

The Photographer

Walk-through v1.3.1

The Photographer: After graduating from university, you start to work as a photographer in a small agency. But after a business trip, your boss requests you to let a Japanese model live with you for a short time. But your apartment is only big enough for a small bed. Furthermore, he wants you to turn her into a slut for his own scheme. What will you do then?

Depending on your choices, the game will lead you to one of these routes:

- **Gentleman Route:** You keep being nice and try to help the women. At the end of the story, you'll be able to choose one of the women or all of them.
- **Jerk Route:** Even though you act like a jerk, you still try to help the women in secret. At the end of the story, you'll be able to choose one of the women or all of them.
- **Sharing Route:** You act like a jerk and share the women with other guys.
- **NTR Route:** You have to watch other guys fooling around with the women.
