My Demonic Romance

Version 1.0.0

Lily

Age: 18 in demonic years.

Birthday: June, 6th

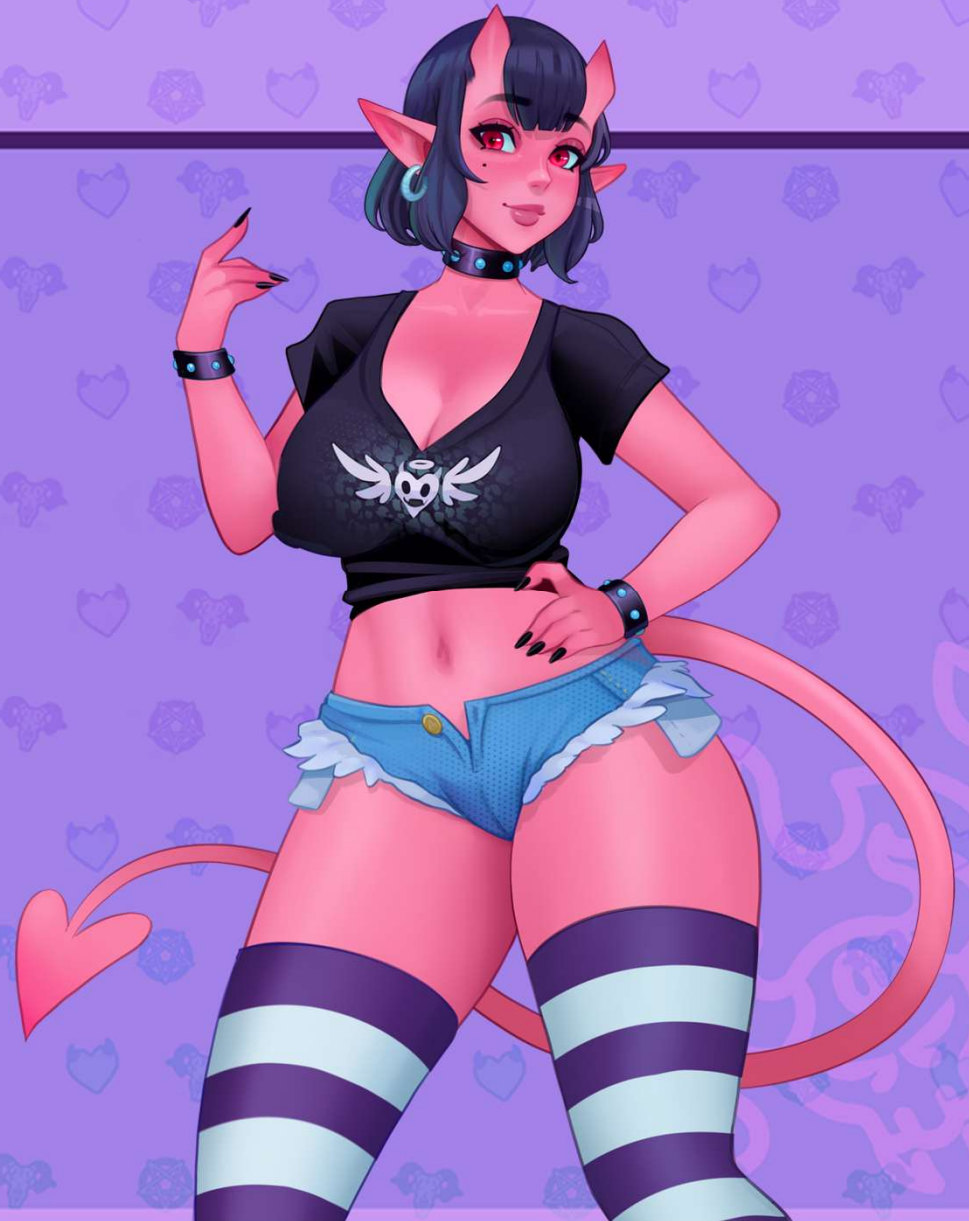

Blood Type: S... what does this mean?

