need to turn over pairs of matching cards.
- **SNEAK:** Principle of the Minesweeper game: clear the board avoiding the guards. The numbers tell you how many neighboring guards there are.