Cup size: D... ah, this one, I know.

Likes: Lust, pride, greed, slo... oh, you got the idea.

Personality: For a demon, she's quite charming!

Voiced by Mimi Hung

Walkthrough

Many choices forge the kind of relationship you will have with Lily. This is represented by 3 scores, invisible to the player.

- Girlfriend: the romantic loving side of Lily. If Lily has a high Girlfriend score, you will develop a more romantic relationship with her.
- Queen: Lily's dominance. After all, she is royalty. If Lily has a high Queen score, you will be her pet.
- Slave: Lily's submission. Why lose your soul to a succubus if you can't do whatever you want with her? If Lily has a high Slave score, you will become her master.

All these scores will have an impact on the whole story and obviously on the ending.

If you select NTR choices, you will gain access to scenes where the hero shares Lily with other men.

Bar or College? Don't choose lightly. This will impact the setting of the first chapter of the story.

about Lily's problem.

Walkthrough

Since Chapter 1 was all about your relationship with Lily, you've already chosen your perfect girlfriend. This means Girlfriend, Slave, and Queen scores (and the optional NTR) are set and will no longer evolve (but they still influence Lily's behavior... and others as well).

In Chapter 2, you meet Lily's family, and you will try to make them accept you. Since "Daddy" is beyond any of your attempts, you can only influence Lily's mother and sister.

This is represented by two new scores, invisible to the player:

- Blandine: seduction of Lily's mother. As an angel, she will approve of charitable or wise choices.
- Macaria: seduction of Lily's sister. As a demon, she will approve of ruthless or bold choices.

There are several ways to survive Hell, but all of them require you to correctly manage your potential allies.

Personality: Narcissistic psychopath or tough lover... I don't know yet.

Voiced by Lady Jem

Lucifer aka "Daddy"

Dick size: Whatever is best for the damnation of his partner.

Back to Earth

Time to go back home. Nothing strange should happen, right?

Your adventure with Lily will continue in the Chapter 3 of "My Demonic Romance".

Walkthrough

After your hellish adventures, you managed to get back to Earth in one piece. Congratulations! You can return to a "normal" life.

And what is more normal than presenting to your parents your new and lovely fiancée? Alright, she is a succubus, but Lily is probably accustomed enough to a mortal life to act without alarming Hector, your father, and your stepmother Claire, right?

In Chapter 3, it is time to present Lily to your family. Obviously, it will not happen without any troubles. Especially since some old crushes came to join the party? And what about Hestia, your strangely possessive cat?

This chapter is less dangerous than the previous one. It is not a question of life or death; just pleasure.

This is represented by two new scores, invisible to the player:

- Angela: seduction of an old friend's mother. If she reminds you of someone, the answer is yes. She is the same Angela from "*Love & Sex: Second Base*" (thank you if you ever played it).
- Riley: seduction of your high school sweetheart. She is back. The question is, "Have you still feelings for her?"

Hestia the cat has her own narrative arc all throughout this chapter.

Walkthrough

Time with Claire and Hector was... fascinating. And now we can expect to find ourselves back to a quieter life. Of course, the word "quiet" seems a little odd when we are talking about a life with Lily, but all parents have been met, and at this point, nobody lasts to oppose your domestic happiness, right?

How could we be so naïve? Of course, the real troubles are just beginning now!

In Chapter 4, unexpected dangers will appear, mysteries will be unveiled, and supernatural forces will be unleashed.

There are two new scores, invisible to the player:

- Hestia: What role does the family house cat play in all of this? This score will determine whether Hestia is a valuable ally or a dangerous adversary.
- Georges: an angel on a mission. She presents the most apparent threat in this chapter. Her score offers an opportunity for victory, though it may come at a significant cost.

Unlike Blandine and Macaria, or Angela and Riley, these two new characters do not truly compete with one another.

Georges
